Henderson, NV 89074

Revision of:  
Bulletin No 13-01

Revision date  
July 10, 2015

ACCIDENT INVESTIGATIONS – ELEVATORS AND OTHER RELATED  
EQUIPMENT

This Notice summarizes the actions to be taken when an accident occurs.

Pursuant to NAC 455C.526, the owner or agent of the owner must promptly notify the Mechanical Compliance Section of the Authority Having Jurisdiction of every accident involving an elevator or escalator. In Southern Nevada call 702-493-8764 and Northern Nevada 775-200-8173. If an accident may have been caused by the failure, malfunction or destruction of any part, the Mechanical Compliance Section requires that the object remain turned off until the elevator, escalator or related equipment has been made safe; re-inspected; and any repairs, changes, or alterations have been inspected by the Mechanical Compliance Section.

This is only a summary. Prior versions of this Bulletin are hereby rescinded. This summary does not include or amend the existing statutory or regulatory requirements. Please refer to NAC 455C.526 for the full and complete details.
