The 11th Annual Workers’ Compensation Educational Conference was an absolute success! Held at the Tuscany Suites Hotel on September 7th and 8th, this event was organized by the State of Nevada Workers’ Compensation Section, in collaboration with the International Workers’ Compensation Foundation (IWCF). The event attracted 279 attendees from various corners of the industry. It was a true gathering of the best and brightest minds. This year’s theme was “The Human Connection” and we had the privilege of hosting Robert "Bob" Wilson as our Keynote Speaker to kick off the conference. As a founding partner and former CEO of WorkersCompensation.com, as well as the current President of WorkCompCollege.com, Bob brought a wealth of knowledge and experience to the stage. But that was just the beginning! The attendees had the opportunity to explore the 23 vendor booths set up in the exhibit hall, where they could grab a steaming cup of coffee, indulge in delicious bites, and network with fellow professionals. And let's not forget about the diverse range of breakout sessions that awaited them. From thought-provoking presentations on subjects like Worker Misclassification and The Growing Impact of PTSD in Workers’ Compensation, to informative sessions on OSHA Overview, D-38 Indexing Update and D-35’s, Changes in the Workplace Panel, and the Legislative Update, and so much more!

We are thrilled to announce that next year’s conference will take place on September 12-13, 2024, once again at the Tuscany Suites and Casino. Mark your calendars and hope to see you all there!

Senate Bill 274 (SB 274) from the 2023 Nevada Legislative Session made significant changes to certain workers’ compensation laws, including those relating to claims administration requirements, rating physician eligibility and assignments, COLA reimbursement and assessment timelines, and benefit penalty payments and amounts. WCS has compiled and posted “Frequently Asked Questions regarding SB 274” to our website to help workers’ compensation professionals navigate these changes.

WCS will be holding public workshops and hearings on proposed regulations relating to SB 274 in the near future. Dates and times for workshops and hearings will be posted on the Division of Industrial Relations (DIR) Meetings webpage. Watch for emails notifying interested parties of these meetings.

**Benefit Penalty Complaint Form Process**

The WCS has updated the Complaint Form, which is now fillable. The form can be utilized for various issues, such as a medical bill, delay in benefits, delay in response to a written request, and among these is a request for a benefit penalty. The updated Complaint Form and Frequently Asked Questions page can be located at: [Complaint Form - 9/13/23](#).

The Insurer Compliance Unit is tasked with the investigation of benefit penalty complaints surrounding alleged insurer non-compliance with Nevada statutes and regulations relating to workers’ compensation claims. As such, when a complaint is filed, the investigator will send a copy of the complaint to the appropriate party i.e., Insurer or Third-Party Administrator. It is imperative that DIR/WCS receive access to the claim file and complaint response in a timely manner; however, many times no response is given and/or the claim file is not provided. Therefore, if a response and/or claim file is not received from the Insurer or Third-Party Administrator, the Insurer Compliance Unit will make an inference that the documents and/or evidence would be detrimental rather than favorable in the matter. For questions or assistance with a workers’ compensation complaint, call (702) 486-9080 or (775) 684-7270.

**Workers’ Compensation Audit Update**

In preparation for the 2024 audit cycle, we have announced the insurers selected for compliance review. The announcement was delivered electronically, and this marks the second year for this advancement. Here is an overview of the process:

a) The announcement included a link to a questionnaire. The questionnaire was intended to close on November 30, 2023.

b) The purpose of the questionnaire is to document the type of insurer and Third-Party Administrator, number of claims during the audit scope, and point of contact for the audit engagement.

c) The announcement also included a request for the list of claims for the audit period and total benefit payout amount for each claim reported.

The support received with the first electronic announcement is appreciated and the feedback was positive. The respondents rated the announcement an 8.8 out of 10 – thank you! We appreciate your feedback as we work to improve the regulatory oversight experience. For additional information send us a message at WCSAudit@dir.nv.gov.

**COLA Update**

Requests for reimbursement for 2022 COLA expenses were processed earlier this year by WCS staff. The Department of Business and Industry Fiscal Unit issued invoices to all insurers for the annual COLA Assessment on June 28, 2023, and were due July 31, 2023. Reimbursement payments to insurers for approved 2022 COLA expenses will be issued by DIR after the annual COLA Assessment has been collected. Insurers failing to pay the invoice for the COLA Assessment, or any assessment, are subject to penalties. WCS notifies reimbursement requestors by email of the status of their request and the approved amount(s) on a per claim basis. WCS also notifies by email the Assessment Contact in CARDS provided by each insurer that will receive a reimbursement payment of the total amount of the approved payment that will be issued. WCS encourages requestors to communicate with the insurers about what has been requested and approved by WCS, including specific claim information, so that insurers can apply reimbursement payments accordingly. For more information regarding the COLA Reimbursement Process, please visit our information page on the WCS web site at [COLA Info - PTD and Survivors Benefits Claims](#). Direct assessment inquiries to WCAssess-ment@business.nv.gov or (775) 684-7077.

COVID-19 WORKERS’ COMP CLAIMS

In response to COVID-19, new codes were added in March 2020 to the acceptable codes for reporting D-38 Claims Indexing data to allow WCS to better track claims relating to the virus. The new codes - Nature of Injury: 83 COVID-19 and Cause of Injury: 83 – Pandemic – may be used for reporting applicable claims December 2019 or later. The codes correspond to those adopted by the Workers’ Compensation Insurance Organizations (WCIO) and are used by the International Association of Industrial Accidents Boards and Commissions (IAIABC).

Ensuring Timely Workers’ Compensation Claims Reporting in Nevada

Nevada’s NRS 616B.018 plays a crucial role in the workers’ compensation system by mandating the Division of Industrial Relations (DIR) to index claims. Section 2 of this statute outlines the responsibility of insurers to provide the necessary information to DIR through the Claims and Regulatory Data System (CARDS), enabling compliance with this mandate. The following reporting standards must be followed to ensure that timely, accurate, and up-to-date information is readily available to all stakeholders involved.

D-38 Initial Reports:

Within 30 days of the Claim Determination (Acceptance or Denial of Claim).

D-38 Updates:

Within 30 days of any of the following events, insurers must promptly submit updated information to DIR.

1. **Benefit Start Date, End Date, or Type Change (TTD, TPD, PPD, Rehab, PTD):** When there is a change in the start or end date of benefits or a modification in the type of benefits provided (e.g., Temporary Total Disability, Temporary Partial Disability, Permanent Partial Disability, Rehabilitation, Permanent Total Disability).

2. **Change in Claim Determination (Denied to Accepted or vice versa)**

3. **Claim Type Change (Med Only to Lost Time/Indemnity)**

4. **Change to/from Catastrophic Claim Status**

5. **Finalized PPD Rating and Award**

6. **Claim Closure**

7. **Claim Reopening**

8. **Injured Employee Death**

9. **Any Correction to or Update of Injured Employee’s information:** Insurers should promptly notify DIR of any corrections or updates to the injured employee’s personal information, including name, gender, birthdate, Social Security Number, employer details, etc.

10. **Any Correction to or Update of Claim Information:** Similarly, any corrections or updates related to claim information, such as claim number, date of injury, nature of injury, cause of injury, type of loss, body parts involved, etc., should be reported promptly.

By adhering to these reporting standards, insurers guarantee that DIR continues to maintain an accurate and comprehensive database of workers’ compensation claims in Nevada. This not only facilitates transparency and accountability within the system but also ensures that all parties involved have access to the most current and relevant information.

Direct questions relating to Claims Indexing/D-38s to Indexing@dir.nv.gov.

**D-38 Claim Status Definitions**

The status for claims submitted can be found in the Claim Submission table of the insurer home page. A new submission or corrected submission will have a status of Pending. Further processing will change the status accordingly. See below for the different status definitions. The table can be filtered by “status”.

1. **Pending** – Submission has been received by WCS and awaiting review by staff.
2. **Corrections Required** – Submission has been reviewed and errors found. Errors must be corrected before approval. If errors are not corrected within 11 days, the claim will be rejected.
3. **Rejected** – Submission has been reviewed and rejected. A new D-38 claim will need to be submitted.
4. **Approved** – Submission has been reviewed with no errors found and processed.

**Attention Rating Physicians and Chiropractors**

The State of Nevada announces a 12 hour course on the *AMA Guides to the Evaluation of Permanent Impairment, 5th edition*, on December 9-10, 2023, in Las Vegas. Current law [NAC 616C.021(4)(d)] requires all raters to take a course approved by the DIR Administrator concerning the AMA Guides, 5th edition, every two years. The course scheduled December 9-10 is recommended for all raters who have not taken an approved course regarding the AMA Guides, 5th edition, within the last two years. Those licensed as MDs or DOs are not required to take the updated NIRSAT exam. However, WCS anticipates all rating chiropractic physicians will be required to take an approved course and pass the revised NIRSAT exam, should passage of regulation R076-23I.pdf (state.nv.us) occur as currently drafted. The difference is that current rating chiropractic physicians have not been tested on material from all the approved chapters of the AMA Guides, 5th edition. The revised NIRSAT will be offered the afternoon of December 10 for those who wish to take it at that time. For further information about the AAEME course and NIRSAT examination, please contact AAEME at https://www.wpirs.com. For all other questions regarding the WCS Rating Panel of Physicians and Chiropractic Physicians, including anticipated regulatory changes, please email Katherine Godwin, Medical Unit Chief at kgodwin@dir.nv.gov.

- Each insurer shall, not later than October 1 of each year, update the list of physicians and chiropractic physicians and file the list with the Administrator. The list must be certified by an adjuster who is licensed pursuant to chapter 684A of NRS.
