

Table 17. Annualized incidence rates ¹ for nonfatal occupational injuries and illnesses involving away from work, job transfer, or restriction (DART)² per 10,000 full-time workers by selected worker characteristics, major occupational group, and selected sources of injury or illness, private industry, Nevada, 2023-2024

Characteristic	Private industry	Source of injury or illness ³													
		Chemicals and hazardous materials	Containers	Utility carts, hand trucks, dollies	Furniture and fixtures	Machinery	Parts and materials	Activities and conditions of injured, ill worker	Person other than injured or ill worker	Student, patient, charge	Ground, travel, and support surfaces	Hand tools	Portable ladders and stairs	Trucks	Sources, all others

¹ Incidence rates represent the number of injuries and illnesses per 10,000 full-time workers and were calculated as: $(N/EH) \times 20,000,000$ where

N = number of injuries and illnesses during the reference period

EH = total hours worked by all employees during the reference period

20,000,000 = base for 10,000 equivalent full-time workers (working 40 hours per week, 50 weeks per year).

² Cases involving days away from work, job transfer, or restriction (DART) are the sum of cases with days away from work (DAFW) and cases involving only days of job transfer or restriction (DJTR). Days-away-from-work cases include those that resulted in days away from work, some of which may also include days of job transfer or restriction. Days of job transfer or restriction cases include those that result in only days of job transfer or restriction.

³ Based on the BLS Occupational Injury and Illness Classification System (OIICS) version 3 implemented for 2023 data forward. For complete information on the OIICS Version used in this year, see the OIICS manual page at <https://www.bls.gov/iif/definitions/occupational-injuries-and-illnesses-classification-manual.htm>.

NOTE: Dashes indicate data that are not available. Because of rounding and data exclusion of nonclassifiable responses, data may not sum to the totals.
