¹ Cases involving days away from work, job transfer, or restriction (DART) are the sum of cases with days away from work (DAFW) and cases involving only days of job transfer or restriction (DJTR). Days-away-from-work cases include those that resulted in days away from work, some of which may also include days of job transfer or restriction. Days of job transfer or restriction cases include those that result in only days of job transfer or restriction.

² Excludes farms with fewer than 11 employees.

³ Data for Mining (Sector 21 in the North American Industry Classification System) include establishments not governed by the Mine Safety and Health Administration (MSHA) rules and reporting, such as those in oil and gas extraction and related support activities. Data for mining operators in coal, metal, and nonmetal mining are provided to BLS by the Mine Safety and Health Administration, U.S. Department of Labor. Independent mining contractors are excluded from the coal, metal, and nonmetal mining industries. These data do not reflect changes the Occupational Safety and Health Administration made to its recordkeeping requirements effective January 1, 2002; therefore, estimates for these industries are not comparable to estimates of other industries.

⁴ Data for employers in rail transportation are provided to BLS by the Federal Railroad Administration, U.S. Department of Transportation. These data do not reflect the changes the Occupational Safety and Health Administration made to its recordkeeping requirements effective January 1, 2002; therefore estimates for these industries are not comparable to estimates in other industries.

⁵ Based on the BLS Occupational Injury and Illness Classification System (OIICS) version 3 implemented for 2023 data forward. For complete information on the OIICS Version used in this year, see the OIICS manual page at <https://www.bls.gov/iif/definitions/occupational-injuries-and-illnesses-classification-manual.htm>.

NOTE: Dashes indicate data that are not available. Because of rounding and data exclusion of nonclassifiable responses, data may not sum to the totals.
