Division of Industrial Relations Advisory Council
Meeting Minutes: November 21st, 2024

Item 5

1. Call to Order:

At 1:00 p.m. on November 21st, 2024, the meeting of the Advisory Council for the Division of Industrial Relations (DIR) was called to order by Chairman **Paul McKenzie**. Roll Call was taken by Heather Wilson.

Maureen Otsby, Jeff Seavey, and Susan Martinez attended via Webex. **Robert Benner and Paul McKenzie** attended in person at the Carson City Office. It was determined a quorum was present.

DIR staff present at the Las Vegas Office were **Victoria Carreon, Jodi McCollins, Todd Schultz, Christopher Eccles, and Heather Wilson**. **Jodie Tonkin, William Gardner, Michael Rodrigues, Eric Hall, and Rodney Neils** attended via the Carson City Office. **Sam Taylor** attended via WebEx.

2. Public Comment on Items to Which Action May be Taken

No items for public comment were raised.

3. Approval of Meeting Minutes of Previous Meeting – July 10th, 2024

Motion to approve from **Robert Benner** and was seconded by **Jeff Seavey**. The motion was approved unanimously.

4. Division of Industrial Relations Activity Update

a. Administrator's Update – Victoria Carreon

Administrator Carreon started the session with FY 2025 Updates which included the DIR Office relocation, implementation of approved key regulations by the Legislative Commission, OSHA & SCATS meeting Federal OSHA goals for FFY 2024, outreach efforts and a meeting with the Acting Labor Secretary.

b. Deputy Administrator's Update – Jodie Tonkin

Deputy Administrator Tonkin followed with an update for FY 2025 that highlighted the continuation of the CARDS Enhancement Project since the approval the year prior. Additionally, there is a positive trajectory of the improvement of employee retention with the current vacancy rate of 5.1%.

c. Mechanical Compliance Section-MCS – Jodie Tonkin

Deputy Administrator Tonkin provided the MCS FY 2025 Updates which started with the position of Chief Administrator Officer for the MCS section is vacant and interviews are being conducted. In other updates, MCS recruited two female Elevator Inspectors and one Elevator Supervisor, a new electronic payment program for Elevators and Boilers/Pressure Vessels, The Compliance Engine contract was approved, and current evaluation of the database currently utilized for Boiler Compliance.

Division of Industrial Relations Advisory Council
Meeting Minutes: November 21st, 2024

Item 5

d. Mine Safety and Training Section- MSATS – Rodney Neils

Chief Administrative Officer, Rodney Neils, provided the MSATS FY 2025 Update, which included participation in the 2024 International Mine Expo and the 2025 Western District Safety and Health Conference, completion of 67% of programmed inspections for FY 2025, and to-date, the completion/provided over 1500 technical assistance and consultations.

e. Occupational Safety and Health Administration-OSHA – William Gardner

Chief Administrative Officer, William Gardner, provided OSHA's FY 2025 Updates, which included highlights that OSHA surpassed the state's annual goal of inspections, the federal benchmark for time to initiate compliance inspections, and the benchmark for federal time to initiate letters of inquiry. In addition, CAO Gardner reported that over 42,000 employees were removed from hazards this fiscal year. OSHA initiated a partnership with CCSD Career and Technical Education Program and conducted a joint process safety management training with California, Washington, and Oregon OSHA/NDEP's Chemical Accident Prevention Program Unit.

f. Safety Consultation and Training Section-SCATS – Todd Schultz

Chief Administrative Officer for SCATS, Todd Schultz, provided SCATS' FY 2025 updates, starting with the announcement that SCATS had achieved all the federal and state goals for 2024. Moreover, SCATS conducted 200 visits, identified over 1,000 serious hazards, removed over 5,800 employees from hazards, provided 245 hours of training with 1,500 participants, and various successful outreach events.

g. Workers' Compensation Sections-WCS – Jodi McCollins

Chief Administrative Office, Jodi McCollins, provided WCS's FY2025 updates, which included hosting the 12th Annual Workers' Compensation Educational Conference, conducting WCS Outreach, bringing over 60% of non-compliant employers into compliance with workers' compensation coverage requirements, completing over 100 five-year audits, providing training on regulation changes and workers' comp training to the public, and working to address a 23% increase in Benefit Penalty complaints.

5. Regulations Update

- a. Executive Order 2023-008 (Rodney Neils)
 - i. R026-23AP – Revisions to Mine Safety and Health NAC 512- approved by the Legislative Commission on 9/13/2024.
- b. Implementing Legislation (Jodi McCollins)
 - i. R076-23AP – Workers' Compensation | Implementation of SB274 and AB244 changes from 2023 Legislative Session- approved by the Legislative Commission on 9/13/2024.
- c. Heat Regulation (William Gardner)

Division of Industrial Relations Advisory Council
Meeting Minutes: November 21st, 2024

Item 5

- i. R131-24A – Heat Illness- approved by the Legislative Commission on 11/15/2024.
- ii. Federal OSHA Proposed Regulation: Heat Injury and Illness Prevention in Outdoor and Indoor Work Settings. A brief summary of this proposed regulation was provided.

There were no questions on the regulations discussed.

6. OSHA quarterly complaint reports for April – June 2024
CAO Gardner was available for any questions pertaining to this report. CAO Gardner provided insight into forklift and trenching inquiries made by attendees.
7. OSHA quarterly on violations for April – June 2024
CAO Gardner was available for any questions pertaining to this report. Seeing/Hearing no questions, the chairman moved to the next report.
8. Impact of U.S. Supreme Court decision in Loper Bright Enterprises et al. v. Raimondo, Secretary of Commerce, et al. (Christopher Eccles, Senior Division Council)
Mr. Eccles provided a summary of this Supreme Court decision and its impact on the Division. There were no questions from Advisory Council members.
9. Agenda Items for next meeting
Seeing/Hearing none, the chairman moved to the next item.
10. Possible investigations or studies to be conducted
Seeing/Hearing no input, Chairman moved to next item.
11. Public Comment:
Seeing/Hearing no comment, Chairman moved to next item.
12. Adjournment
Motion to adjourn at 2:10pm by Robert Benner and seconded by Maureen Otsby.

State of Nevada Division of Industrial Relations

Division of Industrial Relations Advisory Council

Quarterly Meeting

February 19, 2025

Item 6: Administrator's Update- Victoria Carreon

- **FY 2025 Priorities**
 - Implement regulations recently approved
- **Key Budget Requests for FY 2026-27**
 - New Database for OSHA and Mechanical Compliance Section
 - OSHA: Add 2 new teams of Industrial Hygienists (18)
 - Workers' Compensation: Expand enforcement staff (4), enhance CARDS support (1), take on assessment functions (3)
 - Mechanical Compliance Section: Expand elevator, boiler, and admin staff (5)
 - SCATS: Add new supervisor position (1)

Item 6: Deputy Administrator's Update- Jodie Tonkin

- **FY 2025 Accomplishments**

- Filled Key Positions: Mechanical Compliance Section CAO & Senior Division Counsel
- Achieved lowest Vacancy Rate Statewide
- Implemented The Compliance Engine Contract Ensuring Compliance with Nevada Revised Statutes

- **Top Priorities**

- Complete user Acceptance for CARDS Enhancement project
- Train External and Internal User for New CARDS Development
- Improve Employee Morale and Retention

Deputy Administrator Jodie Tonkin attending a mine inspection at Isabella Pearl open pit gold mine in Mineral County

Item 6: Mechanical Compliance Section Update- Sherry Bixler

- **FY 2025 Accomplishments**

- Filled all Supervisor vacancies
- Completed 11,694 inspections
- Closed 16,191 deficiencies
- Implemented Wells Fargo E-Bill express. All generated invoices now give the payor the option to make a payment electronically vs. mailing in a check.
- Implemented contract to allow payment of elevator permits to come directly to State. Reduced processing costs to Authorized Inspection Agencies.

- **Top Priorities**

- Create an outreach program to educate owners of equipment having jurisdictional oversight.

Item 6: Mine Safety and Training Section Update- Rodney Neils

- **FY 2025 Accomplishments**

- Completed 312 compliance inspections and identified/eliminated 567 worksite hazards
- Provided over 2700 consultations/technical assistance industry wide
- Provided over 344 hours of classroom instruction training, totaling approximately 824 students

- **Top Priorities**

- Fill vacant positions in Elko and Carson City
- Increase silica sampling and outreach to ensure operators are complying with MSHA new standard
- Achieve zero workplace fatalities through targeted inspections and training outreach

Item 6: Occupational Safety and Health Administration Update- William Gardner

- **FY 2025 Accomplishments**

- Conducted 1,390 inspections and issued 958 serious or greater citations.
- Removed 33,978 employees from hazards.
- Launched electronic billing for citations and other payments.
- Used vendor to successfully interpreted 305 calls, representing over 152 hours to enhance customer service.
 - Top languages translated: 1. Spanish, 2. Korean
- Initial penalties vs current penalties: \$9.3 million vs \$7.0 million

- **Top Priorities**

- Initiate targeted PSM inspections by March 2025.
 - Inspections will be process-specific with capacity to expand to comprehensive inspections.
- Prepare heat-related enforcement strategies for this summer.
 - Worked with stakeholder group on guidance document before release.

Item 6: Safety Consultation and Training Section Update- Todd Schultz

- **FY 2025 Accomplishments**

- Conducted a total of 499 Safety and Health Consultation visits.
- Identified over 2,560 serious hazards.
- Provided 672 hours of safety and health training with 3153 participants trained.
- Achieved 251 Facebook and 565 LinkedIn followers on social media. (Holiday post pictured.)

- **Top Priorities**

- Develop and launch a new Heat Illness training class.
- Market and grow our VPP and SHARP partnership programs.

Item 6: Workers' Compensation Section Update – Jodi McCollins

- **FY 2025 Accomplishments**

- Completed 16,179 compliance investigations regarding mandatory coverage statewide, reducing uninsured workplace injuries.
- Conducted over 1,040 random sweeps, issuing over 500 Stop Work Orders for non-compliance
- Received and investigated over 460 complaints, including 207 benefit penalty complaints. Investigated over 200 medical and medical billing complaints and appeals.

- **Top Priorities**

- Increase in public training: Quarterly public training courses have been scheduled for WCS Basic Orientation, C-4 and Coverage Verification, D-35 training, and Medical Billing
- Increase Insurer, TPA and Employer outreach to ensure reporting deadlines, in-state office requirements and mandatory coverage requirements.
- Increase lacking specialties for the treating and rating panels of doctors. Outreach is ongoing.

Item 7: Bad Debt Write-Offs- Victoria Carreon

 Complaint Logs July to September 2024

Item 9

UPA #	Establishment Name	DBA	UPA Receipt Date	Receipt Type	Letter of Inquiry	Inspection	UPA Open/Closed	Severity-Subject	Hazard Desc & Location	Inspection Results/Comments
C-2217260	PETCO DISTRIBUTION CENTER #600		09/27/2024	Phone			Closed		1. On or about 8/13/2024, an employee had a respiratory exposure to sulfuric acid in forklift batteries while testing them with a multimeter.	Allegation invalid. Complainant did not provide adequate information to evaluate.
R-2180879	Vita Luxury Living Apartments		07/01/2024	Phone			Closed		Located inside unit 412: A contractor used methylene chloride to refinish a bathtub. The contractor completed the work, removed their portable local exhaust ventilation, closed up all windows and ventilation to the unit.	Allegation invalid. No alleged hazard to an employee.
R-2183862	ABC SUPPLY CO. INC.		07/09/2024	Online			Closed	O-Safety	1. Delivery drivers are required to load roofing materials onto roofs without fall protection which is exposing employees to a fall hazard.	Allegation invalid. No applicable standard violated.
R-2193348	TESLA, INC.		07/29/2024	Online			Closed		Located in the extended Milan warehouse: 1. Employer is only providing fans and swamp coolers for a small groups of people and not everyone. Water, shade, and routine breaks are provided.	Allegation invalid. No applicable standard violated.
C-2197046	AMERICAN FREIGHT		08/06/2024	Online			Closed	O-Health	Located in the Shipping Department the following hazards are alleged: 1. The soap dispenser located in the women's restroom is empty and has not been refilled. 2. The handicap stall located in the men's restroom does not have a functional lock. 3. The paper towel holder located in the men's restroom has been removed.	Allegations invalid. No criteria warranting an inspection.
C-2190256	TARGET		07/22/2024	Online	Y		Closed		Located at the front checkout registers* Cashiers are experiencing hot working conditions. HVAC is controlled from an offsite location and employees are unable to adjust thermostat.	Employees provided with water, rest, and shade.
R-2188143	LOWES HOME IMPROVEMENT		07/17/2024	Phone	Y		Closed		1. Located in the warehouse, air conditioning has not been working for 5-6 weeks, which is exposing employees to high temperatures.	Employees provided with water, rest, and shade.
R-2188200	TIRE RACK		07/17/2024	Online	Y		Closed		Their conveyor belt loading docks that load tire orders onto semi-truck trailers reach high temperatures with inadequate ventilation. Heat sickness and passing out is common but covered up and not reported. Workers who suffer health problems are pressured to not report and to not leave the property and workers that do try insisting to HR are told that they just got it from home. So they won't be believed. Their conveyor belt loading area is dangerously unsafe and a human health hazard. - Conveyor Belt Loading Area near Docks. Near Office inside the warehouse.	Employees provided with water, rest, and shade.
C-2197582	X TREME BULLETS MFG LLC		08/07/2024	Online		1769590	Closed	S-Health;S-Safety	Located at 25 Stokes (Main Building): 1. Employees are often tasked with accessing electrical panels to reset breakers that are regularly overloaded. This was happening routinely in July. 2. Multiple pieces of equipment are missing ground prongs resulting in employees getting shocked. Located at 31 Stokes (Secondary Plating Building): 3. Four months ago, an employee spilled fluoroboric acid (Corrosive) onto the shop floor that was improperly cleaned up. The chemical was mopped into the concrete ground creating a massive stain that can still be seen. 4. Employees are required to climb up and down from a chemical tank to load product into a tumbler large tumbler that weighs several hundred pounds. Management has trained employees to stand on top of a metal basket attached to a hoist which rests on a metal grate during this task that exposes employees to at least a 6-foot fall. The tumbler is also wet with soapy water making it difficult for employees to maintain at least two points of contact. 5. The previously mentioned tumbler could collapse due to being overloaded when employees load product into it for cleaning creating a crushing and/or struck-by hazard. Located in both buildings (25 and 31 Stokes): 6. Employees are enduring extreme heat stress daily while working around equipment that regularly runs between 140 and 500 degrees inside an enclosed building burning chemical containment water with PPE on. Two out of four exhaust vents no longer work, the shop will regularly reach 100+ degrees inside, and up to 120 around when closer to our chemical tanks and dryers. Multiple swamp coolers on top of the building do not work. The only source of cooling down is a small window mounted unit in the plating office, but it is too small to help. Management has not retrieved the large portable cooler from the storage building (Employees do not have access) despite being asked several times that would give them access to water in their work areas. 7. The catwalks in both facilities are not sized properly and employees often have to make dowels or spacers to prevent the catwalks from twisting or popping out of place. Employees have stepped through the gaps and fallen.	Inspection conducted. 1 citation issued - \$1,567.
C-2200157	X TREME BULLETS MFG, LLC		08/14/2024	Phone		1769590	Closed	S-Health	1. Employees working in the plating area are experiencing heat stress and not wearing their lab coats, gloves, and boots in an attempt to combat the heat stress. 2. The ventilation system in the plating area is not working exposing employees to cyanide vapors, tank water vapors, and evaporator vapors.	Inspection conducted. 1 citation issued - \$1,567.
C-2188681	Summerset Senior Memory Care		07/18/2024	Phone		1764642	Closed	S-Safety	Located in the walk-in freezer inside of the kitchen there is a buildup of ice on the floor creating slipping hazards for employees. One employee slipped on 7/14 and suffered bruises and sprains.	Inspection conducted. 1 citation issued - \$2,419.50.
C-2183984	JUST REFINERS (USA) INC.		07/09/2024	Online		1760960;1761008	Closed	S-Health;S-Safety	1. Employees are working in the hot facility without access to water, ventilation, or air conditioning. 2. Employees are operating forklifts and other equipment without training or certification. 3. Employees are exposed to mining tailings that are inhaled on the floor because they do not have proper PPE including respiratory protection.	Inspection conducted. 1 citation issued - \$453.
R-2188157	COURTYARD RENO DOWNTOWN/RIVERFRONT		07/17/2024	Phone		1763099	Closed	S-Safety	1. Sign installers working from height using rope access are not secured to a certified anchor point exposing workers to fall hazards.	Inspection conducted. 1 citation issued - \$6,857.
C-2188031	ALS USA INC.	ALS GEOCHEMISTRY	07/17/2024	In person		1764198	Open	S-Health	Located at the facility: 1. The ventilation system for the facility was down for 6 months; during that time, employee test results showed elevated blood lead levels. The ventilation system was repaired in April 2024. 2. Employees are allowed to work in lead-hazardous environments with elevated blood lead levels. 3. Located in the shower area, PAPR storage area, and clean room, there is a visible accumulation of lead particles. 4. The personal protective equipment provided is not properly maintained. The oven mitts provided have holes, which resulted in employees receiving minor burns. 5. Employees are not properly trained on how to clean and store their respirators. 6. The water fountains in the facility have tested positive for lead.	Inspection conducted. 1 citation issued - \$7,052.
R-2185356	American Arborists		07/11/2024	Phone		1761058	Closed	S-Safety	Located at the site, an employee's foot was injured by a stump grinder.	Inspection conducted. 2 citations issued - \$6,970.
R-2194214	V & C CONSTRUCTION		07/31/2024	Phone		1765932	Closed	S-Safety	On 7/31/2024 employees are in an 8 foot trench without protection	Inspection conducted. 2 citations issued - \$7,052.

F-2190943	DD&S EXPRESS, INC.		07/23/2024	Phone		1763805;1763829	Closed		Driver Jerry Hensley was under his truck/tractor trying to free a stuck brake valve. He was using an adjustable wrench and PB Blaster lubricant to free a bolt. The attempted maintenance was performed to temporarily stop an air leak until he could return to the truck stop and replace a part. Mr. Hensley's brother, Larry Hensley, was in the cab so he could release the air brakes for Jerry to test. They assumed that the trailer brakes would prevent the tractor from moving. Jerry was still under the tractor behind the rear wheel, driver's side, when the air brakes were released. The tractor rolled back and partially crushed Jerry's chest/abdomen, resulting in death. The decedent was pronounced dead on the scene.	Inspection conducted. No citations issued.

C-2187958	Union Service and Maintenance	Union Service and Maintenance	07/08/2024	Online	Y		Closed	S-Safety	1. Employees are cleaning windows in a unsafe manner including hanging out of windows and walking on ledges without any safety tie offs or fall protection personal protective equipment (PPE). The work is taking place at the Bellagio Resort and Casino from 11pm to 7 am near the Mayfair	Resolved through inquiry process.
C-2188148	State of Nevada Department of Administration Appeals Division		07/17/2024	Online			Closed	O-Safety	1. A mildew/humid smell is found in the facility. 07/17/2024 KH	No action. No hazard alleged.
C-2188167	United Parcel Service, Inc.		07/17/2024	Phone	Y	1765497	Closed	S-Health	1. Employees are not permitted to get ice and water from the machines on site unless they arrive to site prior to their shift. The employer insists that this is the only time that they can fill up prior to going out to deliver mail. 7/17/2024 KR	Resolved through inquiry process.
C-2188179	Nevada State Veterans Home		07/17/2024	Online			Closed	O-Health	1. Approximately 145 patients and 180 staff were exposed to the hazard due to the neglect of the Infection Control RN to ensure that the policy for Covid-19 testing of patients and staff was followed. This has been covered up by the Nurse and the Leadership of NDVS. 3 patients became sick and died from Covid-19 in November 2022 due to the outbreak when the failure occurred. The staff and residents were not being tested per the policy. This has continued since that happened throughout the nursing home. 07/17/2024 JB	No action. No alleged violation of an OSHA standard.
C-2188209	NIMA Institute and Spa		07/15/2024	Online	Y		Closed	O-Safety	1. On Friday, July 5th the air conditioning stopped working throughout the building at NIMA Institute. Over 50 employees are affected and are required to work in the hot building. No fans are provided and employees are feeling dehydrated and light-headed. DF 07/17/2024	Resolved through inquiry process.
C-2188219	The Cromwell		07/15/2024	Online	Y		Closed	O-Safety	1. At The Cromwell, throughout the casino floor, slot shop, and slot warehouse, slot technicians are required to move slot machines weighing 300-400 pounds on and off slot stands. Although a hydraulic lift is used, there is still significant manual moving of the machines which is dangerous for one person to do alone. Working alone has caused back pain and back issues for multiple employees. Management is aware of the hazard and has stated they try to schedule two technicians for moves, but there are still many occasions where one technician is expected to move the machines alone. DF 07/17/2024	Resolved through inquiry process.
C-2188476	Federal Express Corporation	FedEx Express	07/15/2024	Online	Y		Closed	O-Safety	1. The mail sorting/work area has no air conditioning. Indoor temperatures reach over 100 degrees. 2. Approximately half the stalls in the employee restrooms are inoperable and blocked off due to repairs needed. DF 07/18/2024	Resolved through inquiry process.
C-2188695	The Venetian Expo		07/18/2024	Phone	Y		Closed	S-Health	1. Employees are in the Venetian Expo Center handling syringes, human waste and broken glass and have not received training 2. Employees are not provided with adequate gloves to handle syringes found in trash. 3. Employees do not have adequate air conditioning after an event in the trash sorting area. 07/18/2024 JW	Resolved through inquiry process.
C-2188730	Makai Pacific Island Grill		07/18/2024	Online	Y		Closed	O-Safety	1. The restaurant does not have the employee rights information displayed in the establishment. 7/18/24 AL	Resolved through inquiry process.
C-2188734	Makai Island Grill		07/18/2024	Online	Y		Closed	O-Safety	1. The restaurant does not have the employee rights information displayed in the establishment. 7/18/24 AL	Resolved through inquiry process.

They are aware sweat is falling on food and were about two pass out on the grill. The temperature inside is 118 to 120 degrees. Management does not care if we pass out - the restaurant	Resolved through inquiry process.
C-2190265	Pabco Gypsum, LLC		07/23/2024	Online			Closed	O-Safety	The extreme weather or heat in Las Vegas, reaching up to 120 degrees currently, warrants some kind of shield or structured relief for the workers loading the drywall and 300+ truckers who wait in line for hours to load the drywall. Truckers are not aloud to secure or strap their loads inside the warehouse but are forced to do so in the sun and 120 degree weather, they are not offered water or any kind of sustenance. The working conditions for all involved are not humane and this company needs to do better for its employees who are at risk daily for heat exhaustion from prolonged exposure to these dangerous conditions. Pabco must do something for their valued truckers and employees, the cruel conditions must be addressed and I believe a structure could be built to provide at least an amount of shade or a shield from the harsh environment for these truckers to strap their loads safely. - 8000 E Lakemead Blvd	No action. Complainant withdrew complaint.
C-2190268	Ibarra Food Truck Builders		07/18/2024	Online			Closed		Excessive noise from ppower tools, generators, etc. Last observed on 7/17/2024 4 or 5 - 2942 Brookspark Drive, North Las Vegas, NV 89030 inside and outside of the building in the front and along the side	No action. Complainant non-responsive.

C-2218562	Ontel Products Corporation		07/29/2024	Online	Y		Closed		They have multiple hazards. Since I've been working there there has been air conditioning. I wasn't aware that after a certain temp it's illegal to work. This is a group of at least 40 people. I have been one of the people who started the 2nd shift. There's only been a second shift for this company 2 months most. I feel I was harassed and played with for there are only Cubans that don't speak no English. The company requires 4 leads. As I stated I started the late shift with the supervisor Monica. I feel I was discriminated because 3 Hispanic people that are bi lingual who I trained all became leads. I was then told I can't be lead because I speak to much. Which doesn't sound right due to the fact the only people I can talk to are the bilingual people I was training. However, I still work the hours and etc as a lead. They would tell me I have to work by myself because that's the only way I work productive. Which can not be true because I have the highest production score record through the companies first and second shift. I really became bothered when my co workers was come up to me and say that our supervisor Monica was asking them if I do drugs in the bathroom. Which I thought they were joking until 7-22-24 when I left the bathroom I walked straight to my lead and ask if I can be trained for forklift. She said she'll see and said she had a question. I said what? She said do I do drug in the bathroom. I said no am I moving weird or something to you. She said no your not. I asked why is she asking me this and she said because she needs to know. I said do I look like I do drugs in the bathroom? She said she don't know at the last job she was at (world pack) people were. I said well I'm not. I told her I don't find it funny and it's kind of embarrassing being asked that. And I would respect her not doing that anymore. She said she has to ask because the hire ups wanted to know. I proceeded to work feeling uncomfortable because the way she was acting towards me because I didn't agree with it being ok to go around asking people that. Especially if I'm not acting abnormal or out of character. Later on Monica approached me with another supervisor named Alex. She pulled me and max a lead I trained to the side and proceeded to say there is nothing wrong with asking what I do in the bathroom because they are required to no. I said I don't spend long in there I use it and come out and I'm not okay being asked. Alex kept telling me it's lawful and she knows basically trying to persuade me to saying Monica was right for her actions. I told her it was wrong I don't appreciate how I tried to put this behind me and you guys both pull me to the side to team up for me to change my mind because I won't. When she could tell I was not going to cave in she proceeded to say I'm taking how Monica said it, wrong. She said Monica was playing with me. I said no she was not. And she told me yes she was. I asked if she was present when the question was asked and she said no. Which she was not and it's a 100% fact she was not. She tried to say what would I had did if "Richard" her hire up asked me that same question. I said I would report it because that's disrespectful. I was thinking about telling Donald the 1st shift supervisor but had no time to because Monica would walk me to his office and come in with me. I told my temp agency worker the next day at work. I have seen Monica pull the leads to the side and proceed to tell the other leads that she might come off mean but she wants the leads to know it's not her verse them(leads). That it is us verse them. Referring to herself and the leads against the rest of the employees. There's been times where it's extremely hot in this warehouse and she forcing a team to work crazy fast as the warehouse is so hot and don't have the amount of bodies to reach the goal as I am one of the people working as well. The way she speaks and yell. Treating temps rudely. - When you walk threw the employee doors and basica	Resolved through inquiry process.

R-2188180	Mystic Art Pictures LLC		07/17/2024	Online			Closed		The crew on this shoot is being stretched precariously thin in an effort to wrangle and manage thousands of contestants for a very physical Mr. Beast game show for Amazon Prime. There are mistakes being made in the chaos that is pre-production; contestants sequestered in their rooms at the Luxor, and technical issues around food and room service. Contestants were required to hand over their medication to staff, as well as their own personal underwear that they plan to wear under their competition clothes for the shoot, which is perplexing and I'd bet disorienting for the contestants. Once shooting starts, contestants' cell phones will be confiscated as well. I understand the production company's concerns over leaks but it seems very clear that the physical and emotional wellbeing of show contestants is being Compromised Severely in the name of show biz and expedience. I am seeing much potential for injury. PLEASE work with the Nevada Filming Bureau to send an inspector or two over to the stadium in NV where Mystic Art Pictures is shooting a Mr. Beast show for Amazon Prime. Thank you in advance for any action you take to ensure the shoot prioritizes safety at all times.	No action. No OSHA standard violated.
R-2188187	Encompass Health Rehabilitation Hospital of Henderson LLC		07/17/2024	Email	Y		Closed	O-Safety	1. Patient with impaired cognition scratched and hit an employee while the employee was attempting to provide care. Additional staff members assisted and the patient returned to bed.	Resolved through inquiry process.
R-2188202	Boulder Station Hotel & Casino		07/17/2024	Phone	Y		Closed	S-Health	1. The entire South-West part of the building gets randomly hot throughout the day. 7/17/2024 KR	Resolved through inquiry process.
R-2188208	Dignity Health - St. Rose Dominican Hospital		07/17/2024	Email	Y		Closed	S-Safety	1. A patient came to the ER and RN began Triage. The patient had two friends with her that were answering the questions for the patient and demanding certain tests. The RN asked the friends to let the patient answer. The patient became upset and verbally aggressive, making physical threats against the RN. The RN called 911. A report was filed with NLRPD - Incident report #240706-412.	Resolved through inquiry process.

R-2204611	TGP St Louis Associates LP	Courtyard 525 Apartments	08/26/2024	Online			Closed		After reviewing my lease which they had me sign without disclosing or reviewing prior to signing my lease . Think they took advantage because I was pregnant & needed a place so they just had me sign without disclosing the impact it could have on me & my baby. Now I'm having to have my primary care doctor obgyn and pediatrician for my baby send referrals for cancer screening and testing for asbestos so lead testing n other testing . The leasing office is also being negligent in work orders I am requesting to fix things like issues in bathroom ac etc so now if my health my baby's health is impacted due to leasing office negligence they can be in trouble after our results come back. Kept all emails call logs n communications between me and leasing office. Also proof of inspection that occurred where they wanted me to tell them what needed to be fixed but didn't . Magnolia circle apartments where courtyard 525 has been taking advantage of all tenants here. 8/26/2024 SA	No action. No jurisdiction.

UPA #	Establishment Name	DBA	UPA Receipt Date	Receipt Type	Letter of Inquiry	Inspection	UPA Open/Closed	Severity-Subject	Hazard Desc & Location	Inspection Results/Comments
R-2218232	Valley Hospital Medical Center		09/06/2024	Email	Y		Closed	O-Safety	1. On July 12, 2024, in the Emergency Department, a patient on a mental crises hold was yelling at staff and demanding to be set free. The patient proceeded to threaten to harm staff. Attempts were made to assist the patient back to their bed. During this interaction, the patient began to swing at staff resulting in two staff members being punched. The patient was subdued, restrained, and medicated. Staff did not sustain any injuries. 2. On July 14, 2024, in 3-North, a patient was verbally aggressive with staff as they demanded pain medication. The patient was informed by a registered nurse that a physician needed to approve any alternatives to current pain medication so as to prevent any harm. The patient continued to be verbally aggressive and threatened to shoot the doctor and the hospital. Metro Police were called to the scene and the patient was taken into custody. 3. On July 18, 2024, in 3-North, a nurse was assisting a patient's right arm back into their restraints at the request of a laboratory technician when the patient grabbed the nurse's left hand, pulled tightly, and punched their stomach. A code gray was called resulting in staff arriving to subdue the patient and place them into restraints. The staff member that was attacked was medically evaluated in the Emergency Department. The staff member sustained a sprain to their left hand. 4. On July 21, 2024, in the Emergency Department, a belligerent patient was being restrained. During that attempt, the patient spat on three staff members. Metro Police was present on site and took the patient into police custody after a staff member agreed to press charges. Staff did not sustain any injuries. 5. On July 22, 2024, in 4-Pavillion, a patient threatened a physician and stated they knew where the physician lived. The physician was switched. Staff did not sustain any injuries. 6. On July 28, 2024, in the Emergency Department, an aggressive and non-compliant patient was spitting at and kicking staff. The patient was subdue, restrained, and medicated. Staff did not sustain any injuries.	Resolved through inquiry process.

R-2220427	Republic Silver State Disposal, Inc.	Republic Services of Southern Nevada	09/25/2024	Phone	Y		Open	S-Safety	1. On 9/24/2024, at approximately 3:45 PM an employee lowered a roll-off compactor from their roll-off truck. The compactor was not completely off the boom rail of the truck when the employee placed their right hand on the compactor to balance themselves as they reached under to unhook the compactor with their left hand. The compactor dropped and pinched the employee's left arm between the compactor and boom rail. The employee was transported to University Medical Center due to a fracture to their left arm and damage to their artery. On 10/5/2024, the employer was notified that the employee's left arm was amputated.	Resolved through inquiry process.
R-2220613	Zoox		09/23/2024	Online	Y		Open	O-Safety	1. An employee refuels the employer's fleet while vehicles are running or their engines are not shut off during the refueling process. Despite repeated notifications to the employer, they continue to assign employees to refuel over 100 vehicles between day and night shifts.	Resolved through inquiry process.

C-2218647	THE HERTZ CORPORATION		10/02/2024	Phone	Y			Closed	S-Health;S-Safety	1. Employees working with cleaning chemicals are not shown the location of SDSs. 2. Employees working with cleaning chemicals are not trained on hazards of chemicals. 3. Employees working near vehicle traffic moving at speeds up to 25 mph are not provided PPE.	Resolved through inquiry process.
C-2218673	STELLAR SNACKS, LLC.		10/02/2024	Phone		1780269	10/08/2024	Closed	S-Health;S-Safety	1. There is excess dust in the warehouse. 2. Employee bathroom toilet does not work. 3. Packing machine A and B causes shocks to employees where employees are pulling bagged snacks at the end of the belt.	Inspection conducted. 5 citations issued - \$39,181.20.
C-2219045	DeMatic Corp.		10/02/2024	Online		1781544;1782421	10/14/2024	Closed	S-Health;S-Safety	1. Located in the middle of the facility, on the third floor, the full-case and split-case Dematic Multi-Shuttles (DMS) 3-story structure have yellow safety hand rails secured with electrical conduit clamps and self tapping screws that are not rated for personnel protection to prevent falls. 2. Located at the facility, in the Ergopal area at ground level, conveyors one through six have conveyors that meet at 90 degrees at each end. Where the two conveyors meet at 90 degrees, the conveyors actuate up and down without guards as items transfer between conveyors exposing employees to amputation should an employee get caught in the conveyor. 3. Located at the facility, in the Manual Depal area, conveyors one through six have conveyors that meet at 90 degrees at each end. Where the two conveyors meet at 90 degrees, the conveyors actuate up and down without guards as items transfer between conveyors exposing employees to amputation should an employee get caught in the conveyor. 4. Located at the facility, at the end of the DMS conveyor tray leading to the elevator, employees climb over six feet to access a cargo/pallet elevator to perform maintenance on the top cog pulley with the white lifting belts without fall protection. 5. Located at the facility, employees are improperly using an A-frame ladder that is not in a fully opened position and is leaned against all 25-foot tall Yaskawa robots to perform maintenance. 6. Located at the facility, the full-case and split-case DMS spare cargo bins use small fabricated metal pins that fall out which may cause the 225-pound bins to fall from up to 3 stories high exposing employees to struck-by hazards. 7. Located at the facility, employees climb over and under conveyors of the the full-case and split-case DMS systems while in operation. Employees have no access to the inner aisles without climbing over machinery. 8. Located at the facility with machinery that have an emergency stop cord, there are no safety interlocks to stop machinery should employees inadvertent enter restricted areas of the machinery. The emergency stop cord is not integrated with interlocks. 9. Located at the facility, the audible alarm horns/beacons are operated up to 50 times a day for approximately 5-8 seconds exposing employees to hearing damage. Employees working in the Ergopal area experience the loudest exposure and complain of ringing in ears. 10. Located in the full-case and split-case DMS system, the orange shuttle lift has no interlock on the door to prevent employees from entering the hoist-way shaft should the elevator platform not be at the landing exposing employees to possible death by crushing or falls. 11. Located at the facility, the full-case and split-case DMS test rack have no interlock on the doors and can be accessed while the shuttle is in motion exposing employees to struck-by and amputation. 12. Located at the facility, in the far end of the Ergopal area, next to the SL-2 sorter. The tray elevator in the Ergopal area have no safety interlock to stop the machinery or to bring the shuttle/bin to the ground level when the access door is opened. If employees were inside working underneath it, it could fall on employees. It machinery has no maintenance safety position. 13. Located at the facility, in the full case DMS system, extension cords are used as permanent wiring to charge the battery powered Big Joe cart.	Inspection conducted. 1 citation issued - \$2,592.50.
C-2219153	UPS Supply Chain Solutions		10/03/2024	Online	Y			Closed	S-Health	1. The building harbors rodents.	Resolved through inquiry process.
C-2219332	DOLLAR TREE, INC.		10/03/2024	Online		1780246	10/08/2024	Closed	O-Health;S-Safety	Located in the workplace, the following hazards are alleged: 1. Located in the back room, through the two swinging doors, pallets of merchandise are being not being kept in a clean, orderly manner creating tripping hazards for employees. 2. The employer has not made an attempt to clean up rabbit waste after a wild rabbit got into the store and was caught. 3. Employees are not being trained after being hired.	Inspection conducted. 1 citation issued - \$76,043.00.
C-2220332	ST. OF NV DEPARTMENT OF CORRECTIONS	NORTHERN NEVADA CORRECTIONAL	10/04/2024	Mail		1781259	10/11/2024	Closed	S-Health	1. Located in the prison culinary: High levels of carbon monoxide levels when both kettles, the tilt skillet and the three flat top grills run simultaneously. Peak carbon monoxide levels have been recorded at 127 ppm.	Inspection conducted. No citations issued.
C-2220684	ARLINGTON TOWERS HOMEOWNERS ASSOCIATION		10/08/2024	Online				Closed		Located on the 15th: Tenant removed asbestos from residence leaving traces of asbestos containing materials in hallway. Hallway carpet was not replaced after removal asbestos containing materials was remediated.	No action. Previously inspected. Hall was determined not to need
C-2221328	BATTLE MOUNTAIN RECREATION CENTER		10/09/2024	Online	Y			Closed	O-Safety;S-Health	1. Employees are not provided with safety data sheets for the chemicals used to treat the pool water such as chlorine and muriatic acid. 2. In the chemical room located behind the deep end of the pool, employees are required to climb a ladder up into the attic. The ladder is wobbly and unsafe and has not been removed from service. 3. The employer does not have an effective extermination program for dealing with pigeons roosting in the roof over the pool. Employees shoot the pigeons before the pool is open to the public, however they do not notify employees who work in the pool area or control access to the area exposing employees to potential gun shot wounds.	Resolved through inquiry process.
C-2221351	LANDER COUNTY COURTHOUSE		10/09/2024	Phone	Y			Closed	S-Safety	1. The west side set of stairs leading to and from the second level of the building are not equipped with exit or emergency lighting. 2. The back stairs on the east side of the building, for employee use only, are not illuminated by a reliable light source. Automatic motion lighting has been installed and works intermittently. In addition there are no exit or emergency lights in the stairwell. 3. Employees are not receiving safety and health training related to emergency evacuation procedures.	Resolved through inquiry process.
C-2221763	MJ NEVADA HOLDINGS INC.	NEVADA DRYWALL STUCCO & STONE	10/09/2024	Online				Closed		Employees for NV drywall, Stucco & Stone are working on 3-story scaffolding without a harness or tied off. There are approximately 30 men working on many building with 3-story scaffolding as they strip the exterior wood siding and add new exterior material. - Bldgs 15 and every other building all the way through the entire complex	No action. Complainant called and it was verified that cross braces and rails were in place, not required to tie off.
C-2221767	Michael Hohl Motor Company		10/09/2024	Online				Closed		Manager's kid is running around the shop and has even gotten hurt. And was told to not bring up issue.	No action. No OSHA standard violated.
C-2221824	CHEWY Inc	CHEWY FULFILLMENT CENTER	10/10/2024	Online				Closed		1. Located in MOD 1-4: Employee required to lift 40-50 pounds throughout the day. Unable to reach items placed at a height greater myself.	No action. No OSHA standard violated.

C-2228063	DIAMOND PLASTICS CORPORATION		10/29/2024	Online				Closed		On the job site inside the building running lines, on October 10th 2024 I was pulled into the office with Fernando and Cody and was told that I didn't have to be there and that they don't run the company like the company I came from. I was told I was a know it all and that I needed to shut my mouth and do what I am told. I started working at Diamond Plastics on October 7th 2024 and I get told that Nevada is a right to work state and that we don't get breaks here. I came from Oregon and I know if we are on a 12 hr shift we are allowed three 10 minute break along with a 30 minute lunch. When I bring up breaks I keep getting told that they don't have to allow or give us breaks. I went home on Oct. 17th 2024 I went home because I had a bladder infection and was told I was going to get points for leaving because I didn't get a chance to drink any water like I normally do and haven't had a chance to use the restroom. When u got home I drank 1 qt. of water in 10 minutes. I normally drink between 120-100 ounces of water daily when I'm at work I barely get 32 oz. of water and I get to use the bathroom twice in a 12 hr. shift. I don't get to eat because I do t have time to eat anything, I snack if I can.	No action. No jurisdiction.
C-2228136	TRIVIUM PACKAGING USA INC.		10/30/2024	Online				Closed		1. Facility is understaffed. 2. Employees are required to work 12 hour shifts.	No action. No applicable standard. Referred to Labor Commission.
C-2228278	D'Ambrosio Trading LLC		10/28/2024	Online	Y			Closed	S-Safety	1. Employees are not properly trained on how to work safely. 2. Employer is not providing P.P.E. to employees.	Resolved through inquiry process.

C-2219258	Dollar Tree Stores		10/02/2024	Online				Closed	O-Safety	Please help us!!! I am a Dollar Tree Employee that has sustained injuries while unloading the delivery truck and cannot report my injury out of fear of retaliation. The inside of the stores warehouse has become overrun with merchandise for some time now this has caused physical harm to me and other employees. We are not able to walk freely through the Warehouse that has less than twenty-four inches of walking space in all direction. Falling boxes stepping on and over merchandise Staff are unable to get to the cooler or freezer without climbing over merchandise. Rodents have taken up residents inside the warehouse. Expired foods, drinks Boxes piled well over the legal requirements. An overabundance of broken Bails, discarded Furniture with homeless persons sleeping on it, pallets piled up outside the warehouse doors. Employees having to track the time it takes for them to complete their duties unloading the truck and getting the merchandise to the floor. unboxing it and getting it onto the shelves. Each employee is to document the number of boxes he or she has open to stock the shelves and then breaks down the boxes. Documentation states the (Stocker Plan) Employees are to open disperse and break down 7 boxes every .15 minutes giving a total of twenty-eight boxes every hour. Meanwhile working in a Warehouse trying to pull the merchandise to get to the floor has proven to be truly hazardous. The store has requested / begged for extra hours to get the Warehouse cleaned up and organized but instead of getting increase business hours the store hours have been diminish causing a shortage on cashiers as a result the store manager and assistant managers have had to double as cashiers not being able to clean or organize the warehouse The district manager is well informed of the situation sense he has visited this store on four separate occasions from August and September and has Sean firsthand the condition of the store?s backroom / warehouse. Where is the company's commitment to worker safety? No measures whatsoever to prioritize the safety of Dollar Tree employees. Although Dollar Tree Statement to its employees. Our Commitment to Our People at Dollar Tree, Inc., people are our priority. From our associates to our leaders to the communities we serve, how we treat people matters most. We believe in implementing policies and partnering with organizations and vendors that ensure equitable and ethical treatment and support of all people. We want to empower our associates to live their best lives and give them equal opportunities to grow and build meaningful careers ? no matter the position, no matter the location. We value diversity, equity, and inclusion and are making big strides to create an environment that supports our values where all our associates and customers are respected and truly accepted.	No action.

C-2223786	Riverside Resort and Casino		10/16/2024	Online	Y			Open		1. After cleaning an old building that had dust and cobwebs, employee became temporarily ill. Vortex Doors was called to fire test doors some time in December of 2023. During this time, 2 Vortex employees contracted an unknown illness. The employees were working in the duct work of the building in various areas where doors needed repair/testing. Since the work required an additional week, the vortex employees were sent again during this week of March 25th- 29th of 2024. It has been two days, and the employees are yet again reporting the same illness as before after working within their duct work. Previously, both employees came back and proceeded to give their partners the illness as well as other employees to the point the entire office at some point had called out. Hazard doesn't appear out of the ordinary for an old building, dust and cobwebs, however we suspect this may be the cause of this unknown illness. The illness is not life threatening but has lasted a week or more in some individuals - Throughout the casino floor within the ceiling areas near any fire doors being repaired/tested	Open investigation.

C-2233037	Law Practice, Ltd.		10/24/2024	Online				Closed		I just realized - they are not an equal opportunities employer which I think is required in Nv. I don't have the original employee docs that was provided/signed - but they are not an equal opportunities employer & did tell me during sign-up & I signed some kind of acknowledgement but I'd didnt really understand what that actually meant and what could happen to me & how bad they could treat me. They called us "personnel" & not employees. They haven't sent me original copies of all the docs but I'm scared they will alter/doctor whatever they provide you. Either that I "signed" or was provided. They don't have the right posters. They just told us that they won't fire us with good cause or something. They abused me and should be prosecuted & treated me like "slave" idk.m??? I have ALLL of my paystubs & it shows tax withholding I can't recall filling out or signing a w-2 at this point. And They have all my like banking & identify info. I've been having a hard time verifying my identity with chase which I just switched to & applied for new cc literally through my app. I was so confused when chase was confused my identity. Have I actually paid taxes this year??? Who are they??? I was hired thru Craigslist posting not indeed. I feel like they stole my identity somehow and I have no idea how like I haven't received any notifications other than the one hard inquiry into my credit when I applied for the new cc and I'm so confused. They held my want to become financially stable over my head to wear I put up with so much abuse. I'm not stupid, I swear. Like she's a state barred attorney and everything & a lot of attorneys can be mean. It just got bad & this time im little older & handled my own mental illness issues well enough to at least have some kind argument back. Crystal their paralegal is closer w them - I think she's in on whatever they do. I think Jake buchman their son hacked my phone. Idk how to fix it. Indentured servitude. I kinda get it but I don't still bc I do get a salary. I feel like they stole my identity somehow. They are weird & bad. Ann & Jake drive same suv model Mercedes but one I black & one is white. He is like weirdly close to them like sometimes they feel incestuous. Crystal said that word so much about family law but tbh it described them better. I feel like he hacked my phone & office computer, maybe my laptop mac idk. And I still can't work :(I'm mentally incapable & tired. I hope they didn't steal clients identities too. We always keep payment auths for everyone. It's required for our billing process provdude on agreements for legal services . I did file NV state bar complaint & eecc & nerc (I know I can't file both I just had to). All the info fits together somehow. Pls contact eachother im trying Jake has a gf named Serena & they live at his house together. It sounds like all 3 of them haven't been nice to her lately. I hope she's okay. Pls check on her - Office	No action
C-2233043	Law Practice, Ltd.		10/24/2024	Online				Closed		Serena apparently has a best friend who works at Kainen law group also in LV. That's all I know about Serena. They made it sound like they were having problems w Jake was making advancements towards me. But he came to work w red spot on neck 2 weeks ago. Serena of her bestfriend have family in federal court system I think. I apparently recently interview her at LPL for law clerk position. I feel like Jake is a stalker & like followed me sometimes or hired PI to stalk me. I feel creeped out on my phone & home alone rn. Pls keep me safe. I don't think they're good people. I don't know any of their addresses or info. They always say they live in Summerlin tho. I think they live close to each other probably. White Mercedes SUV & black Mercedes SUV. Omg what they did with me with employment - I joke Serena is ok. They never told me her last name. Crystal Beville is currently the senior paralegal there. I feel like this is some kind of cult idk. Crystal always says how she lives w other people but never specifics & smells weird & cat pee sometimes. She has daughter & son & law who work at nobu apparently. Serena & Jake went on trip to Europe when he graduated from UNLV law few months ago. Yes I always kept myself private & distant from them. Idk what's going on. Kari Diaz was their other paralegal who left last year. I think her husband filed for divorce. Ann Kolber said she has been at that office since like 2012 so how did she not get caught??? Pls call Apple to get them off my phone & all saved accounts. I'm not good at that stuff, especially right now. My phone has gate code & house keypad info. I save all my stuff on my phone notes bc I have bad memory. Idk when I'll be able to work again. I kinda don't like law offices or any work anymore. My body is hard to work with - I won't last if it doesn't adjust well. I hope Paul Mayo is ok. He's having health issues & a bad divorce & he was supposed to come in on Friday. He tried to match me w his son. Are a bunch of a their clients in on it??? I'll tell u rn all the ones I think are weird. Like majority honesty. They've been even weirder & mean to me lately. They kept taking about office holiday party in December thank goodness I did not go & no never went anywhere alone with them at all. Ever. Day or night. Ann tried to stay behind to wait for me while closing office last week & I told her it was fine. She did kinda hit on me but I didn't think about it until now. Also, I feel like sometimes I've been blacklisted or conspired against by law offices & lawyers. They kept bring up dept f law clerk as Jake's friend last few weeks. He was Paul Marreros legal assistant before he fired me bc I only "wrote" a lien reduction letter in March 2022. He's cause me to "lose" a few jobs now. Or Calvin tian & ling gillenwater his mom at PT law. They were just mean & did not treat employees right. Weirdly close to their case manager: why am I still on website since June 2023. I went out w them one night while employed there last year & Ling & the whole office were so weirdly immature & creepy honestly. Legal ride was creepy ish but maybe ok. I feel lien attorneys & offices are weird & kinda scope me out to see if I'm cool but like I'm not creepy like them. Camila always talked about how Paul & he other assistant ruby always flirted & stayed late ln the office. She left before I got hired. Lagomarsino law was weird too. I've been having trouble finding a good attorney to take my current case in LV. They creep me out or give me bad vibes or I feel like they're all taking about my case to each other. I think mh phone is hacked. And I got hired at attorneys office is Phoenix in August 2022 & whit same day bc the attorney started showing all these weirdly exactly mannerisms to Paul so I went down the witch rabbit hole again. I think I was kidnapped & have a police brutality case for CA. Idk, I'd have to think about this more. Crystal -702-306-4859 Jake buchma	No action

UPA #	Estab Name	DBA	UPA Receipt Date	Receipt Type	Letter of Inquiry	Inspection	Entry Date	UPA Open/Closed	Severity-Subject	Hazard Desc & Location	Inspection Results/Comments
C-2233046	Unknown/Invalid Establishment		10/24/2024	Online				Closed		That's my address. NRS 624.626. I'll have to read later to understand what happened. Also my mom threw out some important mail for me last week re my old Wells Fargo minors accounts that I closed a few months ago. I think there was a check in there for me. She doesn't open mail but she usually doesn't throw them away like that. And some health insurance stuff. It was weird & I was upset. Is this connected to my identity theft too?? Also, I put in some online inquiry requests to Andre Lagomasino yesterday re my case against LPL. My mom's been very nice to me about being fired this time since they said I could file for unemployment & they'd verify. I wasn't my fault. Yesterday when she got home and I had to go to corn maze with them. She was upset & just lookin at me weird. I felt like Andre contacted her about my consult inquiry that I did on his firm website. I did it w the impression that it was attorney-client privilege. I have a pdf of a solid account of events for my personal story that started 2 months after graduating from undergrad in 2021. My mom & entire family have also participated in this weird treatment & inducing me into witch fight the last 4 years. She's really means & screams at me everytime I lose a job or have a hard time & can't work & pay bills. It took me a while to change the minors account I was so broke & kept getting older & Wells Fargo makes you go to the bank w the adult to transfer the account to adult checking. So finally my husband told me to change to entirely new chase account few mo this ago. Solved the problem finally. It gave me so much anxiety bc I had no money & then was so old to be doing it. I feel crazy writing this but I just solved the illegal employer thing so I feel better about myself, lol. I think she might still be able to see my Wells Fargo cc stuff and idk how to fix it and am just incapable rn. My name is Adryana Lynette Martinez. Pls help w the identity theft, how did they even do that???? Everyone is weird can the government pls help me soon. I don't get it. I solved the bad employer thing so woohoo not completely crazy right???? Everyone was like in on this thing w making me crazy the past few years too. Entire family. Everyone at grocery stores. Celebrities & people on tv. Then my husband, Edward Samadani and I went through so many battles trying to get rid of the "witches" & by June this year by finally resolving that it was only us in the world & he had completely control and was making me wait to teach me about love. Can Edward pls talk to me ASAP too?? Vargha Samadani True. Ok, I solved something today. Thanks OSGHA. - A lot	No action
C-2233051	Law Practice, Ltd.		10/25/2024	Online				Closed		I left my original physical signed copies of the bad contract & employee handbook I signed in my desk before I left. I was so out of it I did not take them w me. They don't throw out the trash in the actual shredder in the office often. The person who pics up their Assured document shredding bin would have been yesterday around 10-11am. And I don't know when the trash comes for the entire lot. It's always full to me. The one nearest closes walking distance is where we always took out the trash. My last email was assistant@lawpracticeltd.com. Outlook. They use mycase & save everything in central. You could probs stop assured documents if they haven't destroyed them yet. Even if I expressly waived any rights -& yes it said they told me what eoooo was - I didn't KNOW what that could mean & how bad it was. Like how they assure their family is paid best even if they are lazy & sloppy & not based on merit, & how I can be treated however & without actual good cause. I know what I'm trying to say - she did not give me worse case scenarios like she would have told her clients & how it actually works there w the positions system, etc. And it eas misleading - I have emails from September where they called me employee & my employment there to my personal email. Fraudulent I guess they characterized my entire relationship with them as a legitimate employer/employee thing. Vrystal did offhandedly say when I signed all the stuff that "yeah they call it an indentured servant contract but it's not that bad here". I was still so out of it like that's not fair. I was desperate for a job & they knew it. And my mental health/spiritual stuff was not good. And I didn't KNOW WHAT THAT MEANT. Like no one explained how severely I could be abused and Ann isn't stupid bc she explains worst case scenarios to all her clients before they sign something. And no one explained seniority system & how that can be taken advantage of. Nor did they explicitly disclose Joann & Ann as married & Jake as their son. I'd didn't know at all then & only just figured it out the more I worked there. I never made it a thing bc of gay rights. All Ann did when I signed that eooo waiver is just plainly state exactly what was on the waiver - nothing further or deeper. Okay we can't fire you for discrimination based on x, y, z but here is what that could ACTUALLY look like. Nor did they explain that what I signed was actually illegal. Eeoo employers are unlawful. "We're not an eeoo employer but we promise not to fire you without good reason" no mention of illegal activity. Maybe Ann also said "it's not illegal in NV if we promise not to fire you without good reason" They played me & the system. Like I clearly didn't know or was adequately explained. And they played it off like "yeah this is what it is but it's fine just sign bc we're good people & will take care of you" and yes I have the emails where they always call me employee/employer & characterize that relationship vs only a contractor relationship. Which would probs be something like we want to release versus "fire" you like you're and actual employee being abused. Promise not to fire you without good cause maybe is what it says. Either way - say what you mean & mean what you say. I'm tired of them & misinterpreting & misapplying the law & everything else. Or abusing same to omit or hide or cover. They lied & abused me point blank. All do the bad attorneys do that by the way. In way to careful w my words for no reason. You have to really read & listen to what they say & do. - Office	No action

UPA #	Estab Name	DBA	UPA Receipt Date	Receipt Type	Letter of Inquiry	Inspection	Entry Date	UPA Open/Closed	Severity-Subject	Hazard Desc & Location	Inspection Results/Comments
C-2233055	Law Practice, Ltd.		10/25/2024	Online				Closed		I will gladly read federal & state laws & anything related to the United Nations (I want to include them in any lawsuit or criminal indictment) & tell you & show you what you actually do. We can get to the evidence & do it. I KNOW that w every bone in my body. They think outside the box & underhandedly too so even if I'm not think of everything - I have to learn bc I know they have stuff in writing & there's evidence like that was done not by the books or can be gotten with on the table subpoenas. Like dark webish but more I guess. Also there's this app that one my drug dealer's for adderall made me use that deletes messages forever after like 10; 5; 8 minutes hrs or days. I saw Paul was on it when was still using it when I still had it years ago. You have to think of everything & use all resources out there & be updated on what's out there. "Link" I think is what it was called. WhatsApp does the disappearing messages too & Paul uses WhatsApp. They will bury the evidence. You should do preservation do all data/docs somehow. Subpoenas of EVERYTHING. They misrepresent & mischaracterize everything. I know how they do it & why I get scattered bc I KNOW and have to explain & get it all out. The brujerial/witchcraft/spells of the legal system/field type of thing. They took advantage of me & did legal spells & witchcraft on me. And I know I signed a confidentiality agmt. If it's breaks any laws - it should be void. They did not read it to me & no I did not read it. I trusted employers ok. Like yeah if I'm signing a prenu...but an on the table employment contract w an employer??? And all I thought it was for was attorney-client privilege like to not disclose case secrets. Andre Lagomarsino had me sign one there so that's what I thought it was. I don't know what it says to Null it or find a solution for you. Whatever they can pursue lawsuits and charges against me for running my mouth - I'd like my date in court anyways. I will willingly break legally- binding contract and someone can pursue any any lawsuit or charges against me if they want to. Bc I know the truth at this point and am not scared. I already emailed them asking for copies of the docs. There's NV laws that they have to provide them & a reason for termination letter with if 10 days of my request I think. And I specified undoctored and exact & told them where my original copies were bc those are what I wanted. It's a great email. I sent it yesterday morning & that's probs when they fled or found them to get rid of. I won't get screwed, trust me. I actually learned there that I enjoyed contracts the most - that one should be fun to get my hands dirty with. No, the assured guy doesn't lock the bin nor does anyone in the office when they pick it up. Nor is it ever locked when sitting there. Andre Lagomarsino always had it locked so I thought that was weird there too. Vannah & PI firms don't have that system bc it's basically paperless. Shred w a small shredder if necessary but no assured doc shredding or just throw in trash if not sensitive info. I was bad about that in PI bc the small shredders were annoying, I'm sorry. I feel like maybe they didn't lock those bins for a reason & could switch stuff out at any point when it was unlocked & switched out. Maybe assured is in on it. I never signed the ack that it was picked up - only crystal. He never asked me k I was kinda hurt about it. It was the same guy everytime, they only used like people they were close with for everything needed for the office. A lot of them were neighbors in the lot. Jeremy was insurance guy & CPA Nexdoor/JB/CB did books, Tae was computers who used to have business there too. But I don't know why right now. Like everything I threw in there was just trash. I had an important admin main share file for my name where I kept all templates & records for the office that I ever obtained,. The WiFi completely shut down a few weeks ago. It was weird. I think office was	No action
C-2233075	Harry Reid International Airport		11/14/2024	Online	Y			Closed	S-Health;S-Safety	1. Employees exposed to sewage smells coming in and out of the ventilation system causing headaches and a burning sensation in the throats of employees located in the D-terminal, specifically under D7 room #S2-SE-L1-333A. LLL 11/14/2024	Resolved through inquiry process.
C-2233086	Law Practice, Ltd.		10/25/2024	Online				Closed		I will lose faith in entire legal system if any action is taken against me for explaining an evil place regardless of any bad contract I signed. If they threw away that stupid contract bc they wanted to hide it - does it even really count?? I'm getting frustrated with whatever it is bc I don't know what to say to refute. Just wait the 10 days pursuant to the statute?? All of their actions regarding my work contract & relationship/agreements were done in bad faith & were fraudulent. That's illegal. TBH if I were a lawyer or had any about any of this say that it is worth - if it's illegal - it's null/void. A bunch of contracts they had me work on or saw included that provisions that if anything provided in the contract broke or was not pursuant to any applicable laws federal or state - it was null/void. We did one for SOTO. Took a template from someone else & she had me prepare an NDA for signature. Don't remember final executed but the one I prepared included that final statement & I appreciated it. Honestly just assumed that was the law already. I've been treated like I'm crazy & actually going crazy often for so long. Driven crazy too. I don't know what that spiritual stuff I experience always is - if it even is. But I do know the bad people have done bad things to me for a long time & propelled any of those problems I have forward bc I lose control & sight of reality & get confused and then they persecute me more for it. I do think every lawyer I have worked for in this state & at least the one in Phoenix, AZ from August 2022 are bad & did something to me. I don't trust my mom either. I'll leave it there bc then I get scared & confused again & overwhelmed again. I wish I could send you my personal statement in pdf form or had an email address. It expresses a lot of my pain better. It was very bad for so long. I just didn't mess up the case this time & maintained a better level of control & interacted w reality better. I'll send in a little bit probably. Just to tell you who I am too. And I'm really thankful I found OSHA. A little birdie told me. Thank you. I filed a complaint w the NV bar against Ann. I asked them to reach out to you. Maybe you can talk to them??? I just tried contacting as many places as I could once I figured out the contract yesterday. OSHA, EEOC, NERC & NV Bar. And NV unemployment hopefully goes through. I need to actually call labor workman's comp to see if there's any options for me there too. Not sure bc doubt they had insurance. I would rather the gov't help me too. They weren't blatantly abhorrent to clients, maintained a certain level of ethics so no one was caught. But they did give a client who paid them alot of money a heart attack like a day after his 1st day of a very mean divorce trial. I told the NV bar about it. And just had no empathy or compassion for anyone. Personnel or clients. Classist. Respected no one but other rich people. But oppressed me from ever getting back on my feet to become one too. I think they did other bad stuff maybe; especially LPL. Honestly, we'll have to get it solved. Can you get a search warrant for ALL of their properties/houses in all related names too including their parents (JRBS came last week) if they did identify or insurance fraud. My chase cc was having issues w identity. What if they did stuff w my identity or reported false stuff w the credit bureau or did false insurance claims in my name or against me. Sometimes I think I'm crazy w my instincts and feel insane. Jake went home everyday for lunch & stayed out the whole time. He's creepy and I get bad feelings about him & the lunchtime thing. I will tell you everything I feel like is going on My auto insurance w mercury went up to almost \$480 this month & agent had to get it switched to progressive Pls check on Serena. I don't know her last names. Apparently they had a puppy too. You might need to figure out their previous names, or if they owned stuff in other p	No action
C-2233112	Unknown/Invalid Establishment		10/25/2024	Online				Closed		My last complaint was referencing human & sex trafficking but get search warrant for any fraud in me. - Hjjj ignore any big explanations or purposes I might have. Let's start here pls. People won't listen & I don't even always know. Start w what we have. If you even do think.	No action.

C-2233117	IKE Gaming, Inc.	El Cortez Hotel and Casino	11/14/2024	Phone	Y			Closed	O-Health	1. At the table games area of the casino, a smell emanating from an ongoing remodeling project is causing at least 30 table dealers to experience dizziness. AL 11/14/24	Resolved through inquiry process.
C-2233177	Law Practice, Ltd.		10/25/2024	Online				Closed		I know that my last complaint was insane. I am broken again at this point. What that office did to me was very bad & I do remfber that terrible contract for a fact though. I won't contact OSHA anymore bc I don't want to get scared about the gov't hating me too and probably will spend the next several months very sick until I figure out what to do next. Those people are bad for what they did to me work wise. And I get far too sick trying to think further into it. What they did to me was bad, that is what I do know. I will be sick stressing about my life again for the next few months until I figure out what to do next. That is all I can do anymore. And I wouldn't want to waste anyone's time if it really was nothing more than a bad contract. - Las Vegas	No action.
C-2233178	Law Practice, Ltd.		10/25/2024	Online				Closed		I was sent home early from Vannah & Vannah the day before I got fired because I went insane at work about the spiritual stuff. But when Paul called me on the phone next day - the reason he said I was fired was for writing an unnecessary lien reduction letter that I never sent out without authorization. That is why my mind gets to where it does. My sincerest apologies. - Office	No action.
C-2233183	Law Practice, Ltd.		10/25/2024	Online				Closed		NRS 626.624 is very relevant. But in too emotional to read it right now. I have a strong case. In the initial email that I still have from Kolber - she says employment offer. My entire time there & email for last raise - "employment & employee" were used. They sent my last paycheck to me pursuant to eeoc & NV laws for employers. Ann was a friggin lawyer ok. Anytime she scheduled someone to come in and sign a pre-nup - always give the client the pre-nup to read beforehand and know what they are going to sign as the attorney both then and before explain any and all hypothetical and what if's and worst case scenarios if there was anything included against their best interests. I have the email where she scheduled the appt for me to sign the docs. She never gave them to me to review beforehand. Like I was just ready to start & didn't give what I was signing much thought in that moment or even provided that opportunity. No worse case scenarios or hypotheticals explained. It was bad & fraudulent. Don't tell me she didn't know beforehand what she was doing or that she knew better. As an attorney she was always careful so even if she's entering into a "legally-biding" contract with a "sub-contractor" she didn't give the other side sufficient time & understand to what was going on. And she mischaracterized and misrepresented the entire situation from A-Z. Who tf thinks they need an attorney to get hired for an eeoc job? I was the one who suffered UNDUE HARDSHIP. It was always characterized as an eeoc job even tho she only just stated otherwise without really explaining. So yes, even in that moment maybe she told me is not eeoc but gave me ever reason to believe it was anyways. She never did explain why they're not eeoc I think. That non compete clause is against NV law. They explained the non compete clause as not exposing business/trade secrets to a competitor for that kind of gain if I left & got hired somewhere else. It's not telling the American gov't & if I ever hire an attorney for my strong case or preventing me from ever getting a new job. And I have every right to, there are restrictions on non compete clauses in NV anyways. If we wanted to interpret it however they worded it - then, it's all void bc it breaks the law. And obviously they don't want me telling anyone about how evil they are. I have every right to pursue MY damages that are owed. In NV, any provisions in a contracts that waive rights not pursuant to laws. NRS 338. They assigned themselves the name as contractor & me personnel but really it was trying to justify and fit into NRS 626. If so, NRS 338 also fits. Or maybe it say "subcontractor" on that waiver, if so then yeah I got all the arguments. I think they said "personnel" bc it sounds better is what they said. I think those laws are more for like construction projects & stuff. NRS 338 also then applies wherein - the confidentiality contract is void. The non compete is void for every reason & more. They were fraudulent too bc always said employee & employment. And that's a gross misapplication of all those contractor/subcontractor provisions to try to evade eeoc laws anyways. Uh-uh. And how can you really call it a contractor/subcontractor & legally enforce or argue same when the subcontractor didn't even really know they were a subcontractor in the first place so yes they signed the docs bc they weren't even actually a subcontractor & didn't know anything else & eeoc. The mischaracterize the subcontractor thing A-Z. And I didn't do subcontractor work. If so, all the shit I did there is mine somehow. I didn't a lot of templates for them. They were trying to weasel their way out of eeoc federal and state laws. They didn't actually explain the archaic employee handbook & seniority system. OSHA - pls talk to NERC. They can assist you & give insights on all the state laws to show you how bad of a person she is & what she actually did & get her for all of it. It's the	No action.
C-2233186	Law Practice, Ltd.		10/24/2024	Online				Closed		Low hrly was really never ok. I clearly showed during interview that I was smart & positive & good & had BA & was given \$13 a fucking hr. And every firm wants great work without paying adequately. But it solves the larger system too. People won't quit without giving adequate notice or have bad attitudes and will work hard, produce great work, all of those good things & stay long for a job that will pay them ADEQUATELY (don't be cheap bro). And be lax - idk like don't use this as a way to say people can't take like 15-20min out of their day to have a casual convo w a coworker (office stuff I guess) or enforce or create all these insane & strict rules, etc. let people be people. I can't think of every detail. But seriously how much money does everyone waste or even lose on employees who cheat the system anyways or other stuff which wouldn't happen if people were just paid right. Even like fast food workers- idk. First off - knowledge or skill isn't a good basis for determine pay. Like I worked my ass off when I worked at Starbucks for 3 years as a barista. It was HARD. They could've paid me more there too. Idk just thoughts. I was still cheated a lot - that's my primary message. Employees hate their bosses bc they're not paid enough. Employers get mad bc employees won't do their job. Just pay correctly & people will do it. With a smile too. Bc they don't feel beat down by the system & will ancially enjoy their jobs. And id they don't - that's fine, they will respectfully provide andeqUte notice & find another good paying job. It's not thag hard. And attorneys specifically - I hate you all. You're terrible people and really not that smart. Learn some humility. I probs will never go to law school just to protest that they're the worst fucking people ever & don't even do stuff right. Even doctors are more humble & they ACTUALLY do their jobs right & care. I haven't met an arrogant doctor yet at least. Did I just solve everything. I still don't understand why printing more money doesn't work. Yes, this is me. I'm quite an airhead/no common sense Lot too. - Shej dj	No action.

C-2233192	Law Practice, Ltd.		10/26/2024	Online				Closed		Regarding budget: it was all I could do for many years to at least maintain work stability. Get up and go to work everyday & not go crazy enough to lose my job. Even if I requested an ADA accommodation bc I struggle to cook due to whatever happens to my body - was really anyone going to pay me more money afford to eat out everyday let alone actually afford groceries???? No, they probs weren't gonna hire me due to my ADA or pay me less or never promote me if I ever spoke openly about it. I struggled to feed myself for many years until this last job. Like it was a known thing - Adry doesn't feed herself well. But it was more than just cooking. And btw groceries are expensive & did try at LPL. At least \$100 a week to maintain fresh food & a good pantry & HYGEINW PRODUCTS WHICH I DONT BUY THE MOST EXPENSIVE ONE. I couldn't afford to eat out all the time either. And my mom was mad at me so like, she didn't necessarily always buy me food either & it was upsetting and embarrassing to ask mh old age gma. My one cc was ran up many times due to living off of that during periods when I wasn't working or doing well mentally - so I always had a cc payment. My car insurance was very high after someone else crashed my car in AZ in 2022 - but somehow progressive identified me as the driver for the accident. I only pay my 3rd party student loans \$265 a month bc my mom co-signed and will get mad for credit reasons. I did budget for adderall when I wasn't prescribed for many years bc that kept me stable for whatever reason. And am I so greedy & out there for wanting to maintained a good wardrobe too???? I don't buy the most expensive clothes & always go for sales first. Apps like Klarna & Afterpay are very cool now bc I can make interest free payment using my debit card - that's how I did it at this last job. A monthly phone bill \$90 a month that I Zelle to my gma. It's under her name since last year bc when I wasn't doing well - it was too hard for me to maintain the payments on my own. I wear a lot of open toed shoes so yes \$65 pedicure every two weeks and I really enjoy those. This is not a life of luxury in the US - most people live like this now. VND other women hygiene care services that cost \$\$ per month. I couldn't even afford to maintain fresh bras and underwear as a woman for many years - yes I just said it. At this last office - I just said screw IT and got myself everything I wanted to have this for myself. And pedicures are good for men & women for preventive stuff too like ingrown toenails, etc. And omg it looks nicer or I feel better for getting regular pedicures. And btw I do have a really bad medical story regarding getting waxed as a women for hygiene reasons which I only started this year - you can get folliculitis from shaving. Not good & I had to take antibiotics and it was embarrassing. My makeup routine is not extensive and I don't buy all the most expensive products - but that's costs money too. Hygiene & feminine care maintenance is not cheap and I'm not luxurious or greedy with that stuff. And what about being able to saving money in Both a regular savings account & retirement deductions??? A standard of living here. And yes, I paid my mom \$100 per paycheck only at this last job to suffice as rent. And maintaining my car - transmission fluid exchanges, brake fluid, oil changes. That car is the only car I have and won't be able to afford a new one for who knows how long - I take care of it. They recommended services and I did research & asked my uncle to determine what was actually needed. And I shopped around to find good prices too for all that stuff. A lot of women I saw in the office didn't care or complain about the low pay bc they have husbands to take care of them/help. I'm sorry I don't have that & want/have to do it independently??? Meanwhile Ling & yezi are walking around the office in their Louis Vuitton & pursues. LPL was doing that too. Or their Beamer & Mercedes while all staff drive Nissans	No action.
C-2233203	Law Practice, Ltd.		10/26/2024	Online				Closed		I do not think calculating every last dollar of my disposable income that was made the last 7 months is necessary at this point. \$300 a month for disposable income was nothing in comparison to what I did for those people & how they treated me. And it was used for other necessary living expenses. My mental health never played any significant role in my LPL work life until they abused me. At all. When Jake first got back to office end of August - it was a stressful & busy week with clients & him doing everything wrong so I started having neck problems & getting tensions headaches which is something that happened to me before. By the end of the week, my headaches & neck were bad. So - I got a massage Friday night & was fine the next week & moving forward. Problem solved. Until they started abusing me again shortly thereafter. I get prescribed a low dose of 10mg IR Ritalin 60 pills, twice a day per month. I'm scared to ask my doctor for a higher dosage or really talk about it at all with her because I DO NOT want to lose that prescription. It was hard to get in the first place and she was not nice in the beginning. And I try to keep that entire subject balanced for my entire life. I don't even tell her my actually current body weight or when I started losing weight quickly & am just tapering it down every monthly appointment bc she'll make it an issue and I don't want to lose my medication. I eat like a man ok. Ask Ann Kolber. I ate like 4-5 FULL ceviche tostadas for lunch multiple times the past few weeks bc I was on a kick. I eat breakfast & I eat lunch. Don't usually need dinner but will eat if I'm hungry. I eat. I ate a lot of chicken wings, french fries & McDonald's while there too. I just hate talking to anyone about my personal life now, doctors included bc everyone will attack me and tell me what it is or send me to the hospital or take away my medication or upset the balance I depend on before I even have a chance to explain. She encouraged me to see a therapist to try to encourage what she thought was stagnant treatment 2 months ago - I found one & the therapist basically hinted at my dependency on my medication as a an addiction bc that's what she specialized in (it is not an addiction) and I never went back again. It upset my body balance & I didn't want to do that regularly so I told my psychiatrist that & it was dropped. I did take unprescribed adderall in college & found it first when mh friend gave it to me to study for SAT's beginning of senior year highschool. I'm not addicted - it really is my medication now. ldk everything about HS me - I just found over time that it really helped me to do all the things I needed to do to be a good functioning person & adult. Like I was good at school in hs & maintained good grades but my mom did my applications for college & I never was really able to grasp like life practical stuff very well and overall my medication helps me be more present bc a lot of things go over my head until I make mistakes & am forced to learn the hard way. I wouldve never been able to figure out mh college applications at the time, I'm not a wiz at financial stuff, and am only better at paperwork now bc of all my experience in the legal field, it used to take HOURS to plan out my class schedules for the next semester and took a lot of mental effort on mh end to really register how all of that stuff worked. It does take me very long to understand all the components for big new subjects, but once I get it I'm very smart. Like Vannah & Vannah introduced me to the legal field & litigation process & PJ & it took me 8-9 months to really get all the stuff and by the time I was fired knew exactly the kinda stuff I needed to learn to become legitimate case manager. Treatment & all. Lagomarsino was very hard for me bc I hadn't used a windows computer or desktop since highschool. I didn't even inow how to use a computer there. Vannah was easier to get a flow bc Mac desktops - And the other as	No action.

DF 11/14/2024	Resolved through inquiry process.
C-2233434	The Pub Lake Las Vegas		11/14/2024	Online				Closed		1. Raw chicken is being thawed in a dirty sink. 11/15/2024 SLT	No action. Referred to SNHD
C-2233435	PT Law		10/25/2024	Online				Closed		OSHA, Just so you know - Ling called me last night offering me a job & how I was. She was acting scared and didn't mention OSHA but said something about some kind of complaint. I'm not or good at being direct especially with this stuff which is why I have gotten taken advantage of for a long time. I told Ling about my last job not being an equal opportunities employer & mistakenly signing an indentured servant contract. I told her I was not really ready to work again right now & would only want to for at least \$70-80k minimum. (I would never want to go back they're anyways, they're not good people or employers). She mentioned how family law vs PI is different bc PI doesn't really need paralegal work basically so yeah she could offer me the salary that I wanted. She said "ok well I'll just put on ur unemployment 'complaint' that I offered you a job and you're not interested in PI work anymore" PI still takes skill & knowledge & hard work ok. They localize everyone's positions to only specific areas o & functions so there's no room for growth. Yes, it streamlines the PI revolving door case system - but it gets employees taken advantage of. I asked PT law for a case manager position while I was there and they only offered me \$50k plus the bonuses they offer. I was a great PD specialists & clearly just needed adequate opportunities for growth & training to become one. And only a \$50k salary??? PT law employees are worked like dogs. Thered be times I would hold my pee for 2 hrs bc I could not get off the phone or away from my computer. Or I'd come back to ling or the case manager yelling at me for SOMETHING I didn't get done yet (I worked so hard; it was impossible to keep up, like actually. And I've never said that before ever). I'm pretty sure they made it look like yezi the case manager was "on top" of things to make her job look impossible to achieve but who knows. Either way - regardless of position or title. I would do 30 tasks in the time yezi did 5. I would easily be able do her 5 tasks & she would not be able to do my 30. She'd cry & would NOT have the skill or work ethic. She just didn't know how to do things smart or streamlined I guess annd would be too arrogant ro even try. assistants in lower positions are actually smart. I knew how to manage myself really well with the impossible amount of work. And I could have learned her position - but somehow they would always make it feel impossible and I knew that. She wasn't that smart. I don't believe what they made her look like as a case manager was correct - facade. Bc when she did some of my work like phone calls or prepping demands - she struggled. More than just bc she was a case manager. Like I always knew & had the phone numbers for everyone I needed to call for my PD stuff & if she ever had to help - she like didn't even know how to read the info I put on neos even though it was RIGHT THERE. Then she o & ling would like mention in commons convos like key phrases o & words or actions that were only relevant to my personal life & thoughts ALL THE TIME. Like they were talking to psychics or something to spy on me. The managers bullied there employees & it was not based on merit, skill or knowledge. I cried one day after they made fun of me for playing phone tag with a tow yard as if it was my fault. They have fired employees for no good reason. They do attorney driven treatment & frauds like the WORST I have ever witnessed. Will routinely sched Painm mgmt appts & include the appt ntc in the demand to get higher settlement then cancel the appt once done. They do tell clients to lie about pain levels or heighten them - hinting that if ur pain levels are "lower" you don't have to be strong. And have asked doctors to lie or report what they need in order to get higher settlements. Like actually just so bad & I'm not an obstinate rule follower ok - there's nothing wrong w that either. I didn't want to be a case manager there bc I felt unc	No action.

C-2233438	Vannah & Vannah		10/25/2024	Online				Closed		Vannah & Vannah uses Dropbox bc they have MacBook computers. There's legitimate malpractice, illegal, & ethics stuff for all the attorneys & probs doctors too (at least related to PI rm). And then the ones for all the harm that's been done to me. I don't know what their motive is for anything but they're bad people. I did tell my mom about the OSHA claim & PT Law call but mostly bc I'm scared of her & just wanted to tell her I'm taking care of my stuff. I told her about the LPL indentured servant thing too. All I've done is sit in my room the past week so I felt it coming - the screaming at me if I don't take care of something soon. She talks to Paul & andre I think. Especially after I got fired at Vannah. I don't trust her Ling verbally told me like my first day they were equal opportunities employer. But I never signed any employment contract or received a handbook. No signs or HR either. And they most definitely are not an equal opportunities employer. Compensation laws that I still have to understand. What PT Law does is insurance fraud. 99.99999999% of every PI case I've ever seen (mostly minor car accidents) - those people were not hurt. Clients knew it & the attorneys knew it. The doctors knew it. And the adjusters did too most likely but they do their best to fight the bullshit cases the best they can. And PT LAW literally tells their clients to report higher pain levels or talks to them before every doctors appt to tell them what needs to be said. PT law records every single call on an office phone. The phone call where Ling blatantly told Dr. Tsao what needed to be done to get a better settlement on a case was done on my office phone then she said she'd text him on her personal cell to give the client's name, etc. yez's phone calls are so bad - you can listen to those to get more evidence bc she is obvious what she is trying to achieve re fraud, etc and will flat out say stuff like "your settlement will be bad if you don't do x, y, x..." PT law also texts clients but mostly abt points but they'll say in most messages "reminder that you need to report your Pain levels at an "8" or please remember to report your pain levels at an "8" Vannah & Vannah always has the notices of attorneys liens in the files - current on all old/closed cases. Paul texts a lot on his phone but they don't record calls or have any office program for texting clients. Scheutze, Mogaha, Turner & Ferris (legal ride) had alot of Lienholders (not under the table business deals like Vannah & Vannah tho, at least from what I knew) too and always saved the notices of liens. Legal ride I'm sure was in on this jumbo jumbo but they didn't bother me too much I just quit bc I hated it there & had mental health issues again in October last year. I'm trying to give as much info as I can to get everyone. I truly think they are all bad even I can't explain or prove right now. Paperwork doesn't always tell the story. That's why I hated telling people my story or resume doesn't get me paid well - there's so much more to it. If LPL doesn't have the indentured servant contracts - they're hiding them or destroyed them. If they produce eeooc docs w mh signature - they're doctored or false. I have breach of contract evidence for them too (implied or explicit) like the last raise they gave me for September 1st - it's in my personal email. They called me employee and just gave so much praise about how invaluable I am, advancement & growth opportunities. If only a "personnel" they said employment in that email & always called me an employee so yes I completely forgot about me being only a "contractor". Or if they are covering up the bad docs I signed and are pretending to be eeooc - breach of contracts for ada, firing me in bad faith I guess. I have all the explanations; too tired to write it again. - Office	No action.
C-2233441	Law Practice, Ltd.		10/27/2024	Online				Closed		Dr. Mashkooor already sent me a message my within 10min letting me know she resent the prescription. THAT IS RECORD TIME. And usually she adds a mean little comment about how it wasn't her fault or it was my fault for just puts me down in general. No comment this time. AND IT IS NEVER THIS QUICK. And Walgreens already texted me saying they received the RX which in the last few years - has been so delayed too. Even when they know I'm waiting for it they would still take forever a lot of times. They're behaving now. But it years of insufferable bullshit that made me sick for years. - Jsjsksj	No action.
C-2233446	Unknown/Invalid Establishment		10/27/2024	Online				Closed		Dr. Mashkooor told me in 2023 that she didn't help clients with applying for social security disability and I'd have to find a new psychiatrist for that. At this point, no offense do I have to do everything myself. Can someone please just help me. I wasn't ready then to switch doctors and right now, I don't know what I can handle anymore. And I don't know how much they offer I think it's only like \$800 a month. Like??? I was able to work for so long & now bc I've been abused and can't I still will never have the opportunity for financial independence??? This isn't right. I don't even know if I can handle seeing more doctors. I just want the unemployment for now so I can breathe some air & then I'll think what to do next. Thanks - Everywhere	No action
C-2233481	T.J. Maxx #1376		11/14/2024	Online				Closed	O-Safety	1. Boxes are improperly stacked boxes in the backroom and employees are concerned about the hazards associate with them. 2. Boxes are blocking employee egress in the backroom. 11/15/2024 SLT	Resolved through inquiry process.

R-2221364	Circle K		10/08/2024	Online				Closed		Laws in Las Vegas prohibit the employees to be alone while working. There is only ever 1 person working. I have spoken to management, I have filed complaints with Circle K directly. This is getting to the point, where if OSHA doesn't make the franchise owner do something about the employees safety I will contact the news and FORCE them to acknowledge the lack of care for not only the employees, but the lack of care for food being sold to citizens. Safety is horrifying here and if anything happens to an employee at this location, I will be sure to visit the court house with ALL OF MY COMPLAINTS and be sure that this one is added to it. PROTECT THE LAS VEGAS CIRCLE K EMPLOYEES FROM THIS SWEAT SHOP EMPLOYER! PLEEEEAASE	No action. No applicable standard.

On 10/11/2024 at approximately 7:30 p.m., a patient from 5 Center - Room 511 became aggressive and grabbed an employee's right wrist. The employee was treated in the Emergency Room of the hospital. 10/17/2024 AL	No action. Resolved through another inquiry.
R-2224013	Gallagher Bassett		10/17/2024	Online	Y			Closed	O-Health;S-Safety	1. The top floor of the parking garage has been blocked off for several months due to large cement chunks falling from the ramp. There is concern that the top floor parking garage and ramp's structure is unsafe. 2. The building's elevator has been out of service for over a year, limiting employee egress in the event of an emergency.	Resolved through inquiry process.
R-2224057	Cowabunga Vegas, LLC		10/15/2024	Mail				Closed		1. Multiple hazards to the park patrons. DF 10/17/2024	No action. No employee exposure to hazards.
R-2224486	SOLACE ENTERPRISES, LLC	AETHER GARDENS	10/18/2024	Phone	Y			Closed	S-Health;S-Safety	1. Employees exposed to fire hazards with blocked emergency exits. 2. Employees exposed to fire hazards with no working fire sprinklers. 3. Employees exposed to fire hazards with no working fire alarms.	Resolved through inquiry process.
R-2224499	University Medical Center of Southern Nevada		10/17/2024	Email				Closed	S-Health;S-Safety	1. On 10/02/2024 at 6:00am in 2 South a patient kicked employee in the back. 2. On 10/03/2024 at 7:50pm in the Adult Emergency MSC 7 a patient spat on the right side of the face of a nurse who was checking their restraints. 3. On 09/29/2024 at 11:10pm in the 2 South 205-2 a patient kicked RN on their hand injuring their thumb. 4. On 10/08/2024 at 8:20am in the 2 South 201-211 hallway a patient slapped nurse multiple times in the face. 5. On 09/27/2024 at 7:30pm in the Adult Emergency MED 1 a confused/intoxicated patient kicked and pushed a nurse while she was trying to get the patient back in bed. 6. On 10/07/2024 at 12:45am in the Adult Emergency MSC 6 a employee was kicked by a patient in the right arm and launched into the door injuring her left wrist. 7. On 10/13/2024 at 5:00am in the Emergency Department RMA Breezeway an uncooperative and violent patient had been brought to the emergency department via Medic West Ambulance. The patient had tried to hit the physician and other medical personnel, so the physician requested that the patient be removed from the facility by the Public Safety officers on duty in the department. The Medic West paramedics attempted to block the Public Safety officers from removing the patient and began verbally arguing and pushing the Public Safety officers away from the patient. The paramedics kept telling the patient not to leave until being seen by a physician. The patient had been seen but was uncooperative and exhibiting violent assaultive behavior. The patient was removed, and Medic West management/supervisor were notified about the incident. 8. On 10/14/2024 at 7:20am in the Unit 2 South Room 208-2 an employee was sitting in Room 208-2 when the patient from Room 213-2 entered the room and attacked the employee. The patient pulled the employee's hair, bit their head, and scratched their face injuring their eye. The patient was controlled by facility security and placed back in their room with restraints. The employee has received medical treatment in the emergency department. 9. On 10/11/2024 at 12:30pm in the Unit 2 South Room 2062 a patient was agitated and punching the wall. An employee de-escalated the situation and provided food for the patient. The patient began getting agitated again and began throwing their food around the room. Two additional employees responded to the room and put the patient in restraints. During this process, the patient hit one employee in the left arm and spit on the second employee, which got into their left eye. The patient also received medication to calm aggressive behavior. The patient stated they were acting out because they wanted to be arrested.	No action. Employer has responded to previous UPA's with workplace violence program.

R-2227854	Sunrise Hospital and Medical Center		10/17/2024	Email		1784792	10/29/2024	Closed	O-Safety	1. On August 18, 2024, in the Medical Surgical Unit, a patient on a medical hold attempted to leave the facility. A staff member attempted to redirect the patient, but the patient responded with a verbally aggressive manner. The patient proceeded to run through the doors while screaming but was unsuccessful. Security and staff were able to redirect the patient back to their room and provide medication to help them relax. No staff sustained any injuries. 2. On September 14, 2024, in the Adult Emergency Room, staff and security attempted to separate a patient that was assaulting his mother. During the incident, one registered nurse (RN) was struck across the left side of the mouth, nose, and head. The patient also grabbed ahold of the RN's hair and pulled clumps of hair out. The RN sought medical treatment after the incident and was released. 3. On September 15, 2024, in the Neuro/Stroke Services Department, a confused and combative patient with a history of falls, had set his bed alarm off when getting out of his bed. The RN, along with another employee, ran in and both observed that the patient was tangled in his Foley catheter. While assisting the patient, the patient punched the RN in the face. A security report was not made despite facility policy and training. The employee sought treatment in the emergency room. 4. On October 2, 2024, in the Medical Intensive Care Unit, a patient with a high fall risk on a Legal 2000 hold, while attempting to get out of bed, kicked a female RN in the abdomen and lower chest wall while assisting the patient back into their bed. The RN was treated and released. 5. On October 8, 2024, in the Medical Cardiac Unit, an RN attempted to prevent a patient from removing their intravenous (IV) lines after their fifth attempt when they were kicked on the right side of their chest. The RN sought medical treatment after the incident. The RN did not report this event to security or police as required by facility procedures.	Inspection conducted. 1 citation issued - \$1,195.61.
R-2227866	Cox Communications		10/27/2024	Phone	Y			Closed	O-Safety	1. An employee at the convention center was running internet lines when he began to experience chest pains. The employee was transported and admitted to a hospital.	Resolved through inquiry process.

R-2228498	Law Practice, Ltd.		10/28/2024	Online				Closed		10/21/2024 - my involuntary termination date. Hostile work environment. Really bad. I think I just need to get this claim done. I haven't slept for 2 days just so confused on what to do & how to handle this on my own. I didn't request an ada accommodation or disclose my mental illness disabilities because it's and extensive and can defining story. It never affected my work or job until I couldn't take the unfair & discriminatory treat and harassment. Including sexual harassment I think. I'm scared to make claims I can't completely explain right now but they covered up their sons bad actions towards me with more bad actions. Once I disclosed my extensive story bc I couldn't take it anymore & extreme demotion - I was fired on Monday. I am overwhelmed and trying to collect unemployment. At this point I don't even know when the next time I'll be able to work or make any strides towards become a financially independent person. I need help. Experienced almost all of the discriminarions & harassments & employment abuse including unfair wages probably. Ive looked ip so many laws and am burnt out - havent slept in two days. No, i dont need to be hospitalized. Just worried sick. After I made one complainr about unfair treatment towards me related to their son (I was blamed & loudly yelled/screamed at for his mistakes) and he proposely did it to get me in trouble (I have docs to prove he knew this) even after I spoke to him again about doing the FDF - I got screamed at by his mom. Then, I sent a retainer agreement template via email to him and wrote & verbally told him to make some changes before finalizing. Same hour. He ignored. So I walked into attorneys office after client signed o & said I did not want to be blamed for someone else's wrongdoings anymore. Even printed out the email showing her. He ignored all my emails & id get yelled at for stuff not being done & everyone in the office was cc'd but I was overzealous and got stripped of my office duties in the end for reasons unfair. Everything I did was annoying bc he told him moms I was annoying after he was mad I wore promise ring for some else. She would be nice when he want around. It was all to support his ego. They were only nice if I ?respected? him. They didn't even explicitly disclose he's attorney son or they're all one big family to me. Close family friends. Office manager does nothing and probs gets paid more than me. I'm just as skilled as anyone else and can learn anything. I had a hard to after undergrad and told them many time how my life wasn't a rule book like their or their sons after college. They didn't get it, judged me all the time for everything. He wasn't even good at even preparing really important docs & I just wanted them to be correct bc they were so bad. He got mad, he'd tell her probs, she'd be mean to me. I deserved a higher salary even if I didn't have all the job experience. It was clear I was smart. Age discrimination bc I was youngest & most vulnerable & least experience. Attorney even said would time clients would pick on me 1st probs bc easiest to target (during last week there). They knew what they were doing - idk if they wanted to get me fired or not. After I ?respected? son last 2 days there - they were nice again. Retainer agreements were something I was taught to explain at ever law firm & did there last 7 months. Didn't want me explaining deadlines & procedural docs & said it was legal advice when really just meant they weren't going to follow all trial deadlines bc docs were due next day. Yelled at me for explaining hearing dates she literally told me to explain the doc to him like I always did past 7 months & client ran out of money & he extra questions she didn't want to answer or work on case anymore. I was following up on 16.2 docs from this client consistently. She told me to have him get them to us by day we filed motion for withdrawal. Then said I couldn't do any case work bc we had to do his disclosures after he had no money.	No action. No alleged hazard.
R-2228500	Summerlin Hospital Medical Center		10/15/2024	Email				Closed	O-Health	1. A patient tried to get out of the bed while a nurse was trying to change their dressing. The patient kicked the nurse in the right side of their face.	No action. Workplace Violence Program previously reviewed.

R-2238063	Denny's		11/27/2024	Online				Closed		Hazard Description: OSHA REPORT: Restaurant: 3881 W. Flamingo Road, Las Vegas, NV 89103. Incident Date: November 20, 2024 Incident Time: 9:32pm It was approximately 9:32pm on November 20, 2024 one of the waitresses approach both myself (OSHA license Representative-12-006058783) and my husband to seat us at a table. For some unforeseen reason the waitress asked if both myself and my husband were using any coupons. After replying yes, the waitress told us we were not able to come in the restaurant as per her Manager's directions who was not present on the night shift at all during the statement that was quoted from the waitress mouth. Not only were we very shock of what was said but we were hurt, humiliated, and embarrassed as an OSHA REPRESENTATIVE and as a customers. After not being invited in we were told by the waitress we were not able to use the Denny's coupons at all. Our Civil rights were violated. Not only were we not displeased what was told to us, I recognized the restaurant was freezing cold while all customers including ourselves were at the restaurant for the last couple of weeks. The waitresses were talking very bad about both myself and my husband. Both myself and my husband's First Amendments Rights (Civil Rights) were violated. While being present as an OSHA Representative and as a customer many times prior to November 20, 2024, I noticed the waitresses inside of the kitchen area where the chefs are cooking food with no hair net on or any gloves on at all. I fully observed that how the waitresses handles all the revenue and then without washing their hands serve food to all of the customers without cleaning their hands prior to touching customers plates each and every time I was present in the restaurant. United States Citizens rights are being violated by Denny's employees and Managers by asking for customers identification for coupons. The fact that these free coupons given to customers this is HIPPA Violation that goes against the first ament in the American Constitution. I am a multi business owner and OSHA Representative. Upon these findings: I would like to have an OSHA President to pay multiple visits during the night shift between 9:00pm and 10:00pm to the Denny's Restaurant located at: (3881 W. Flamingo Road, Las Vegas, Nevada)to observe the germs that will cause a major health potential health risk and major harm to all customers. Hair Nets are mandatory due to the fact that hair carries a lot of germs and hair particles are well known to fly into customers food. Hand washing is very imperative and mandatory to reduce germs spreading from one person to another. Due to the fact of the freezing temperatures that could get any elderly person, any child, any infant, or anyone at any age could really become ill.Covid 19 actually proves this health fact that I am expressing to OSHA. The only people I noticed wearing a hat was the African-American Chef. The gloves were worn by the African-American Chef, both the Male waitress name Reggie, and the Female waitress name Maryland her hair was pinned up and all three of these individuals followed OSHA's guidelines. Please keep my name confidential please and Thank You. I would like to be compensated for this matter as well. Thank You, Angela Tait OSHA Representative U.S CHAMBERS OF COMMERCE MEMBER Business Owner	No action. No jurisdiction.

UPA #	Estab Name	DBA	UPA Receipt Date	Receipt Type	Letter of Inquiry	Inspection	Entry Date	UPA Open/Closed	Severity-Subject	Hazard Desc & Location	Inspection Results/Comments
R-2240287	Dune Operating Holdings, LLC	Perfect Harvest LLC	12/09/2024	Phone	Y			Closed	O-Safety	1. Scaffolds are damaged and regularly have problems to include missing bolts, bars falling off, caster wheels not being secured and scaffold systems tipping over and releasing from the third level. Blue or grey tape on the scaffolds means they are damaged, but employees are still using them despite the damage. 2. The middle and top scaffold bars are stood on to reach and work on taller plants. 3. In the flower rooms, used scissor lifts do not function properly or will stop working when an employee is up in the air, requiring employees to climb down from the second or third level. cw 12/12/2024	Resolved through inquiry process.
R-2240295	United Parcel Service Inc		12/05/2024	Phone	Y			Closed	S-Health	1. On 12/03/2024 around 4:30 PM, an employee fell attempting to exit a delivery truck and lost their footing. The employee injured their hand and was transported to Sunrise Hospital. On 12/04/2024 around 11 AM, the employee returned to Sunrise Hospital due to increased swelling and pain. It is unknown if the employee has been admitted for surgery. 12/09/2024 SLT	Resolved through inquiry process.
R-2240305	Golden Heart Senior Care		12/06/2024	Online				Closed		1. On October 4th, 2024, an employee notified the owner of all the illegal activities that were happening in the group home. The manager of the group home kept the medication they were supposed to get rid of after a person passed away. The manager used the medication to make cocktails and gave it to the residents who they didn't want to deal with. An employee notified the manager about a medication was missing and the manager did not report it. An employee faced discrimination and was called "black monkey" by the manager. An employee was demoted from being a manager because they reported what the other manger was doing. The manager is verbally abusive to the residents. Additionally, the employee faced retaliation. The medication isn't locked up with three locks. Caregivers are using expired license to pass medication and are not recertifying their license each year. There are employees who take medication and gets high at work. The manager lets an employee pass medication when the employee is not a medical technician. The manager has fired all the black people at Golden Brook because the manager doesn't like them. 12/9/2024 AR	No action. No jurisdiction.
R-2240346	Rebel 82		12/08/2024	Phone	Y			Closed	S-Health	1. On 12/07/2024 around 4:45 PM, an employee was experiencing fever, nausea, and vomiting. They requested an ambulance and were admitted to Valley Hospital for a "systemic infection". 12/09/2024 SLT	Resolved through inquiry process.

R-2245706	Unknown/Invalid Establishment		12/18/2024	Email				Closed		I could tell the fiancée couple told people when I left to get weed at apartment for 15 min that when I came back they told people. About argument at least so I got paranoid. bc I told Kyle who is also their friend he is everyone's friend at bar. It was a different air when I got back & like it was clear I was looking for ATM to gamble & asked bartender something related to same & when I got up this man sitting w who they were talking to like kinda cut me off to atm & then I walked by and could tell couple had talked about me & that 4-5 people next to them to were like weird about it to me they didn't expect me to come back but I told Steph bartender before I had left that left something at home would be back. They stayed neutral & when Kyle got on everyone was including couple was fishy & assholes. From Oregon or Colorado or something and work at lazy dog in DTS which I love that place. I never get along with people. I intimidate everyone somehow all the time it's such a fuckin spiritual and outrageous line I just wanna use what I got assets if I'm so pretty !?! do the cocktail waitressing or whatever the fuck it is fuck. Im nice too. They're shitty gossipers. I won't go back. Maybe they don't know but I got paranoid. I said ?let it go out loud? when I got money & back to seat & then felt like he kept taking about me so I kept asking for Kyle & Steph bartender came as switching registers and I freaked. Told Steph whoever Kyle & bar owner & Kevin knows to leave me alone. I won't come back. And I WILL NOT BE GOING BACK THERE. I got scared. It was full bar but all rich lakers people who probs just thought I was crazy and didn't know what I was yelling for. Pls contain. Kyle know most. And bar ownxer. I WONT GO BACK AFTER INCIDENT I SWEAR. Can you just contain??? I don't know. Bar wonder can get all on board to shut up. Pls lol. Related to investigation & I won't go back @ everyone will shut up honesty. Bar wonder is really nice. Maybe/or probs didn't tell hanratty honesty. I'm sorry I don't have life rn. Yes I'm drinking & smoking cigarettes away like a true Vegas degenerate. Ok. It's fine. Not a big deal. Tonight was first time I saw them since. And that bars far too near so sucks I'm gonna lose it. Oh well contain pls I blew my cover as whistleblower. SORRYYYYY OSHA. I stayed 2:30-5:30am two day ago drinking & smoking cigarettes w Kyle & had steak & eggs breakfast w him & then went home by like sunlight honesty it was fun. He comps all my drinks too and gave me \$20 to gamble. But I paid the \$10 back & then tipped I love that bar convenices is only half. Cool bar & cool people. Fuck that couple & Kyle is such a gossip & got in over his head and I got paranoid. Plsss. I won't go back & will try not to do it again. I'm a PTSD victim here. Bar owner will shit the rumors down. It's a quiet bar and will shut people down for being too loud & no cursing & bar wonder no names but is cool if I met him. I won't go back. Lakes bar Hat guy kept threatening me like physical lowkey kindash tryna scare me like an asshole and I said ?so?? My uncles in LVMPD whachu think I'm stupid???? And then when he stormed out and I left at exact same time as they were leaving. And then turned around and went back and stayed ready of night there chillin w Kyle. Got very drunk. Last Thursday. Not this weeks Thursday. Ok gn.	No action.

R-2245723	Unknown/Invalid Establishment		12/11/2024	Online				Closed		Dear OSHA, A few days after you called and told me my complaints were not applicable to your office - I had a very bad appointment with Dr. Mashkoor. Nov 4th I think. She said she wouldn't help me fill out my very brief Nv unemployment form. She was mean and seemed mad at me. Not great Doctor advice either. Their on telehealth. I told her how I got fired and that I just needed time to recover from the trauma if she could just fill out the form for me and she said the fastest recovery was to get a job Asap with a straight face as I balled my eyes out in front of her. I kept asking her to stop talking about the job bc she kept going on about the stuff and how either I misunderstood why I was fired or that's just how things go there sometimes and I was about to scream in pain. She prescribed 2mg abilify and my Ritalin. I missed the 2 week follow up appt and just barely rebooked yesterday for 12/24. Ldk. I haven't picked up either prescription still. I cannot do anything related to progress or life rn. I missed my 11/18 unemployment interviews. My mom kicked me out on like 11/7. She did keep trying to say rehab or hospital. She did find some empty pill bottles w not my name in my room. It was all bad. I took some clothes and now I'm at my gmas. She's nice. Just very dirty and kinda a hoarder. But she's nice and no pressure here. Soulmate got arrested for tax evasion and I don't feel bad. He can do his time. He lied to me and said it was honest money anyways. He evaded his taxes for a few million as I had nothing anyways and he just watched. I've just been hanging out at my gmas everyday recovering and laying low. I'm getting slowlyyyyyyy better. And I've decided a new route for my life. I'm going to use my assets. Ok. I'm 100 pounds and 25 and have the right look for it now so that I can do it - bottle service. I'll start at a strip club to bypass hostessing, get my experience & get used to the life and then by January 2026 - I'll apply for the first time for the pools. I'll also look into the nightlife spots. If I can do a good amount of years in that life - I'll save for whatever I choose to do next. And it's money to get myself finally on my feet. I can't sit at my gmas forever - but this will be a huge adjustment that will indeed be hard on my body and probably many cries alone in my car or room lol. So by February or early March I'm taking it serious. I think about my justice a lot. It's sad I have to lay low while someone like LPL gets to just treat someone like me as nothing. Even against someone like my mom - she's very mean to me. I don't care. She's overall not a nice person and only nice to those she can't take advantage of. She's even mean to her sister in law bc ofc my uncles wife wants to fit in. A model bottle service will be a huge triumph bc my uncle and everyone in the family will respect me and be surprised once I do it. And I hate my mom. It's fine. I swear. I think about my justice and hope you can find a legitimate case including criminal prosecutions in there somewhere. But who knows. I remember the atty at my first legal assistance job told a client about OSHA and he said that they might make it sound like their not looking during the first phone call and that if anything happens - they should give updates bc if it's a legitimate case - OSHA is most likely looking into it and updates are helpful. I won't reach out too much. I just wanted to let you know where I'm at. I know I'll need my medication for work but I'm still laying low for now. And trying to take on a new attitude so ppl can't always take advantage of me kinda thing. Like Dr. Mashkoor. She can chill out. That's what she prescribes me and I shouldn't be so scared about it all the time. The break from adderall lately has been nice. Mainly - the stress about always having it or not having it. God it's been so fucking nice to not worry like a damn drug addict for a change. I also yelled at my drug dealer and called him many mean names & Hazard Lo	No action.
R-2245724	University Medical Center of Southern Nevada		12/10/2024	Email				Closed		1. On 11/26/2024 at 6:00 am in the Burn Care Unit Rm #1314 a 3 yr. old, the burn care patient was being given an IV. Patient was being held by RN and the patient bit the RN on her left arm. 2. On 11/29/2024 at 5:40 am in the CIMC 1306, a confused patient was being assisted by an employee to keep her from falling. The patient became agitated and struck the employee on his right arm. 3. On 11/10/2024 at 8:00 pm in the Adult ED a combative patient was being placed in restraints and kicked an employee in the face. 4. R-2246541	Centennial Hills Hospital		11/06/2024	Email				Closed	S-Safety	1. On 10/28/24, at 11:40 am, in Room 356 Medical Floor, bed was alarming. Patient on floor. Patient became hostile. Kicked RN in the groin and scratched his arm. 2. On 10/30/24, at 9:00pm, in ER 22, Patient has dementia and was confused, trying to get out of bed. Staff tried to talk to him and tell him he is not stable enough to walk, he is on a heparin drip and if he falls he could have serious injury. Staff tried to ensure patient he was at the hospital and was safe, staff also told him his daughter would be there soon. Attempts were made to call daughter as well. Patient became combative as staff was trying to help him get back in bed. Patient grabbed CNA and Sitter's wrists and twisted their arms, swung his fists trying to hit CNA and Sitter. Writer, primary RN got an order for soft wrist restraints, during first attempt to apply restraints patient swung his fists and made contact with writer in the chest. Code grey was called, soft wrist restraints applied. Daughter arrived shortly after code grey was cleared. Daughter was understanding of the situation including restraints. 3. On 11/1/24, at 1:25 pm, in hallway, Confused patient trying to leave and get into the elevator. Staff attempted to stop patient from leaving and patient grabbed her arm and scratched her.	No action.
R-2246601	Mammoth Underground, LLC		11/01/2024	In person		1786078	11/01/2024	Closed	I-Safety	1. An employee was working in a excavation with no cave-in protection. 11/1/2024	Inspection conducted. 1 citation issued - \$10,372.00
R-2247035	Unknown/Invalid Establishment		12/30/2024	Online				Closed		Dr mashkooor was so much nicer today during today's appointment. I had so much anxiety leading up to it but she behaved exactly the way I needed. That's seriously all I needed from her, just to be nice - so thank you if you had anything to do with it. I won't contact you again - so pls stop calling me. I don't have it in me to deal with anything you guys say. Especially if you think I'm crazy or will treat me that way. I know I don't tell my doctor everything so if ur gonna use it as a way to characterize me as crazy or not believable - well I hope LPL showed you why I keep my mouth shut & just usually only do & say enough to get by. I specifically reached out bc after LPL bc- I never did one single thing wrong there and KNEW I had the definitive proof to at least be able to report that one & be believed. Either way - just pls leave me alone & don't call. Thank you for helping me with Mashkooor if you did. All I needed was someone to be nice to me & gentle. No mother figure or anything like that - just nice. And not make me feel like or on edge every interaction like I'm gonna lose everything. Everyone does that to me - not just her. But now I don't stress about my medication!! Ok, I'm getting better overall btw. I am drinking o & going out less. Don't smoke weed anymore & finally picked up my medication last week. Slowly but surely will get there, thanks. You did your job now pls don't cause any drama or anything bc I said so many things to you, opened up, etc. I just needed an advocate & I got that. Thanks, bye	No action.
R-2247145	Private Residence		12/24/2024	Online				Closed		Ya there is exposed live wires throughout the house with power on.. they took an axe and just hit the electrical live and it would pop the breaker it's hella dangerous there.. there's nothing marked for safety - inside throughout the whole house	No action. No jurisdiction.
R-2250585	University Medical Center of Southern Nevada		12/19/2024	Email				Closed	S-Health;S-Safety	1. On 12/14/2024 at approximately 01:25PM in the 1400 MS RM 1405 a patient threw a full pitcher of water at an employee hitting them in the back. 2. On 12/17/2024 at approximately 5:20PM in the Trauma ED Parking Lot a discharged patient was refusing to leave and was being escorted out by PSO's. The patient then struck one of the PSO's in the chest, and was detained. LVMPD was called. Patient was trespassed and walked off property.	No action. Employer has responded to previous UPA's with workplace violence program.
R-2251228	J SX		12/30/2024	Online	Y			Closed	O-Health	1. The J SX hangars have unlabeled and improperly stored cleaning chemicals, materials, and hazardous materials. 1/13/2025 AL	Resolved through inquiry process.
R-2251290	Valley Health System, LLC.	Henderson Hospital	12/19/2024	Email	Y			Closed	O-Safety	1. In Room 5B, on 12/08/2024 at 5:00 pm, a patient was verbally abusive towards staff and spit on security officer. Law enforcement notified.	Resolved through inquiry process.
R-2251452	Summerlin Hospital Medical Center		12/28/2024	Email				Closed	O-Health	On 12/10/2024, a patient attempted to elope and when the staff attempted to calm the patient, the patient scratched and headbutted a staff member. On 12/16/2024, staff attempted to do an EKG on a patient. The patient got upset saying, "no one cared about her," then put a crunch bar in her mouth, put some water in her mouth then spat it at the nurses. The patient then began throwing water at the staff from the water bottle. On 12/07/2024, a patient requested ice and tape, the unit clerk responded to the room and the patient threatened to beat the employee up. Security was called. The unit clerk declined to file charges. On 12/15/2024, a patient came in by ambulance and was being escorted to the lobby to begin workup. The patient did not want to go to the lobby and shoved the ER tech, as the patient was getting off the gurney. 1/14/2025 JC	No action. Workplace Violence Program previously reviewed.
R-2251475	Summerlin Hospital Medical Center		11/08/2024	Email				Closed	O-Health	1. On 11/15/2024, a patient adjusted his shoulder and arm in threatening motion as if he was going to strike/hit the nurse, while the nurse was administering medication. 2. On 11/12/2024, a patient demanded hospital staff charged his phone to take pictures and record all events and staff. The patient was educated on the importance of privacy. The patient became upset and demanded to leave the property with his IV in place. Security was called when the patient threatened and yelled at staff, "I will kill you!" 3. On 11/10/2024 a patient, only alert to staff, was sun downing and attempting to elope. The patient removed their sling and attempted to kick, bite and push staff. The patient was redirected with educational materials. 4. On 11/22/2024, a patient was not responding to verbal stimuli. The bedside RN initiated a sternal rub to stimulate the patient. The patient awoke and swung at the RN, lightly striking her. The patient then yelled, "I will fucking kill you bitch." 1/14/2025 JC	No action. Workplace Violence Program previously reviewed.
R-2251497	Summerlin Hospital Medical Center		12/09/2024	Email				Closed	O-Health	1. On 11/26/2024, a patient verbally threatened and swung at staff members. Code Grey was announced, and security de-escalated with no injury to staff. 2. On 12/06/2024, a patient hit a physician while the plan of care was being explained. 3. On 11/27/2024, while two staff members were providing care, a family member of a patient yelled, They will all be dead before I leave this place." Security was called and LVMPD was contacted who trespassed the family member off hospital grounds. 4. On 12/09/2024, a patient became confused and combative resulting in a CNA being scratched. 1/14/2025 JC	No action. Workplace Violence Program previously reviewed.
R-2251776	Valley Health System		12/23/2024	Fax				Closed		A patient hit the CNA on the head several times. no injury occurred and the patient was returned to the bed.	No action. Workplace Violence Program previously reviewed.

Advisory Council

NRS 618.347 – Report Concerning Issuance of NRS 618.375(1), NRS 618.375(2)

General Duty Citations by the Division

1st Quarter FY25: July – September 2024

1. Great Basin Beverage, LLC - Inspection 1761885

Nevada Revised Statutes 618.375(1): Duties of employers. Every employer shall furnish employment and a place of employment which are free from recognized hazards that are causing or are likely to cause death or serious physical harm to his or her employees.

Located at the warehouse soda section at the racking system marked 23.5, the racking system was observed in service with a damaged upright column post with material weighing up to 850 pounds placed on the second tier and two pallets of material placed on the third tier weighing up to 2,000 pounds each exposing employees to the recognized hazard of being struck-by or crushed-by should there be a catastrophic failure of the racking system.

Reference: ANSI MH16.1 2012 Specification for the design, testing and utilization of industrial steel storage racks. Section: 1.4.9 Rack damage.

Abatement Note: Among other methods, one feasible means of abatement would be to remove stored items from the damaged racking system until the racking system is repaired or replaced.

Proposed Penalty \$6,857.00

2. MGM Grand Hotel, LLC dba MGM Grand Hotel/Casino – Inspection 1725634

Nevada Revised Statute 618.375(1): Duties of employers. Every employer shall furnish employment and a place of employment which are free from recognized hazards that are causing or are likely to cause death or serious physical harm to his or her employees.

The employer did not ensure that employees were protected from recognized hazards that are likely to cause serious physical harm. In the east side of the carpentry shop, the employer utilized storage racks with 2-bolt and 4-bolt pattern anchor plates to store various sheets of plywood. The anchor plates were not secured to the ground by any means. Employees utilized a forklift to restock the storage racks with plywood and parked utility vehicles next to the storage racks. Employees operating the forklift and vehicles were exposed to recognized crush-by injuries in the event the storage racks tipped or collapsed.

Reference: Section 1.4.7 of ANSI MH16.1: 2012 Specification for the Design, Testing and Utilization of Industrial Steel Storage Racks.

Section 1.4.7 Column Base Plates and Anchors

The bottom of all columns shall be furnished with column base plates, as specified in Section 7.1. All rack columns shall be anchored to the floor with anchor bolts, which shall be designed in accordance with Section 7.3, to resist all applicable forces as described in Section 2.1 or Section 2.2.

A feasible means of abatement would be for the employer to ensure that column base plates of each storage rack are properly anchored to the floor.

Proposed Penalty \$14,518.00

3. Walmart Inc. dba Walmart #2838 – Inspection 1727808

Nevada Revised Statute 618.375(1): Duties of employers. Every employer shall furnish employment and a place of employment which are free from recognized hazards that are causing or are likely to cause death or serious physical harm to his or her employees.

The employer did not ensure that employees were protected from recognized hazards that are likely to cause serious physical harm. Employees were exposed to struck-by and crushed-by hazards presented by pallets of merchandise stored on steel storage racks while working in the grocery receiving area and the general receiving area of the warehouse. In the warehouse area, employees operated a Yale walkie stacker/PIT (Model# MSW040SFN24TV072 - Serial # B895N08650V) to load and unload pallets from storage racks. The column base plates of the storage racks were not anchored to the floor. Employees operating the walkie stackers were potentially exposed to serious crush-by injuries in the event of the storage racks tipping or collapsing due to inadvertent contact between the forklift and the storage rack.

Reference: Section 1.4.7 of ANSI MH16.1: 2012 Specification for the Design, Testing and Utilization of Industrial Steel Storage Racks.

Section 1.4.7 Column Base Plates and Anchors

The bottom of all columns shall be furnished with column base plates, as specified in Section 7.1. All rack columns shall be anchored to the floor with anchor bolts, which shall be designed in accordance with Section 7.3, to resist all applicable forces as described in Section 2.1 or Section 2.2.

A feasible abatement method is to follow the Specifications for the design, Testing, and Utilization of Industrial Steel Storage Racks (1.4.1 (2) and 1.4.9). 1.4.1 Owner Maintenance, regularly inspect for damage. If damage is found, immediately isolate the affected area. Have a storage rack design professional evaluate the damage and unload, replace or repair if directed by the professional, any damaged columns, beams, or other structural components to restore the system to at least its original capacity. 1.4.9 Rack Damage.

One feasible means of abatement would be for the employer to anchor the racks to the floor in accordance with ANSI MH16.1-2012.

Proposed Penalty \$16,131.00

4. 3535 LV Newco LLC dba The Linq Hotel & Casino – Inspection 1731008

Nevada Revised Statute 618.375(1): Duties of employers. Every employer shall furnish employment and a place of employment which are free from recognized hazards that are causing or are likely to cause death or serious physical harm to his or her employees.

The employer did not ensure that employees were protected from recognized hazards that are likely to cause serious physical harm. In the housekeeping storage area, an employee operated a Toyota electric pallet jack to load and unload housekeeping department supplies from storage racks. The column base plates of the two rows of storage racks were not anchored to the floor. The employee was potentially exposed to serious crush-by injuries in the event of inadvertent contact between the storage rack and the electric pallet jack.

Reference: ANSI MH16.1: 2012 Specification for the Design, Testing and Utilization of Industrial Steel Storage Racks.

Section 1.4.7 Column Base Plates and Anchors.

The bottom of all columns shall be furnished with column base plates, as specified in Section 7.1. All rack columns shall be anchored to the floor with the anchor bolts, which shall be designed in accordance with Section 7.3, to resist all applicable forces as described in Section 2.1 and Section 2.2.

A feasible means of abatement would be for the employer to ensure storage racks are anchored to the floor.

Proposed Penalty \$4,995.00

5. Smith's Food and Drug Centers, Inc. dba Smith's Food and Drug – Inspection 1739068

Nevada Revised Statute 618.375(1): Duties of employers. Every employer shall furnish employment and a place of employment which are free from recognized hazards that are causing or are likely to cause death or serious physical harm to his or her employees.

The employer did not ensure employees were protected from recognized hazards that are likely to cause serious physical harm in two instances.

1. In the warehouse soda area backstock, pallets of soda are loaded onto shelving using a Hyster model W40ZA Straddle Stacker Truck operated by the store associates.
2. In the beer storage room, seasonal display supplies are loaded onto shelving using a Hyster Model W40ZA Walkie Straddle Stacker Truck operated by the store associates.

The storage racks in both instances were not secured to the ground by any means and were at risk of being tipped over or collapsing after being struck by the stacker truck. Associates performing stocking and inventory duties were exposed to recognized crush-by injuries in the event of the storage racks tipping or collapsing.

Reference: Section 1.4.7 of ANSI MH16.1: 2012 Specification for the Design, Testing, and Utilization of Industrial Steel Storage Racks.

Section 1.4.7 Column Base Plates and Anchors

The bottom of all columns shall be furnished with column base plates, as specified in Section 7.1. All rack columns shall be anchored to the floor with anchor bolts, which shall be designed in accordance with Section 7.3, to resist all applicable forces as described in Section 2.1 or Section 2.2.

A feasible means of abatement would be for the employer to follow the requirements of American National Standards Institute (ANSI) MH16.1-2008.

Proposed Penalty \$12,929.00

6. Smith's Food and Drug Centers, Inc. #347 – Inspection 1739240

NRS 618.375 (1) Duties of Employers. Furnish employment and a place of employment which are free from recognized hazards that are causing or are likely to cause death or serious physical harm to his or her employees.

The employer did not ensure that employees were protected from recognized hazards that are likely to cause injuries or temporary, reversible illnesses resulting in hospitalization or a variable but limited period of disability. In the main back room in the rear of the supermarket, the employer utilized several metal storage racks on the south wall to store various pallets of products on top. Pallets of product are loaded onto the shelves with a power industrial truck "The Stacker" operated by employees. The storage racks were not secured to the ground by any means. Employees performing stocking and inventory duties were exposed to recognized crush-by injuries in the event of the storage racks tipping or collapsing.

Reference: Section 1.4.7 of ANSI MH16.1: 2012 Specification for the Design, Testing, and Utilization of Industrial Steel Storage Racks.

Section 1.4.7 Column Base Plates and Anchors

The bottom of all columns shall be furnished with column base plates, as specified in Section 7.1. All rack columns shall be anchored to the floor with anchor bolts, which shall be designed in accordance with Section 7.3, to resist all applicable forces as described in Section 2.1 or Section 2.2.

A feasible means of abatement would be for the employer to follow the requirements of American National Standards Institute (ANSI) MH16.1-2008.

Proposed Penalty \$15,211.00

7. Walmart Inc. dba Walmart #4356 – Inspection 1741893

Nevada Revised Statute 618.375(1): Duties of employers. Every employer shall furnish employment and a place of employment which are free from recognized hazards that are causing or are likely to cause death or serious physical harm to his or her employees.

The employer did not furnish employment and a place of employment free from recognized hazards that are causing or likely to cause death or serious physical harm to his or her employees. In the warehouse, employees utilized a walkie stacker to load and unload pallets onto the storage racks. There were 2 storage racks with 3 columns each that were not anchored to the floor. Employees were potentially exposed to serious crush-by injuries in the event of inadvertent contact between the walkie stacker and the storage racks.

Reference: ANSI MH16.1: 2012 Specification for the Design, Testing and Utilization of Industrial Steel Storage Racks.

Section 1.4.7 Column Base Plates and Anchors

The bottom of all columns shall be furnished with column base plates, as specified in Section 7.1. All rack columns shall be anchored to the floor with anchor bolts, which shall be designed in accordance with Section 7.3, to resist all applicable forces as described in Section 2.1 or Section 2.2.

A feasible means of abatement is to follow the requirements of Ansi MH16.1-2012.

Proposed Penalty \$7,835.00

8. Mario's Westside Market – Inspection 1742621

Nevada Revised Statute 618.375(1): Duties of employers. Every employer shall furnish employment and a place of employment which are free from recognized hazards that are causing or are likely to cause death or serious physical harm to his or her employees.

The employer did not ensure employees were furnished with employment and a place of employment free from recognized hazards that are causing or likely to cause death or serious physical harm to his or her employees. In the warehouse, employees utilized a Yale high lift straddle (model: msw040sfn24tv087 Serial number: B895N08625V) to load and unload pallets of returns claims on the top of the storage rack. The storage rack had columns that had not been anchored to the floor. Employees were potentially exposed to serious crush-by injuries in the event of inadvertent contact between the high lift straddle and the storage rack.

Reference: ANSI MH16.1: 2012 Specification for the Design, Testing and Utilization of Industrial Steel Storage Racks.

Section 1.4.7 Column Base Plates and Anchors.

The bottom of all columns shall be furnished with column base plates, as specified in Section 7.1. All rack columns shall be anchored to the floor with the anchor bolts, which shall be designed in accordance with Section 7.3, to resist all applicable forces as described in Section 2.1 and Section 2.2.

A feasible means of abatement is to follow the requirements of ANSI MH16.1-2012.

Proposed Penalty \$5,485.00

9. Wang Globalnet – Inspection 1753612

Nevada Revised Statute 618.375(1): Every employer shall furnish employment and a place of employment which are free from recognized hazards that are causing or are likely to cause death or serious physical harm to his or her employees.

The employer did not ensure that employees were protected from recognized hazards that are likely to cause serious physical harm. In the warehouse, the employer utilized metal storage racks with 4-bolt pattern anchor plates to store food products. The pallets and boxes of products are picked or put away onto the shelves with a Toyota electric forklift (model: 7FBCU15) by warehouse employees. The three rows of storage racks' anchor plates were not secured to the concrete floor by any means and were at risk of being tipped over or collapsing after being struck by the Toyota electric forklift. Employees performing stocking and inventory duties were potentially exposed to recognized struck by and crush-by injuries in the event of the storage racks tipping or collapsing.

Reference: Section 1.4.7 of ANSI MH16.1: 2012 Specification for the Design, Testing, and Utilization of Industrial Steel Storage Racks.

Section 1.4.7 Column Base Plates and Anchors

The bottom of all columns shall be furnished with column base plates, as specified in Section 7.1. All rack columns shall be anchored to the floor with anchor bolts, which shall be designed in accordance with Section 7.3, to resist all applicable forces as described in Section 2.1 or Section 2.2.

A feasible means of abatement would be for the employer to follow the requirements of American National Standards Institute (ANSI) MH16.1-2012.

Proposed Penalty \$4,702.00

Advisory Council

NRS 618.347 – Report Concerning Issuance of NRS 618.375(1), NRS 618.375(2)

General Duty Citations by the Division

2nd Quarter FY25: October – December 2024

1. Blackhawk Molding Company Inc. - Inspection 1776204

Nevada Revised Statutes 618.375(1): Duties of employers. Every employer shall furnish employment and a place of employment which are free from recognized hazards that are causing or are likely to cause death or serious physical harm to his or her employees.

The employer did not furnish a place of employment which are free from recognized hazards that are causing or are likely to cause death or serious physical harm to employees in two instances:

- a. Located in the warehouse along the south interior perimeter wall, column post "D" of the racking system was observed damaged and in service with wooden pallets of cardboard material placed on the top of the rack at heights of up to 62 inches and weighing up to 1,500 pounds exposing employees to the recognized hazard of being struck-by or crushed-by should there be a catastrophic failure of the racking system.
- b. Located in the south warehouse, two rows of racking systems (Sections 67, 71, D, 17, 21, 41, 45, 73 and 77) were observed in service free standing without any means of anchoring systems for the columns. The racking was stocked with materials weighing up to 1,500 to 1,227 pounds exposing employees to the recognized hazard of being struck-by or crushed-by should there be a catastrophic failure of the racking system due to notwithstanding the applicable forces.

Reference:

Instance a. ANSI MH16.1 2012 Specification for the design, testing and utilization of industrial steel storage racks. Section: 1.4.9 Rack Damage.

Instance b. ANSI MH16.1 2012 Specification for the design, testing and utilization of industrial steel storage racks. Section 1.4.7 Column Base Plates and Anchors

Abatement Note: Among other methods, a feasible means of abatement would be to remove stored items from the damaged racking system until the racking system is repaired or replaced and anchored to the floor.

Proposed Penalty \$3,918.00

2. Smith's Food and Drug Centers, Inc. dba Smith's Food & Drug #341 – Inspection 1756003

Nevada Revised Statute 618.375(1): Duties of employers. Every employer shall furnish employment and a place of employment which are free from recognized hazards that are causing or are likely to cause death or serious physical harm to his or her employees.

The employer failed to furnish employment and a place of employment free from recognized hazards that are causing or are likely to cause death or serious physical harm to his or her employees. Employees were exposed to a recognized serious fall hazard. The Grocery Lead Manager stood directly on the forks of the Hyster Model W40ZA Straddle Stacker, while the Non-Foods Manager lifted him up to a height of approximately 6 feet, 10 inches so he could reach boxes of candy that were on a pallet on the top rack of pallet racking. The employee on the forks was exposed to possible serious injuries in the event of a fall.

Reference: Section ANSI B56.1 - 1983 Safety Standard for Low Lift and High Lift Trucks; Incorporated by reference.

4.17.1 Whenever a truck is used to elevate personnel, the following precautions shall be taken for the protection of the personnel being elevated:

(a) a platform meeting the requirements of 7.34 shall be secured to the lifting carriage or forks

(b) restraining means such as rails, chains, etc., shall be in place, or a body belt with lanyard or deceleration device shall be worn by the person(s) on the platform. The body belt shall be designed to snugly and comfortably fit all personnel using the platform

(c) any deceleration device which has sustained permanent deformation shall be replaced

A feasible means of abatement would be for the employer to follow the requirements of American National Standards Institute (ANSI) B56.1 - 1983.

Proposed Penalty \$12,676.00

3. Production Pattern & Foundry Inc. – Inspection 1750850

NRS 618.375(2) Duties of employers. Every employer shall furnish and use such safety devices and safeguards, and adopt and use such practices, means, methods, operations and processes as are reasonably adequate to render such employment and places of employment safe and comply with all orders issued by the Division.

a. In the pattern shop the gloves of the blasting cabinets were torn and damaged.

Proposed Penalty \$0

Advisory Council

Inquiries Related to Forklift and Trenching and Excavation Inspections

1st Quarter FY25: July – September 2024

1. Smith's Food and Drug – Inspection 1746422

Hazard Description 4 - Located in the warehouse near the cardboard baler, a yellow & black electric hand-held forklift is not in a safe operating condition. The forklift continues to move forward without operator input and after the employee places the forklift controls in the stop position. The emergency stop button does not function, and the key must be turned to the off position to stop the forklift from moving. Employees are exposed to crushing and struck-by hazards.

Invalid at the time of the inspection - An observation of the hand-held forklift in use did not reveal any unsafe operating conditions to employees that use the equipment. No unsafe operation of the Hyster Powered Industrial Truck was observed at the time of the inspection.

Hazard Description 5 - Located in the warehouse, the employer allowed untrained and unauthorized employees to use a yellow & black electric hand-held forklift.

Invalid at the time of inspection - Employees are provided with computer-based and hands on training for the electric hand-held forklifts. Untrained and unauthorized employees would face disciplinary action by Store Management if they operated the lift without training. Smith's provided documentation of operator training and evaluation for the hand-held forklift.

2. Greenworks North America, LLC – Inspection 1757490

Hazard Description 1 – Employees are riding on forklifts.

Invalid at the time of the inspection - The Operations Warehouse Manager stated that she received a report of an employee riding as an unauthorized passenger on a forklift. The violations were quickly addressed, which resulted in the reprimand of the employee on the warehouse floor at the time of the incident.

Hazard Description 2 – Forklift operators are driving unsafely and speeding throughout the facility.

Invalid at the time of the inspection - The Receiving Supervisor and Operations Warehouse Manager stated that the forklifts do have the ability to go faster than needed, up to twelve miles per hour; however, they have not observed or received reports of employees using the equipment in a manner that is considered unsafe or in a way that puts the driver or someone in danger. During the inspection, all

forklift operators utilized the equipment in a manner that was consistent with forklift safe practices; low speeds, seat belts used, and forks lowered to the floor when parked.

Hazard Description 3 – Forklift seatbelts are fastened behind the seat and the operators are not wearing them.

Invalid at the time of the inspection - The Operations Warehouse Manager stated that she had observed the forklift operators wear seatbelts. During the inspection, employees were observed using the operator restraint systems that were provided on the powered industrial trucks.

3. Spanish Springs Construction – Inspection 1738580

Hazard Description 1 – Employees are in an 8-foot trench without adequate protection.

Valid at the time of the inspection – It was determined that three employees worked inside an excavation approximately 7.5 feet deep. The soil was classified as Type C, and there were no means of cave-in protection used.

The employer was issued a Repeat-Serious citation with a proposed penalty of \$16,134.00.

4. Staci Americas, LLC – Inspection 1742863

Hazard Description 2 – Located in the warehouse, forklift operators operate PITs in an unsafe manner. Employees drive extremely fast and do not use the horn while going around corners.

Valid at the time of the inspection – It was determined that four employees were not trained or evaluated by the employer to demonstrate they were competent to operate powered industrial trucks safely prior to being assigned as a forklift and/or order picker operator.

The employer was issued a Serious citation with a proposed penalty of \$3,687.00.

5. Sierra Nevada Excavation LLC – Inspection 1744813

Hazard Description 1 – Located at 1245 Fremont St. Fernley, NV., there is an open trench with no shoring provided to workers. The trench is approximately 7 feet by 10 feet, and approximately 12 feet deep.

Valid at the time of the inspection – It was determined that three employees were working in a trench approximately 7 feet in depth, in class C soil. Employees inside the excavation were not protected from cave-ins by any type of protection system.

The employer was issued a Willful-Serious citation with a proposed penalty of \$64,524.00.

There were four employees identified to have not received the instruction necessary to recognize and avoid unsafe conditions and the regulations applicable to their work environment.

The employer was issued a Serious citation with a proposed penalty of \$6,452.00.

Three employees were working in a trench approximately 7 feet in depth, in class C soil; and exposed to hazardous conditions such as vibration from traffic, undermining of the asphalt, and cracking of the horizontal sidewall.

The employer was issued a Serious citation with a proposed penalty of \$6,452.00.

6. Panasonic Energy of North America – UPA 2159573

Hazard Description 1 – PIT accidents and near misses are occurring nightly in the shipping and receiving area and are not being reported to management.

Employer provided response to hazard description, which was deemed satisfactory by Nevada OSHA.

In response, the employer indicated that night shift employees are comfortable reporting near misses and concerns to management. Additionally, the EHS Department performed an internal data review for the shipping and receiving area and found multiple entries for reported near misses and other incidents occurring on night shifts.

7. Blue Compass RV Reno – UPA 2171465

Hazard Description 1 – A forklift is not in safe operating condition and is being used at the site. The forklift has conditions such as broken safety lights and loose steering that adversely affected the safety of the vehicle, exposing employees to struck-by hazards.

Employer provided response to hazard description, which was deemed satisfactory by Nevada OSHA.

In response, the employer indicated that it owns a single forklift, which is repaired and serviced regularly. Any defect or problem detected by Blue Compass is immediately repaired.

The employer provided receipts which shows evidence of payment for repairs and service since March 2024. Upon receiving Nevada OSHA's Notice of Alleged hazards, the forklift was checked, and it did not have any sign of loose steering. As for a broken light, the unit is only used outside in broad daylight. A third-party technician informed us that, because the forklift is never used at night or in a dimly lit indoor area, the broken light did not need to be replaced.

8. Daikin Applied Americas – Reno Parts Warehouse – Inspection 1757204

Hazard Description 1 – Employee was operating a stand-up forklift and thought he was going to hit the storage racking, so he jumped off. The forklift ran over his left foot, resulting in injuries including a possible amputation.

No violation(s) observed - An employee was operating a Raymond Stand-Up Counterbalanced Lift Truck. The employee stated that while he was reversing, he experienced a sudden jerk, which caused him to lose balance, and his left foot was caught underneath the wheel of the forklift. The injured employee also stated that, when he lost his balance, his left foot was caught under the forklift while his right foot was still on the dead man's switch which prevented the lift truck to stop. The employee's left leg was amputated as a result.

The manufacturer of the equipment performed a post-accident safety inspection report, and determined there were no mechanical and/or safety issues with the forklift.

The stand-up lift was equipped with an operator's compartment sensor, and that, if triggered, the forklift would decelerate to 1 mph and eventually stop. Raymond confirmed that the sensor was in operable condition.

9. Blue Compass RV – UPA 2179451

Hazard Description 3 – The employer is allowing employees to operate forklifts without the benefit of being trained.

Employer provided response to hazard description, which was deemed satisfactory by Nevada OSHA.

In response, the employer indicated that they have confirmed all employees whose duties include operating the single forklift in the facility have been trained and certified.

10. OneSCS LLC dba OneSCS – Inspection 1741258

Hazard Description 3 – On April 8, 2024. Between 11:30 am and 1:00 pm, two employees were directed by a supervisor in the main warehouse to get on the forks of a forklift with a pallet in place to down stack (bring down) a pallet that had fallen over on to a stack of pallets in an adjacent stack. Two employees were lifted to an approximate height of 6-8 feet while standing on a pallet located on the forks of the forklift. One of the two employees lifted slipped while at an approximate height of 6-8 feet. The second employee grabbed the employee that was slipping by the arm and prevented the fall to the lower level. As a result, the employee that slipped suffered injuries that resulted in an injury to back and right knee.

Invalid at the time of inspection – Both HR Manager/Safety Coordinator and Production Manager stated that the company does have a work rule in place for the safe operation of any powered industrial trucks (PITs) and that neither of them saw the work rule being violated during the timeframe referenced in the video. The company does have a progressive disciplinary program and neither of the employees had been disciplined for violating any work rule with the company PITs and both employees had been trained and evaluated on the PITs when they first got to the company.

CSHO reviewed the video for the alleged hazard and watched both employees getting on and off their forklifts several times during the timeframe but never saw any alleged hazards or either employee violating any company work rule with the PITs. No discrepancies were noted.

Additionally, training records and exams for forklift operations were requested and reviewed for the two employees, no deficiencies were noted.

11. Xtreme Manufacturing, LLC – UPA 2156085

Hazard Description – The employer manufactures forklifts, scissor lifts, and telehandlers. The painters must operate the equipment to move it to the painting area, but the employees are not trained on how to operate the equipment.

Employer provided response to hazard description, which was deemed satisfactory by Nevada OSHA.

In response, the employer indicated that painters are not required to operate equipment such as telehandlers and scissor lifts; but in rare circumstances, may have utilized forklifts for the transportation of parts related to those machines, when approved by a supervisor that is forklift certified. The employer indicated that stringent measure will be implemented to prohibit untrained employees from operating forklifts or any equipment that they have not been trained on.

12. Senergy Petroleum – Inspection 1745020

Hazard Description – Forklift drivers are operating power industrial trucks without certification or training.

Valid at the time of the inspection - The employer failed to perform an evaluation of each operator's performance at Senergy Petroleum every three years. Employees use forklifts daily to perform routine work and stated that they had been provided training at the start of employment. However, no documentation was provided by the employer that confirmed that employees had been evaluated after receiving initial training.

The employer was issued an Other-than-Serious citation with a proposed penalty of \$518.00.

13. INW Living Ecology Opco, LLC – UPA 2162885

Hazard Description – Forklifts are operated within the facility and there are no pedestrian walkways within the work areas. Forklift operators are speeding around corners and are not utilizing horns or mirrors.

Employer provided response to hazard description, which was deemed satisfactory by Nevada OSHA.

In response, the employer indicated that pedestrian walkways do exist and are identified. Pathways are dedicated (identified) in some high traffic areas. Certain areas are pedestrian exclusive and do not allow forklifts. Forklift operators are licensed, do not speed beyond the posted speed limit and have been observed to practice appropriate caution including slowing down, stopping, ensuring that any shared pathways are either cleared or appropriate distances are maintained from and by personnel. The workplace also has an established pedestrian and forklift traffic pathway. Materials such as safety tapes, striping paints as well as appropriate signage have

been applied. Additional signage will be applied in the facility between May 28th and May 31st as part of ongoing improvements to the facility.

14. Empire Logistics – UPA 2169136

Hazard Description 1 – Supervisor Falling Asleep While in Motion Driving a Power Industrial Truck (PIT) with Material on the Forks.

Employer provided response to hazard description, which was deemed satisfactory by Nevada OSHA.

In response, the employer indicated that they identified one complaint regarding alleged hazard. Records showed that an employee filed a complaint regarding a warehouse supervisor having trouble staying awake while on the forklift. The supervisor was issued a written warning for the safety issue. Evidence of the warning was provided to Nevada OSHA as part of the employer's response.

15. VM Innovations, Inc. – UPA 2177044

Hazard Description 1 – Forklift operators are operating machines while under the influence of alcohol, marijuana, and other illegal substances.

Employer provided response to hazard description, which was deemed satisfactory by Nevada OSHA.

In response, the employer indicated that all allegations of unfit for work are handled seriously. Two managers are required to observe and question any employee concerned to be inebriated, if both managers agree the associate should be removed from the warehouse floor and testing should be conducted, HR and Safety will then see that the employee completes a drug and alcohol screening at a nearby Concentra Clinics. During the hiring and onboarding process all associates are trained and encouraged to report any suspicious behavior to their leadership immediately.

Hazard Description 3 – Employees are not provided safety trainings before being put to work on the warehouse floor or on machines.

Employer provided response to hazard description, which was deemed satisfactory by Nevada OSHA.

In response, the employer indicated that they have a dedicated onboarding process for all new associates which includes classroom style training, online learning course completion, and 'Safety School' which is hands-on learning for PIT operation. All associates must pass training tests prior to being released to the warehouse floor and certified on warehouse processes, which includes training specific to all PIT operations. Team member training standards are monitored for the network to ensure all associates complete their required training before working alone (without a trainer) in a process path or using standard tools (i.e. PIT, pallet jack, conveyance, etc).

Hazard Description 5 – Safety checks are not being completed on forklifts before use.

Employer provided response to hazard description, which was deemed satisfactory by Nevada OSHA.

In response, the employer indicated that A "PIT Checklist" is required to be completed online before operating any PIT. PIT operators are trained and aware of the requirement to inspect, report, and remove a PIT from use if found to fail the inspection. The electronic data from the checklists is monitored to address any equipment flaws that are reported.

Hazard Description 7 – Two forklift operators collided but were not subject to retraining or drug test.

Employer provided response to hazard description, which was deemed satisfactory by Nevada OSHA.

In response, the employer indicated that their records show there was a PIT-on-PIT incident which was appropriately addressed. Both drivers from this incident were pulled from PIT operation and subject to investigation, retraining, and would have been drug tested if circumstances indicated that was appropriate in line with drug screen policies. Team members were reminded of their training to stop and honk at all intersections, always look both ways before crossing intersections, and to never try to overtake another piece of PIT working in your area.

16. Byrd Underground, LLC – Inspection 1739256

Hazard Description – An excavation jobsite was observed at West Sahara Avenue and Rancho Drive, and it is unknown if the employer is utilizing a compliant method of cave-in protection.

Valid at the time of the inspection, however, Nevada OSHA was unable to establish that employee exposure to a hazard.

Five employees were observed performing work inside a vertical wall trench ranging from approximately 3 to 6 feet in depth. The method of protection in place was a combination of shielding and shoring.

It was determined that the installation of a single shoring system was not in compliance with the tab data. However, employee and management interviews revealed that when employees also utilized double cylinder shoring was utilized and installed in accordance with the tab data. The CSHO observed multiple double cylinder shoring that were stored adjacent to the trench. Interviews further revealed that the double cylinder shoring had been removed the morning of the NVOSHA inspection and replaced with the single cylinder shoring to allow a remote-controlled trench compactor to compact the ground to grade. Moreover, interviews established that the single cylinder shoring were installed to protect the equipment from potential cave-in due to the vibration from heavy traffic.

17. Monument Construction – UPA 2156035

Hazard Description – On 4/25/2024 at approximately 10:00am, at the construction site located at 1800 West Charleston Blvd, Las Vegas Nv, an employee was adjusting a load on a forklift when the equipment fell onto the employee. The employee was rescued by the UMC staff, admitted ad had surgery. The employee sustained head lacerations, left femur broken, and left arm broken in three spots. Employee is conscious and awaiting additional surgery.

Employer provided response to hazard description, which was deemed satisfactory by Nevada OSHA.

In response, the employer indicated that the load was not on or near the forklift. The forklift was still outside of the building. The load rolled over approximately 10' inside the building. All Monument employees are OSHA trained and at no time should they adjust a load on a piece of equipment.

Although the load was not on a Forklift, the team was moving a large piece of equipment over uneven floors. To maintain the balance the equipment rollers needed to be repositioned. A supervisor instructed the team to stop moving the device, to get more safety controls. The equipment was lowered due to the unbalanced support it rolled over and the employee's position to the equipment left him to be trapped by that motion.

Considering the type of work, it may have been better for this employee to have not been involved. Our employee was assigned to cleaning adjacent areas to make the jobsite hazard free. Due to the size of the equipment being moved, our subcontractor asked for additional laborers to increase the force used to move the load. Monument loaned, the injured employee and the employee that was preparing to drive the forklift towards the load. The employee is OSHA trained, and there was a supervisor who was qualified and moves large pieces of equipment on a daily basis. Operating error when trying to regain an observed loss of balance caused the fall. Unsafe position of operation led to the employee being struck by and caught between the equipment.

18. Pacific Utility Installation, Inc. – UPA 2157898

Hazard Description 1 – On 5/2/2024, an employee operated a forklift while under the influence and hit a glass door, garage roll-up door, and part of the building structure. The employee did not report any injury and no other employees were injured.

Employer provided response to hazard description, which was deemed satisfactory by Nevada OSHA.

In response, the employer indicated that On May 2, 2024, an employee of Pacific Installation, Inc. showed up to the office on his own accord. Sometime just before his scheduled start time of 6:30 am two other employees arrived and noticed a trailer back into the shop front glass door. Then observed the employee walking seemingly impaired and as they spoke to him, they heard that his speech was seemingly slurred, they then noticed the back roll up door in the warehouse was damaged as well. Both employees contacted their supervisor, who told them to call the police. It was determined that the employee came into the office earlier than scheduled and operated equipment he was not authorized to use, which cause damage to company property while allegedly under the influence of alcohol as determined by LVMPD. By the conclusion of LVMPD, the employee was taken away for disturbance and DUI. Based on the incident, Pacific Utility Installation, Inc. terminated the employee.

19. Lang Construction LLC – UPA 2161343

Hazard Description 2 – Employees are intoxicated while operating forklifts and excavators.

Employer provided response to hazard description, which was deemed satisfactory by Nevada OSHA.

In response, the employer provided Nevada OSHA with their policies that prohibit the use of illegal drugs and/or alcohol.

Hazard Description 6 – Employees operate forklifts and excavators without any training.

Employer provided response to hazard description, which was deemed satisfactory by Nevada OSHA.

In response, the employer indicated that are not in possession of forklifts or excavators within their fleet.

20. RWC Distribution Center – Las Vegas – UPA 2166068

Hazard Description – The employees operate forklifts while under the influence.

Employer provided response to hazard description, which was deemed satisfactory by Nevada OSHA.

In response, the employer indicated that they were unaware of any incidents in which employees have operated forklifts while under the influence. RWC's Employee Handbook addresses this issue and is received and acknowledged by all employees at the time of hiring. Any such conduct would be a clear violation of company policy. In addition, company policy has been reviewed with all employees, managers have undergone additional third-party training on how to identify if someone is under the influence, and employees were encouraged to bring any suspicious conduct to management's attention.

21. Urban Jungle Contractors LTD – UPA 2166073

Hazard Description – Two employee were observed working inside a trench more than 5-feet deep without cave-in protection.

Invalid at the time of inspection - During the inspection, the CSHO observed a trench that had been measured approximately 4.5 feet in depth and approximately 20 feet in length and 5 feet in width where employees were found to be in. Employees at that time had been back filling the trench.

Employees were interviewed and stated, employees had been at the location to install conduits for the transformer. Employees also stated they had installed a new transformer at the location. During the installation process, employees had to dig approximately 4.9 feet deep to install the conduits. Employees stated they had been working on the project for approximately 3 days and their supervisor had been present during the construction to give them instructions on how deep the scope of work and the dimensions of the excavation. Moreover, employees stated were aware of the hazards of cave-in protection and did an optional benching method on what they considered either type B or type C soil.

Management was interviewed and stated, employees had been at the location to install a new transformer and conduit. Management also stated during the process of excavating the trench, they had been there to inform the employees to the depth and area in which they

should dig. Management had been the competent person on site directing the work and the scope of the work of the employees. Management interviews also indicate that employees were given training on prior to starting work.

22. Ebay, Inc. – Inspection 1755997

Hazard Description 1 – Employees are operating forklifts without being certified.

Invalid - At the time of inspection, all forklift operators were certified and fully trained.

Hazard Description 2 – Forklift operators are moving material over where people are walking.

Invalid - At the time of inspection, forklift operators were only moving in areas within barriers where no other employees were moving. All employee walkways were clearly marked. Forklift operators were thoroughly trained to avoid any areas where employees walked. Forklift operators also sounded the horn when turning any corners in addition to the forklift warning as the forklift was driven in reverse. Based on employee interviews the safety procedures for being in the vicinity of moving forklifts have been thoroughly reviewed, regularly reinforced, and are followed by both forklift drivers as well as employees walking in the area.

23. NDX, LLC – Inspection

Hazard Description – Employees are working in an approximately 12 feet deep excavation. It is unknown if the cave in protection is compliant.

Valid - At the time of inspection, the employer did not ensure that the slopes and configuration of a benching system was selected and constructed by the employer in accordance with the requirements of paragraph (b)(1); or, in the alternative, paragraph (b)(2); or, in the alternative, paragraph (b)(3); or, in the alternative, paragraph (b)(4).

Employees entered, walked in, and operated excavating equipment in an excavation ranging between 12 to 17 feet in depth. CSHO observation, interviews, site geotechnical report findings, and the past presence of water in the excavation indicated the soil was either type B or C. The intended method of cave in protection selected and used by the employer was a benching system. The various benches on the south side of the excavation resulted in an approximate measured slope of 7/12 to 1 (59 degrees), the north side had an approximately 13 feet deep near-vertical wall, and the east and west side benching was reportedly dug to a slope of 2 to 1 (63 degrees). All sides would be steeper than 1 to 1 (45 degrees) allowed in type B soil, and a benching system would not be permitted in type C soil.

The employer was issued a Serious citation with a proposed penalty of \$3,687.00.

24. Home Depot – UPA 2171445

Hazard Description – An employee was hit by a forklift during the week of May 20th, during the evening shift, and was rushed to the hospital. The employee was held at the hospital for two days.

Employer provided response to hazard description, which was deemed satisfactory by Nevada OSHA.

In response, the employer indicated that they were unaware of any incident occurring on May 20th and the store has not had any lift equipment incidents or injuries to any employee requiring hospitalization this year. In fact, the store has not had a recordable injury this year. See attached 2024 OSHA 300 Log.
