Division of Industrial Relations Advisory Council
Meeting Minutes: October 29th, 2025

Item 4

1. Call to Order:

At 11:10 a.m. on October 29th, 2025, the meeting of the Advisory Council for the Division of Industrial Relations (DIR) was called to order by Chairman Paul McKenzie. Roll Call was taken by Heather Wilson.

Las Vegas Office: Maureen Ostby

Carson City Office: Robert Benner and Paul McKenzie.

Virtual: Susan Martinez, Ian Langtry, and Jeff Seavey.

It was determined a quorum was present.

DIR staff who attended the meeting are as follows:

Las Vegas Office: Victoria Carreon, Todd Schultz, Kym Heckman, Jodi McCollins, and Michael Rodrigues.

Carson City Office: Jodie Tonkin and Rodney Neils.

Virtual: Michael Detmer, Sherry Bixler, Amber Williams, and Heather Wilson.

2. Public Comment on Items to Which Action May be Taken

No items for public comment were raised.

3. Introduction of Kym Heckman

Administrator Carreon introduced the new Chief Administrative Officer of Nevada OSHA.

4. Approval of Meeting Minutes of Previous Meeting – May 23rd, 2025.

Motion to approve minutes called by Robert Benner and was seconded by Susan Martinez. The motion was approved unanimously.

5. Division of Industrial Relations Activity Update

a. Administrator's Update – Victoria Carreon

Administrator Carreon started the meeting by reviewing the outlines for FY 2025 Accomplishments that included improved safety outcomes and streamlining of internal operations. Administrator Carreon went on to review FY 2026 Goals which reviewed the hiring and training of 18 new positions that were approved by the 2025 Legislature. These positions will serve in roles under assessments, CARDS support, Workers' Compensation Employer Compliance, OSHA Industrial Hygienist team, and Elevator/Boiler compliance.

b. Deputy Administrator's Update – Jodie Tonkin

Deputy Administrator Tonkin followed with FY 2025 Accomplishments that included enhanced internal communications, strengthened legislative engagement, and maintaining

Division of Industrial Relations Advisory Council
Meeting Minutes: October 29th, 2025

Item 4

operational performance while navigating leadership transitions. FY 2026 Goals outlined in her presentation were IT cyber-attack recovery, culture initiative & leadership development, support legislative priorities, and monitor Bill implementation.

c. Mechanical Compliance Section-MCS – Sherry Bixler

Chief Administrative Officer, Sherry Bixler, reported on MCS FY 2025 Accomplishments that included the implementation of E-Bill Express for electronic payment options, and outreach meetings with elevator companies/elevator inspection agencies/boiler inspection agencies/number management organizations. The total number of new objects was 3,252 (813 conveyance objects and 2,438 BPV objects) and the total number of objects in operation as of 07/01/2025 was 40,550. CAO Bixler continued with FY 2026 Goals which stated to continue with quarterly elevator and boiler outreach meetings, fill the legislatively approved positions and the research to find a new database to reduce the amount of manual processes.

d. Mine Safety and Training Section- MSATS – Rodney Neils

Chief Administrative Officer, Rodney Neils, reviewed FY 2025 Accomplishments that reviewed 505 health and safety inspections, provided over 744 hours of classroom instruction, filled their Elko Safety Specialist position, and participated in annual Surface Safety Olympiad and Underground Olympiad events. The FY 2026 Goals for MSATS were to fill/train current vacant positions, complete one full inspection of all active mine sites, and reduce workplace injuries/illnesses/fatalities.

e. Occupational Safety and Health Administration-OSHA – Kym Heckman

Chief Administrative Officer, Kym Heckman, reviewed FY 2025 Accomplishments that included the completion of 1,111 workplace inspections, the removal of 50,838 workers from hazards, and the implementation of new heat illness regulation. CAO Heckman continued with FY 2026 Goals that include to fill/train the new legislative approved positions, implement enhanced training program for new inspectors, develop new database for licensing functions, the purchase and deployment of new equipment (ReMarkable Tablets and drones) and the implementation of management tools and standard operating procedures to improve casefile quality and timeliness.

f. Safety Consultation and Training Section-SCATS – Todd Schultz

Chief Administrative Officer, Todd Schultz review FY 2025 Accomplishments for SCATS were identified a total of 770 Safety and Health Consultation visits which identified over 4,014 serious hazards, safety and health training that totaled 1,110 hours with 5,990 participants, and the SCATS social media now has 282 Facebook followers and 682 LinkedIn followers. The FY 2026 Goals aim to promote/increase the number of SHARP and/or VPP facilities, purchase and deploy new equipment (Laser Measurement tools and Noise Dosimeters), develop training program for SB260 regarding Wildfire Smoke, and increase cross training amongst staff.

Division of Industrial Relations Advisory Council
Meeting Minutes: October 29th, 2025

Item 4

- g. Workers' Compensation Sections-WCS – Jodi McCollins
Chief Administrative Office, Jodi McCollins, presented FY2025 Accomplishments that included the increased Enforcement Unit activity coordinated through group sweep efforts that results in over 61% of known non-compliant employers brought into compliance, improved communication services to public by provided forms in English, Spanish and Tagalog along with the issuance of the PockeTalk devices, and the CARDS Enhancements going live on 06.02.2025 providing functionality to WCS stakeholders. FY 2026 Goals include recovery from cyber-attack, eliminate backlogs/reallocate resources/increase staff cross training, and fill/train the new positions approved by the legislative session.
- 6. Regulations and Legislation Update – Amber Williams**
- a. 2025 Legislation Affecting the Division of Industrial Relations
 - i. SB258 – Revision to subrogation formula for uninsured workers' compensation claims;
 - ii. SB260 – Occupational exposure to poor air quality from wildfire smoke;
 - iii. SB317 – Workers' Compensation omnibus bill;
 - iv. SB376 – Access to medical care for heart and lung claims
 - b. R012-25P Permanent Regulation on Brazed Plate Heat Exchangers NAC 455C.114.
 - i. Legislative Commission Meeting 10/28/2025
 - c. R110-25 Reg OSHA Reduction Factors
7. **For Discussion:** Program Coordinator, Michael Rodrigues presented the OSHA quarterly complaint reports for April – June 2025 and July – September 2025.
8. **For Discussion:** Program Coordinator, Michael Rodrigues presented the OSHA quarterly on violations for April – June 2025 and July – September 2025.
9. **For Discussion:** Agenda Items for next meeting
Seeing/Hearing none, the chairman moved to the next item.
10. **For Possible Action:** Discussion on Possible investigations or studies to be conducted.
Seeing/Hearing no input, Chairman moved to next item.
11. Public Comment:
Seeing/Hearing no comment, Chairman moved to next item.

**Division of Industrial Relations Advisory Council
Meeting Minutes: October 29th, 2025**

Item 4

12. Adjournment:

Motion to adjourn at 12:13 pm by Susie Martinez and seconded by Robert Benner.

DRAFT

State of Nevada Division of Industrial Relations

Division of Industrial Relations Advisory Council

Quarterly Meeting

March 4th, 2026

item 8

UPA Number	Establishment Name	DBA	UPA Receipt Date	Receipt Type	Valid	Do Inspection	Inspection Number	UPA Open or Closed	Severity-Subject	Hazard Desc & Location	Inspection Results/Comments
C-2355844	PCC STRUCTURALS, INC.		10/1/2025	Phone	Y	N		Closed	S-Health	In the Investments/Backup Department area where castings are made: 1. Employees work with hazardous chemicals and safety data sheets are not available. 2. Employees work with hazardous chemicals and are not provided hazard communication training. 3. There is dust accumulation on horizontal and vertical surfaces; surfaces are not kept in a clean, orderly, and sanitary condition. 4. Employees are not provided appropriate PPE while working in air that contains contaminants such as toxic substances, contaminants, and particles, exposing employees to respiratory illnesses.	Resolved through inquiry process
C-2355913	WABTEC US RAIL, INC.		10/1/2025	Phone	Y	Y	1858562	Closed	S-Safety	1. Four electrical panels located on the back wall of the warehouse are fully obstructed by pallets, creating a serious safety concern. In the event of an emergency or during routine maintenance, the lack of clear access could delay response time and exposes employees to potential tripping and falling hazards. 2. Pallets on the warehouse floor are stacked too high and placed too closely together, forcing employees to squeeze between them to manually pull orders. This condition exposes workers to struck-by and caught-in-between hazards, increasing the risk of injury.	Inspection conducted. No citations issued.
C-2355946	CEMEX CORPORATION	Cemex Construction Materials Pacific, LLC.	10/1/2025	Phone	Y	Y	1854354	Closed	S-Safety	1. At the Cemex plant at 333 Galletti Way employees work under a conveyor shoveling sand. The conveyor above is in poor repair and employees are potentially exposed to struck by hazards from overhead equipment.	Inspection conducted. No citations issued.
C-2355971	Gray Construction		10/1/2025	Phone	N			Closed		Due to vandalism of the portable restrooms, there are now bathroom monitors that are logging the names of the employees that use the bathroom. Now there is a line to use the restrooms because of the time it takes for the bathroom monitor to take the down the name of the person using the restroom.	No action. No applicable standard.
C-2356124	UNIVERSITY OF NEVADA RENO		10/1/2025	Online	Y	N		Closed	O-Safety	1. Located at the Savitt Medical Library, on the first floor of the Pennington Medical Building, employees are being harassed by a former student. Employees have expressed concerns about their safety, but their concerns have been dismissed by the employer and no effective corrective measures are in place.	Resolved through inquiry process
C-2356501	Prime Healthcare Services - Reno LLC	Saint Mary's Regional Medical Center	10/2/2025	Online	N			Closed		A respiratory therapist at this hospital place a nasogastric tube in a patient at a code blue. Multiple witnesses involved including the ER MD all confirmed they witnessed this occur. Placing a Nasogastric tube is not within hospital policy for a Respiratory Therapist nor is it in their scope of practice in Nevada. - Telemetry floor of Saint Mary's Regional Medical Center	No action. No jurisdiction. Referred to Nevada Medical Examiner's Board.
C-2356549	PCC STRUCTURALS, INC.		10/2/2025	Phone	N			Closed		1. Employee working with silicone and liquid wax had skin irritation. Due to ongoing chronic health issues making him more sensitive to the chemicals, the employee was moved to a different work station away from where chemicals were being applied but does not like his new assignment.	No action. No alleged hazard or violation of standard.
C-2356886	PIZZA HUT		10/6/2025	Online	Y	N		Closed	S-Health	1. The facility has a strong odor that smells like sewage due to a sewer backup. 2. Employees are experiencing headaches, respiratory symptoms and burning eyes.	Resolved through inquiry process

Complaint Log Detail FY2026 - 2nd Quarter October to December 2025

item 8

UPA Number	Establishment Name	DBA	UPA Receipt Date	Receipt Type	Valid	Do Inspection	Inspection Number	UPA Open or Closed	Severity-Subject	Hazard Desc & Location	Inspection Results/Comments
C-2358135	Crescendo Self Storage Management		10/10/2025	Online	Y	N		Closed	S-Safety	1. Employees do not have access to SDS for cleaning chemicals such as bleach, and lubricants in the office supply closet. 2. Employees are supplied battery-operated, handheld grinders to cut locks off storage units, the grinders are missing their guards.	Resolved through inquiry process
C-2358196	CHEWY INC.	CHEWY FULFILLMENT CENTER	10/12/2025	Online	N			Closed	O-Safety	At the jobsite, the following hazard is alleged: 1. In the outbound yard, Truck #77 previously red-tagged for repairs, was returned to service without the necessary repairs being completed. It was initially tagged on 10/10 due to a hydraulic leak that compromised the safe operation of the vehicle. Despite this, the truck was put back into service on 10/11 and then removed from service again on 10/12.	No action. No criteria warranting inspection.
C-2358341	CARSON TAHOE HOSPITAL		10/14/2025	Online	Y	N		Closed	S-Health;S-Safety	Located in the ER, Maternity Ward, and Oncology; 1. Chemotherapy waste and needles being discarded into regular trash. 2. Housekeeping mixing bleach with other chemicals. 3. Unsafe storage of IV poles and laundry hampers.	Resolved through inquiry process
C-2358715	PCC STRUCTURALS, INC.		10/15/2025	Phone	Y	N		Closed	S-Health	1. There is dust accumulation on horizontal and vertical surfaces; surfaces are not kept in a clean, orderly, and sanitary condition in the following locations: insulation area counter; scale and scale shelf; mold cart; robot area; autoclave area.	Resolved through inquiry process
C-2359128	ALERT SECURITY ASSET PROTECTION		10/16/2025	Online	N			Closed		1. An employee is threatening co-workers with physical violence. The employee carries around a big stick and threatens to hit co-workers in the head. The issue has been brought to the attention of management but they refuse to address the issue.	No action. Complainant withdrew complaint.
C-2359171	LANDER COUNTY SCHOOL DISTRICT		10/17/2025	Online	Y	N		Closed	S-Safety	Located at Battle Mountain Elementary School: 1. Employees are being physically assaulted by students. Administration has been made aware but has made no corrective actions. 2. Employees are being retaliated against for reporting incidents of assault.	Resolved through inquiry process
C-2359269	H&T BATTERY COMPONENTS		10/17/2025	Phone	Y	N		Closed	S-Safety	At the workplace, the following hazards are alleged: 1. Located at 96T, the 90 day containment area for hazardous waste: An employee that is not HAZWOPER or forklift certified was moving hazardous waste in an unsafe manor. 2. On the main floor near 96T, two employees were witnessed standing under the raised forks of a Hyster forklift, apparently investigating a hydraulic leak. One of the two employees was reaching his hands into the forklift, while standing under the raised forks, trying to find the where hydraulic fluid was leaking from.	Resolved through inquiry process

C-2377252	NORTHERN NEVADA 3PL	BEARPAW	12/8/2025	Phone	N			Closed		Employees exposed to dusty environments and are not provided respirators when requested.	No action. Not enough information to process.
C-2377261	Newtron Group		12/7/2025	Online	N	N		Closed		Located at the Google Data Center Campus, at the STY 10 work site, the employer does not allow electrical workers perform a live-dead-live test after applying lock-out/tag-out prior to assembling cable terminations at the RMU electrical equipment exposing employees to a shock hazard.	No action. Hazard no longer exists per complainant.
C-2377603	FEDERAL EXPRESS CORPORATION	FEDEX EXPRESS	12/8/2025	Online	N			Closed		We have truck chain hangers on our tractor trailers, they've been there for decades. Management says that they were installed so long ago that the modification to the trailer was not approved and they have removed them immediately. Six drivers go over Donner summit every night and DOT requires them to carry chains Nov-April (regardless of weather). So, management put 450-500# of loose chains into plastic storage totes with ratchet straps (like you'd get at Walmart locally) onto our passenger seats in the cab of the trucks. These are daycab tractors, no sleepers. Not only would this not protect a driver in an accident, when they have to chain up in a storm, there is not safe way to get them in and out of this container that is now above their head from the ground. I, myself, fractured my spine L4, in 2022 in this exact way. Documented work comp case with Sedgwick and was out of work for over 3 years. The loose chains were in a box in the cab and there is no safe way to lift the weight by standing close and using your legs. I had to reach over the seat from outside the cab, standing on the step. I felt a pop and my back was broken, EMT's had to extract me and was taken by ambulance to Renown Hospital. This is DOCUMENTED and yet, even though all affected employees have threatened to refuse to drive with these chains in the cab (as of two days ago), they were told that they would have to surrender their badge and be suspended. I have a photo of the plastic tote strapped to the seat, installed by our management without our consent. - Inside each of several semi truck cabs in the yard.	No action. No jurisdiction.
C-2377656	PANASONIC ENERGY OF NORTH AMERICA		12/5/2025	Email	Y	N		Closed	O-Safety	1. Located at the facility in the Top Cap Press, Phase 2 area, the high-speed press forging machine (Kyori Anex 150) has leaking hydraulic lines and exposes employees to the hazards of machine failure while operating. R-2361611	RATAS INVESTMENTS LLC	PARK INN by RADISSON	10/29/2025	In person	Y	Y	1856943;1858041	Closed	S-Health	1. Located at the facility, 2 housekeepers collect used needles and blood soiled linen without the benefit of being offered vaccinations and bloodborne pathogen training. 2. Located at the facility, in the room next to the front office, the employer utilizes an open-box, white translucent plastic container as a collection container for used sharps and needles exposing employees to accidental spillage/tip over which may result in needlestick injuries. 3. Located at the facility, the employer allows housekeepers to collect used needles and sharps in plastic bags. The plastic bags are with the housekeeper's cleaning cart until the end of their shift, then disposed.	Open investigation.
R-2361625	PANASONIC ENERGY OF NORTH AMERICA		10/28/2025	Online	N	N		Closed		20% or more of the workforce are illegal aliens that do not functionally speak English. They are causing so many workplace code violations and hiding it after the fact. They have caused multiple fires, fights and an unsafe work environment. All 5,000 employees on shift are exposed to risk. The company itself will have us recycle illegally sourced aluminum from third world nations and then claim it is from Japan. It is filled with defects that put every Tesla in danger of fire risk due to said aluminum. They knowingly are hiring illegal aliens in order to keep wages artificially low and so they can have them clean up the illegal activities on the first floor taking place.	No action. No jurisdiction.

C-2359804	Centennial Hills Hospital		10/6/2025	Email	N			Closed	O-Safety	1. On 08/23/25 at 3:15 pm, in IMC room 408: Patient became combative trying to get OOB began hitting kicking and spitting on hospital staff while they were trying to get her safely back to bed. 2. On 08/06/25 at 8:55 am, in MS TELE 1-3T: Patient was confused and was asking for her dog and was trying to get off the bed. Staff members explained her that she had a surgery and is in the hospital. Staff helped the patient back to the bed, then the patient swung her left, striking the staff member in the arm. 3. On 08/09/25 at 10:55 am, in MS TELE 1-3T: A patient, who is s/p hip ORIF and not stable to get up, called the nurse and said that they have a bowel movement. RN offered a bed pan, but the patient became agitated and started yelling threats and kicking with the non-restrained leg. Code Gray was activated, before the staff entered the room, the patient kicked and struck RN in the leg. 4. On 09/10/25 at 8:00 pm, in ED: Verbal threats were made by the security officer to the RN. Senior management was made aware of the situation. 5. On 08/18/25 at 11:50 am, in MS TELE II-7th floor: The patient gathered her belongings and tried to leave the hospital premises, without being discharged. RN and staff tried to talk to her when she was leaving the unit. When the elevator doors opened, two nurses came out and held the door. At that point the patient pushed one of the RNs. More staff showed up and they were able to calm the patient down and return to the room. 6. On 08/20/25 at 1:00 am, in MS TELE III - 8th floor: Pt requested for a breathing treatment, but when RT came to administer the breathing treatment, the patient became aggressive, started yelling at staff and cursing them. Later, the patient threw her oxygen mask at staff and started calling them names. Afterwards, she grabbed the RT's shirt and starting pulling it. Code grey was initiated. 7. On 08/24/25 at 2:20 am, in ICU: RN noticed that the wrist restraint was off the patient. When he and other staff members tried to put it back on the patient, patient kicked the two RNs in the abdominal region. Patient was given meds and calmed down. 8. On 08/25/25 at 5:50 am, in MS TELE III - 8th floor: Several RNs were assisting a patient with a hygiene care and linen change	No action. WPV program previously reviewed.

C-2360167	Shaw Lundquist Associates Inc.		10/21/2025	Online	Y			Closed	O-Safety	1. Employees are working on scaffolds above others without the use of toe boards, creating a struck-by hazard for workers below. 2. Steel workers are performing tasks at elevated heights without any form of fall protection. 3. Powered handheld grinders are being used without safety guards in place. 4. Employees are standing on the guardrails of scissor lifts to reach elevated areas. 5. Scissor lifts are being used as ladders, with employees climbing the fully extended lift to access the basket. 6. There are no designated tie-off points available at the site for fall protection.	Resolved through inquiry process.
C-2360425	KNR Assisted Living Services		10/17/2025	Online	N			Closed		Incident Statement Date: 10/12/25 Reported by: Klinique Spencer On October 12, 2025, I noticed that the air conditioning was still not working, causing the environment to become extremely cold for both the elderly residents and employees. This has been an ongoing issue that management has been aware of for several months. Additionally, the stove door remains broken, yet staff are still being required to use it to prepare meals for disabled clients. Employees who have previously reported these maintenance and safety concerns have been terminated, creating a fearful and unsafe work environment. - 4572 cedar island court Las Vegas nv 89146	No action. No applicable standard.
C-2360428	Costco Wholesale Corporation #685		10/22/2025	Online	Y			Closed	O-Health	1. On 10/19/2025, a freon leak occurred that caused the entire building to need to evacuate. Employees suffered headaches from the freon exposure.	Resolved through inquiry process.

C-2361319	Elara, a Hilton Grand Vacations Club		10/28/2025	Online	Y	Y	1855991	Open	S-Health	1. The employer failed to demarcate the regulated areas that had a contractor cutting quartz stone countertops that contained silica. 2. The contractor was directed to clean the site, but it was conducted without personal protective equipment, signage, and without notifying employees. 3. Employees were directed to clean the quartz stone dust generated inside the 6th floor guest rooms following renovations without personal protective equipment. The employer failed to conduct air sampling before directing employees to work in those areas. 4. The employer has not ensured that all construction on the 57th floor was notified to employees. Employees are experiencing nausea and bloody noses as a result of dust that has accumulated from renovations.	Open investigation.
C-2361368	State of Nevada, Division of Welfare		10/28/2025	Phone	Y			Closed	O-Health	1. Employees on the left side of the first floor are being exposed to a heat related hazard due to no air conditioning. Temperatures reaching 85 degrees. AN 10/28/25	Resolved through inquiry process.
C-2361375	AMC Concrete, Inc.		10/28/2025	Phone	Y			Closed	O-Health;O-Safety	1. An employee had an accident at 425 W. Warm Springs Road, Henderson, NV 89015 on 10/28/25 at 07:15 am. The employee struck his hand between an electrical cage and board causing a potential amputation to his left thumb. The employee was transported/admitted to the Henderson Hospital. AN 10/28/25	Resolved through inquiry process.
C-2361399	Castro DDS PLLC - LLC	Aspen Dental	10/24/2025	Online	Y			Closed	S-Health	1. Eye protection is not provided for employees. 2. Employees are not wearing puncture resistant shoes. 3. Cases are being taken into the lab and are not disinfected before taken to the front desk. 4. The sterile areas and instruments are unsanitary and not being disinfected for up to 2 days.	Resolved through inquiry process.
C-2361614	New York-New York, LLC	New York-New York Hotel & Casino	10/26/2025	Online	N			Closed	O-Safety	The remodel a few years ago included solid steel square handles on the furniture instead of using half moon circles to open drawers and armoires. Every employee and guest that accesses the guest rooms are exposed to this danger. Guests and staff have told me they've bumped into them, nothing serious as far as I know but I did tell the guests they should report it when they do their guest experience review. I brought it up again last month to the safety manager when I slipped and hit my back on a handle, she did say she brought it up to senior management. There is reasonable suspicion that the company increased their target on me as less than a month later my work phone sent a notification that the company has location access. In general, this only occurs when a software setting is modified/activated. There is a provable history of the company trying to terminate and target me that is still under investigation by the state and also reported to the FBI for computer fraud. - Pretty much all guest rooms	No action. No jurisdiction.

UPA Number	Establishment Name	DBA	UPA Receipt Date	Receipt Type	Valid	Do Inspection	Inspection Number	UPA Open or Closed	Severity-Subject	Hazard Desc & Location	Inspection Results/Comments
C-2361663	STORD WAREHOUSING LLC		10/29/2025	Online	N			Closed		On October 22, 2025, a temporary associate assigned to the Stord warehouse (through Staffmark) became verbally abusive and physically aggressive toward me after being confronted for time-clock violations. The associate cursed at me, laughed aggressively, and then punched a locker, requiring security to respond. Stord contracts with Securitas for onsite security. However, per their agreement, Securitas guards are not permitted to physically intervene, only to escort and report incidents. As a result, employees had no immediate protection when the associate became violent. This created an unsafe working environment and exposed staff to potential harm. After the incident, Stord requested to bring the same associate back to the facility. Indeed Flex, my direct employer, initially approved the reinstatement without conducting a full review or consulting onsite management. When I raised formal safety concerns to HR on October 23, HR later responded that there was “no evidence of violence” and took no corrective action. I continued working on October 23–24 while waiting for HR’s review, but after learning that no steps would be taken to protect staff, I resigned on October 24 out of fear for my safety. Both employers were informed in writing of the violent conduct yet failed to act, leaving employees exposed to foreseeable workplace violence and inadequate security response procedures. Employer: Indeed Flex Inc. Worksite: Stord – LAS2 Location of incident: Warehouse floor / locker area - Stord LAS2 2225 W Cheyenne Ave North Las Vegas NV 89032	No action. No alleged hazard.
C-2361733	Bottled Blonde Las Vegas		10/29/2025	Online	Y			Closed	S-Health	1. For at least the past 4 months, employees are potentially exposed to blood or OPIM and the employer does not have a written bloodborne pathogen exposure control plan. 2. The employer requires employees to clean up vomit potentially with blood or other potentially infectious materials (OPIM) in areas such as the restaurant floor, rooftop floor and restroom, and employees have not had training. 3. Employees perform daily tasks, such as utilizing chemicals and handling regulated waste contaminated with blood or OPIM. While they are provided personal protective equipment (PPE), such as gloves, it was not appropriate to the hazard(s) and the employer does not provide additional PPE, such as aprons, safety goggles, face shields, or masks. 4. While cleaning supplies are provided, the employer does provide appropriate disinfectants, which would allow contaminated work surfaces to be decontaminated after completion of procedures. 5. The employer provides biohazard bags that are too small for the clean-up tasks and are not accessible to employees. 10/29/2025 SM	Resolved through inquiry process.
C-2361860	El Jen SNF Operations LLC	El Jen Skilled Care	10/27/2025	Online	Y	Y	1858021	Closed	O-Safety	1. A workplace violence prevention plan is not effectively implemented.	Inspection conducted. 2 citations issued - \$25,536.

C-2361862	GNLV, Corp	Golden Nugget Hotel & Casino	10/30/2025	Phone	Y			Closed	O-Safety	1. At least one emergency exit located west of Charthouse restaurant in the Rush tower would remain locked during a non-fire emergency. The exit is controlled by a keyfab of which limited employees have access to, and automatically opens if the fire alarm goes off but would not be unlocked in the event of a non-fire emergency. DF 10/30/2025	Resolved through inquiry process.
C-2361938	Jean Conservation Camp		10/27/2025	Online	N			Closed		I am reporting a serious and ongoing safety hazard at Jean Conservation Camp in Jean, Nevada. There are two coyotes that appear every single night on facility grounds, especially during graveyard shifts. Officers are required to conduct counts every hour and a half, which forces us to go outside where the coyotes are active. Each time we step out, there is a real risk of being attacked or injured. This problem has been reported to management repeatedly for over a year, but no actions or safety measures (such as barriers, lighting, or animal control involvement) have been implemented. The situation creates continuous unsafe working conditions, particularly for night-shift staff.	No action. No applicable standard.
C-2362607	Eagle Drilling Services, LLC		10/30/2025	Online	Y			Closed	O-Safety	1. Crash trucks were not provided at multiple sites, exposing employees to struck-by hazards from live traffic during roadside operations.	Resolved through inquiry process.
C-2362803	MGM Resorts International	The Cosmopolitan of Las Vegas	11/3/2025	Online	Y			Closed	S-Safety	1. There is excessive brightness and glare emanating directly from Slot Machine #405 in the Table Games pit area. This causes employees to face intense, direct light for approximately one hour during their rotation, resulting in eye strain, visual fatigue, and chronic headaches.	Resolved through inquiry process.
C-2363032	Clark County School District	K.O. Knudson Academy of the Arts	11/5/2025	Phone	Y	Y	1858964	Open	O-Health	1. For the last two years, raw sewage has been backing up through the sinks in the classrooms and bathrooms. This occurred as recently as 11/5/2025. 2. An employee was recently hospitalized due to exposure to the raw sewage water. The employee was potentially ill with norovirus and Legionnaires' Disease and returned to work two weeks ago (mid to late October). 3. Maintenance has responded to multiple instances but the District has determined that the cost to replace the pipes is too expensive.	Inspection conducted. No citations issued.
C-2363067	Subway		11/5/2025	In person	Y			Closed	S-Safety	1. On October 31, 2025, an employee was utilizing a meat slicer machine to cut turkey slices. When the employee adjusted the turkey, the turkey slipped and the employee sustained lacerations to their right index finger and right thumb. 2. The employer does not provide employees with training on how to utilize the meat slicer machine.	Resolved through inquiry process.
C-2363390	Las Vegas Pain Institute and Medical Center, LLC	Las Vegas Pain Institute and Medical Center	10/29/2025	Online	N			Closed	O-Health	My urine sample was switched with another patient's. I was accused of using illicit drugs & made to take a blood test to prove my innocence & remain a patient. - Ste. 120	No action. No jurisdiction. Referred to the Bureau of Health Care Quality and Compliance (HCQC).
C-2363392	Walmart Neighborhood Market #5269		11/4/2025	Online	Y			Closed	O-Health	1. In the Deli, Bakery, and Produce departments, there is no effective vermin control in place to prevent the entry or harborage of rodents, insects, or other vermin.	Resolved through inquiry process.

C-2367324	GardaWorld - BEST Crowd Management		11/14/2025	Phone	Y			Closed	O-Health	1. At the F1 Race Construction Site on Flamingo, Koval and Harmon streets, the Porta Potties are not being maintained regularly in the evening, causing employees to get sick when using them. 11/14/25 AL	Resolved through inquiry process.
C-2368064	Foundever		11/13/2025	Phone	N			Closed	S-Health	1. Employees are experiencing headaches, migraines, and ringing in the ears resulting from the noise generated by a security alarm as people enter and exit the building. 11/13/2025 JC	Resolved through inquiry process
C-2368110	Aquarius Gaming LLC	Aquarius Casino Resort	11/17/2025	Online	Y			Closed	O-Health	1. There is a cracked sewage line which is leaking above the surveillance room near the ventilation system. Employees are smelling hydrogen sulfide in the two rooms in this area. cw 11/17/2025	Resolved through inquiry process.
C-2368537	US Ecology Nevada, Inc.		11/5/2025	Phone	Y			Closed	S-Safety	1. On May 5, 2025 at approximately 2:00 PM, three employees were unloading a truck that contained hazardous waste material, such as aerosols, lighters, and batteries, when one of the drums exploded and injured one of the employees. The employee was transported to Armagosa Health Clinic and later transported and admitted to Centennial Hills Hospital. The employee sustained bruising to their chest, a concussion, and lacerations to their forehead, left forearm, and both thumbs. 2. The employer was made aware of the hospitalization and did not notify NVOSHA.	Resolved through inquiry process.
C-2368600	Smith's Food & Drug Centers, Inc.	Smith's Food & Drug #364	11/17/2025	Online	Y			Closed	O-Safety	1. Employees are allowed to work in the parking lot without the benefit of high-visibility clothing.	Resolved through inquiry process.
C-2368623	Western Commercial Services, LLC		11/17/2025	Online	Y			Closed	S-Health	1. Employees utilizing TTTK Formula Stainless Steel Cleaner to clean kitchen hoods in various restaurants and casinos has caused employees to receive immediate burns upon contact with the skin. 2. The personal protective equipment such as gloves are not appropriate for utilizing the TTTK Formula Stainless Steel Cleaner. 3. There is no ventilation for employees who have to go in the hood ducts and clean the ducts with chemicals. 12/1/2025	Resolved through inquiry process.
C-2368646	North Vista Hospital		11/13/2025	Phone	Y			Closed	S-Health	1. In Tower 3, employees are being exposed to black mold present underneath the awnings, behind the nurse station near the sink adjacent to the cabinets, and around the sinks in the breakrooms resulting in symptoms of bronchitis, scratchy throat, running nose, memory loss, and neuromuscular problems that clear up after leaving the worksite.	Resolved through inquiry process.
C-2368647	Desert Pines Golf Club		11/17/2025	Online	Y			Closed	O-Safety	1. The restrooms in the main area have been out of order for almost a year. The remaining restrooms have water damage which has resulted in the ceiling caving in and water sitting on the floor. 3. There is sitting water in the golf cart barn employees must wade through due to non functioning drains. The standing water has a horrific smell and never drains completely because employees are required to wash the golf carts in this area. 4. Employees must drive the golf carts through sitting water near hole 2 and hole 5 on the golf course to deliver food/supplies to customers. Water on the paths can be up to 2 feet deep due to the drains being clogged. Golf carts are gas operated and often times stall in the water. 5. In the area of hole 2 and hole 5, there are large pot holes which cannot be seen when driving due to sitting water resulting in the puncturing of the golf cart tires.	Resolved through inquiry process.

C-2369232	Sphere Entertainment Co.	MSG Sphere	11/17/2025	Phone	N			Closed	S-Safety	I am a technician who has worked with the immersive show systems commonly referred to as the WOZ Monkey system flying monkey devices. I do not operate or perform maintenance work on the Tesla Fan systems used at this venue. My knowledge of the Tesla Fan issues described here comes from the internal ticket records, observing conditions in the work environment, and information shared by other personnel. Through my direct involvement with inspection, troubleshooting, and repair of the WOZ Monkey system, I have personally observed repeated electrical, mechanical, and control system failures that in my opinion present ongoing hazards to employees and to the public audience below these systems. Attached as Exhibit A is an export from the company internal ticketing and support system Immersive Support for the period from approximately July 13 2025 through November 9 2025. These tickets were created by company personnel to record defects and failures with the WOZ Monkey system and the Tesla Fan system. Of particular concern, the ticket log shows a persistent pattern of Repeated instances of melted electrical connectors and wiring on the WOZ Monkey devices, including hip motor connectors, shoulder connectors, XT60 power connectors, hover motor connectors, and other internal wiring. Examples include tickets ImTech 119, 118, 116, 114, 112, 110, 108, 107, 105, 103, 59, 57, 46, 43, 35, 34, and 31, which include terms such as melted connector, melted wires, burnt connector, and Safety Concern with high priority. Critical propulsion and control failures while these devices operate over the audience. Examples include tickets ImTech 113 monkey not receiving input with critical priority, 106 aircraft rolls right during flight with high priority, 104 no climbing performance with high priority, 62 monkey 9 hover motor failure with critical priority, 61 monkey 3 right hip motor failure with critical priority, 60 monkey flight controller not responding with high priority, 71 no telemetry to the transmitter with high priority, and 48 during takeoff monkey lost forward thrust identified as a Safety Concern with high priority. Numerous documented leaks and structural failures of the inflatable	Inspection conducted. No citations issued.

C-2369307	Albertsons	Albertson's #129	11/18/2025	Phone	Y			Closed	O-Health	1. For approximately 6 months the elevator has had a putrid odor following a significant water leak. There is concern that the smell has been caused by mold growth due to the water intrusion. 2. The employer has tried to mitigate the smell in the elevator by putting scented urinal screens in the area which are off gassing glutaraldehyde and other hazardous chemicals.	Resolved through inquiry process.
C-2369417	Genesis New Beginnings Behavioral Health		11/18/2025	Online	Y			Closed	O-Health	1. In the clinic employees, are not provided personal protective equipment. 2. A workplace violence program is not implemented in the clinic. 3. Injuries are not logged in the OSHA 300 illness and injury logs.	Resolved through inquiry process.
C-2369584	A Step Above Inc.		11/18/2025	Phone	Y			Closed	S-Safety	1. All of the facility's fire extinguishers have not been inspected. 2. A fire extinguisher exploded in a truck while an employee was inside, exposing the employee to potentially hazardous chemicals and gasses. 3. An employee had to vacuum the spilled contents of the fire extinguisher.	Resolved through inquiry process.
C-2369661	InCorp Services, Inc		11/18/2025	Phone	Y			Closed	S-Safety	1. On 11/18/2025 multiple leaks started throughout the office, potentially exposing employees to electrical and shock hazards. 2. Employees were moved to the lower levels of the building due to the rains. The area started to smell like chemicals after the rain. 3. A recent fire marshal inspection found that the building was unsafe to be occupied due to multiple areas still being under constructing. 4. The downstairs women's restroom does not have a door and has no lighting. 5. Employees have been working around and over employees at their desks. Employees were not moved to be away from the construction workers. 6. Construction workers are wearing dust masks, but office staff are not being provided masks. 7. Office employees are using a drain cleaner when the restrooms clogs but have not been trained on the hazards of the chemicals.	Resolved through inquiry process.
C-2370016	Jones Henderson Acquisition LLC	Mercedes Benz of Henderson	11/14/2025	Online	Y			Closed	O-Safety	1. Employees are required to work in the car wash bay where the floors are wet and slippery posing a risk of slips and falls to employees.	Resolved through inquiry process.
C-2370137	Nevada Property 1 LLC	The Cosmopolitan of Las Vegas	11/19/2025	Online	Y			Closed	S-Safety	1. No lights work and employees are unable to see in the walk-in cooler at the chandelier bar on level 1.5 for over a week. There is broken glass on the floor.	Resolved through inquiry process.
C-2370157	Southwest Airlines Co.		11/19/2025	Online	Y			Closed	S-Health	1. The air conditioning inside the building / the main break room under C25 is damaged and is blowing cold air creating temperatures which are too cold. 2. Employees working outside in cold rainy weather are not provided with a warm/dry area to recover from the cold, personal protective equipment, or modified schedules. Employees are experiencing cold-stress symptoms including shivering, numbness, loss of dexterity, and difficulty warming up.	Resolved through inquiry process.

C-2370172	Super Color Digital, LLC		11/19/2025	Phone	Y			Closed	O-Health;O-Safety	1. In the warehouse, employees working on building a TV screen frame were not provided any personal protective equipment including a hard hat. A frame measuring approximately 16 feet in length and approximately 60 pounds hit an employee in the head who did not have any hard hat. 2. Outside the loading dock, employees digging through the dumpster bins to dispose paint and other chemicals that were emanating fumes were not provided any personal protective equipment, causing dizziness to the employees.	Resolved through inquiry process.
C-2370227	Mandalay Bay, LLC	Mandalay Bay Resort & Casino	11/19/2025	Phone	Y			Closed	O-Health;O-Safety	1. There is a water leak in the employee dining room, potentially causing a slip and trip hazard to employees. 2. There is sewage smell in the employee dining room. 3. The handicap access to the employee dining room is always blocked. 11/19/25 AL	Resolved through inquiry process.
C-2370281	Jim McCoy Detention Basin		11/19/2025	Online	N			Closed		1. On Jim McCoy site there is an open trench cars and public can fall in.	No action. No alleged employee exposure to hazard.
C-2370304	Certain Teed Gypsum Manufacturing, Inc		11/19/2025	Online	N			Closed		This complaint reports repeated and unaddressed Lockout/Tagout (LOTO) safety violations observed at CertainTeed Gypsum's Las Vegas plant (Blue Diamond). The plant has a pattern of non-compliance with OSHA's hazardous energy control procedures, endangering employee safety. Incident 1 – April 24, 2025: I reported a LOTO violation involving a supervisor (“Joe”) who entered an energized area without applying LOTO procedures. Despite the report, no action was taken, no investigation occurred, and the employee remained active in operations. Incident 2 – May 15, 2025 (UPA No. 2292525): Plant management acknowledged that I, a Production Superintendent, I had to work for 7.5 months without receiving LOTO training after being transferred from Canada. This was confirmed in a publicly posted notice dated May 16, 2025. I was exposed to energized equipment regularly without being properly trained. Incident 3 – July 29, 2025: I witnessed production and maintenance employees working on energized equipment without completing LOTO permit forms, in direct violation of plant policy and OSHA standards. I was unable to report this via the company system because management had confiscated my company phone and laptop days earlier. All incidents occurred on the production floor and affected both day and night shift teams. These hazards remain unresolved and represent systemic risk to employees. 8. Hazard Type(s): Inadequate or No Training, Lockout/Tagout Violations, Lack of Enforcement of Safety Policies, Retaliation for Reporting Hazards (if allowed), Other: Failure to investigate reported violations 9. Has this been brought to the employer's attention? Yes 10. If Yes, Employer's Response: Employer did not investigate the April incident. For May 15, the lack of training was acknowledged publicly but no corrective action or retroactive support was provided. The July 29 incident was not reported internally because management removed my ability to do so. - Certainteed Production Plan, main production building	Resolved through inquiry process
C-2370323	Fremont Street Experience LLC		11/18/2025	Online	N			Closed		1. Employees are subjected to communication breakdowns, hostile interactions, and lack of proper managerial oversight that creates an emotionally unsafe and psychologically stressful environment in the Fremont Street Experience administrative offices. 11/19/2025 JC	No action. No jurisdiction. Referred to EEOC.

Resolved through inquiry process.
C-2372213	University Medical Center of Southern Nevada		11/20/2025	Email	N			Closed		1. On 10/30/25 at 11:30 pm, in 2 South Room 205 The patient became violent, screaming at the top of their voice, kicking, biting, and spitting at all staff in the area. The patient spat in one employee's face and hit another on the back. The charge nurse called a doctor to get meds for the patient to calm them down. 2. On 10/29/25 at 1:00 am, in Adult ED Med 3 A patient was attempting to elope from the Adult ED and pushed past the employee cause the employee to fall and hit their wrist on the floor. The employee was able to gain control of the patient until additional employees arrived on scene. The patient was medicated and placed in 4-point safety restraints. 3. On 10/59/25 at 11:30 am, in 2 South Hallway A patient was in the hallway. While being directed back to their room, they wandered into the wrong room. The employee approached the patient to redirect them. The patient became agitated and grabbed the employee, causing a broken skin scratch on the arm. Patient went back to the room without further incident. 4. On 11/08/25 at 5:10 am, in MICU Room 35 The patient in MICU Room 35 was getting out of bed while actively disconnecting from telemetry equipment and IV's. The employee reoriented and explained to the patient that they were in the hospital. The employee began replacing the patient's leads and gown when the patient scratched the employee on the right arm. With the assistance of unit nursing leadership, the patient returned to bed without further incident.	No action. WPV program previously reviewed.

UPA Number	Establishment Name	DBA	UPA Receipt Date	Receipt Type	Valid	Do Inspection	Inspection Number	UPA Open or Closed	Severity-Subject	Hazard Desc & Location	Inspection Results/Comments
C-2372220	North Vista Hospital		11/13/2025	Online	N			Closed	O-Health	1. On October 23, 2025, against a registered nurse's medical directions, a phlebotomist drew blood from a patient's arm that contained a fistula placing the patient at risk of developing an infection. 2. On October 23, 2025, phlebotomists are not scanning patient armbands and labeling collected specimens in their presence. Instead, they are labeling specimens inside the laboratory resulting in instances where collected specimens are labeled incorrectly for different patients. This caused confusion among leads who can't complete their work correctly due to the mistakes. The Laboratory Director signed off on a new phlebotomist to work, and the same phlebotomist has not been trained to use the computer and scanners further risking mislabeling collected specimens from patients. The incidents have been addressed, but no corrective action has been taken. 3. On October 23, 2025, a medical laboratory technician has continuously failed their competency test or API exam three consecutive times. Despite the Chemistry Lead's intentions to write the employee up, the Laboratory Director objected. This could contribute to errors in patient testing and poses a risk to patient safety as no corrective action has been taken. The same medical laboratory technician, after working for three years at the facility, has failed multiple times to notify nurses and doctors of any critical results. There are concerns over how this employee handles the chemistry machine and how they are not properly conducting quality control before running tests to ensure accuracy, reliability, and consistency of results obtained. 4. On October 23, 2025, an employee that reported these concerns to the CNO of the hospital has been met with retaliation. They have placed this employee in different shifts, changed a schedule they have had for five years without notice, and added more responsibilities leading the employee quitting.	No action. No applicable standard. Complainant advised to file complaint with the Medical Examiner's Board.
C-2372246	North Vista Hospital		11/20/2025	Email	N			Closed	O-Safety	1. On 08/12/25 at 11:00 am, in Adult Psychiatric Unit Patient struck housekeeper in the head. AN 11/24/25	No action. WPV program previously reviewed.

C-2375210	Adryana Martinez		11/30/2025	Online	N			Closed		I have a serious libel case & potential employment conspiracy. At least employment abuse & intimidation. Idk. Libel case for sure that I need help with. There are rumors about me everywhere that aren't true. Someone is telling people I'm betrayer of the universe and I have no idea what that even means. I'm getting outcasted from jobs. This rich man with more means of power than me is feeling everyone I stalked him & was means to his wife when he texted me first and made me go crazy when he knew I was sick. He was tied to my job and he was best friends with my last boss. I want an injunction and some kind of protection order. He spreads rumors about me all over town and now it actually gets to people I meet and know. I believe he's even talked to my medical providers. You can help me take on the libel case bc I'll get in trouble for any employment conspiracies, I've been sick for a really long time and can't think straight anymore. I abuse my medication worse than ever and have done mrth and have seriously almost considered "call girling". I've committed crimes I would have never before or at least almost committed like fraud. I can't even pay my credit cards and am behind. I just forgot to pay them. I purposely crashed my car bc I thought no one was ini it. He texted me first, I know it and said "I love you" so I'm not crazy as if I'm stalking him. If anything it's the other way around. I get fired from jobs for not good reasons. I'm not even betrayer of the universe. He says to people I'm selfish and won't "die for anybody" like he's trying to get me killed. I NEED HELP. Oh and btw I crashed my car bc I tried fyi f for anybody and it was very hard. I thought no one was in the car and I was trying to do something brave. I smoked meth I can't get a job I'm very sick and need help. Thank you. There's proof I want the libel case pls. And the injunction and protection order. I need this to stop. There are testimonies and he can't perjure himself or the people he's spoken to? Right? Everyone is going to get so mad bc I'm taking him to court but I need help. I'm been sick since 2021 - this all started with him since 2022. I don't even know if I want a settlement or actual court. He's telling everyone I'm betrayer and a coward and all this stiff	No action. No applicable standard.

C-2375389	Living Grace Homes		11/21/2025	Online	N			Closed	O-Safety	The employer is requiring one staff member to supervise up to eight or more young women and children at a time in a group-home setting, including residents with known violent and high-risk behaviors. A resident reached out to staff regarding her mental health after she has already tried to leave the program. She was ignored. She then attempted to start a fire in the kitchen of the home by pouring grease in the hot oven. She was hospitalized and a few days later, returned to the home with the residents that feel like she tried to kill them. Her children were also present. Despite this known risk, the employer continued to assign only one staff member to the overnight and evening shifts with no on-site supervision or backup. Police have gone to the property several times after the attempted fire but there has still not been any additional supervision. Sometimes there isn't any supervision at all. Approximately one month ago, there was another violent incident in which a resident produced a weapon while only one staff member was present. Staff have not received proper emergency response training. They have not been trained on their positions, let alone on how to put out fires, make abuse/neglect reports, or how to handle crises such as suicidal or violent behavior. All residents are likely to have someform of mental health problem. These conditions pose a serious and recognized hazard of workplace violence, injury, or death. The employer has not implemented adequate staffing, hazard controls, or emergency-response measures to protect employees. Staff members have expressed concerns and fear with no fix to be seen. No mental health training, no de-escalation techniques, no staff. No guidance and no support - Entire property	No action. No applicable standard.

C-2377233	Valarie Fujii LV Law Offices		12/8/2025	Online	N			Closed		Valerie fuji failed to mention that the case number j-18-346558-p and case j-18-346568p 1,2,3,4,and 5 are all related and the only thing that changed was my name on original case . The other case number was given and a distant judge was assigned but the William Gonzalez party would be a relative only Simone who know my unknown family members names in 2019 would have known to put that name on the case then switch the case over using another mother's name. Then come to find out i was a missing person at three years old under the name molly scheffer , and identity theft of an unknown person claiming to be me but forensically proven not an exact match. That makes my mother Rebecca scheffer and that makes William Gonzalez next of kin to my grandfather king gorge the fith and my grandmother a nasa spaceship engineer and that makes my children kidnapped by a conspiracy and an attack on my family again she's switched car numbers on a ticket for being in a parking lot at a park bonanza trail as I was gonna run early one morning when Harassed by police officers. Now suddenly it's a felony charge that I need an attorney for and I have to have a warrant out for my arrest now. Even the cop said she didn't even know how to fill out the ticket because she's never written a ticket like that before.They don't write tickets like that anymore.She said. Along with multiple other traffic petty violations that have been nuisances in large bills, things like driving without someone over the age of twenty one when I have a license in two different states.And i'm almost forty years old.And the only and the only state i've ever had.A problemGetting a license in is nevada and it's not my fault.It's because of their d and v system.It sticks, dealing with seven years of c p s when it was a d a denied charge from the beginning.Abusing neglect was never found guilty and never seen in a criminal court as anything, except for denied, leading into a fraud investigation by case numbers.Being switched and all is provable.You cannot delete court cases.The names are there, it's bona fide evidence. Tenia of parental rights was amistake the judge took six months to decide and if it takes that long to decide it is not clear	No action. No violation of standard or hazard to employees alleged.
C-2377236	KFC		12/8/2025	Online	N			Closed		The store manager switches the time cards every time something expires instead of throwing away, expired food. If we are to expect an inspection, she will have us constantly change the tags so the chicken "never expires". This is also done with everything that's in the store mac & cheese other sides bread for the sandwiches the biscuits literally everything that she can change times for she does it. Also, if the chicken is expired in the freezer, she make sure that we make that first so she doesn't have to throw it away. - KFC store	No action. No jurisdiction. Referred to SNHD.
C-2377254	PedalPoint Recycling		12/8/2025	Online	Y			Closed	S-Safety	1. C-2382044	Amazon IXD - VGT2		12/16/2025	Online	N			Closed		I got injured & was told about my rate afterwards. After speaking to several managers about it someone helped. When I was accommodated with a lighter task Justin Hudson targeted me even after I did a ethics report on him. Another PA "personal assistant " did the same thing to me by telling me the rate is important after my training is done. This occurred on monday 12/15/2025 when he was "being a manager" when others are not working at all compared to me. I also filed one against the facility about many things that violated policy. They decided it did not go against any violations but it in fact did such as letting sexual harassment go by, letting managers bully & harass hourly workers, emphasizing that certain employees do tasks to help endanger them when working alone such as working inside the trailers with heavy machinery. Associates also had to work for nearly 3 years since the building opened to finally get pallet jacks when some pallets exceeded over 2000 lbs. When I told an AM named Michael over at inbound he told me what type of heads up would I like on these heavy pallets when others have shared that they should have Heavy stickers applied. I have seen safety violations done by managers & assistant managers who are allowed to get away with these violations like how the same manager Michael took the jam stairs under the belt line when if an hourly employee did that we would be terminated. The managers with integrity are really rare around here but the ones that are trying tend to be more for the employee than to let amazon continue their workplace standards to continue injuring many more employees by emphasizing that the rate is far more important than the employees health. Even when I have reported retaliatory behavior no one helped me out. I had management talk to me & hear me out but in all reality they were there to let these things continue. I respect everyone who I can talk to on a day to day basis but I seen that amazon does not respect its employees by promoting a empty shell like safety environment. I do admit that when brought to the attention of a right manager things may or will get done correctly but not always - Many manual labor	Resolved through inquiry process.

C-2384786	Amazon Fulfillment Services	Amazon.com Services LLC	12/16/2025	Online	N			Closed		There is a Psychological Safety Hazard that exist at this location. I returned to work after taking a mental heath leave 08/20025. Prior to taking leave i reported harassment issues i was having as well as bad behavior from lower management. When i returned i began to be targeted, retaliated against, discredited and provoked. Despite continuously reporting these issues to HR and Management the issues still continue. Tuesday 12/12/2025 at 7pm (start of shift) a manager (Adam) was standing at his desk on my work lane. At around 7:35pm i looked over and noticed he was processing returns which is not management work. Returns is entry level and thats what i do. He was at an angle best if he wanted to see everything i was doing. At the time i noticed this, there was trash overflowing on the lane. There was a lack of equipment (Blue Totes). And we were not able to drop totes on the conveyor meaning we would have to stack them on the floor next to our work are. With all these issues happening processing returns has to be the last thing he should have been doing unless he was targeting me. He stayed there until around 8:45pm. At around 10:10pm and Individual from the learning department comes and positions himself behind me. This guys name is Gio and i have reported him and his friend Alex a few times. There is a pattern of not just those two learning guys but of every one i have reported being place around as if to provoke me. I immediately walked away and called the Amazon Ethics Department to report the incident to hopefully insure i dont have any more issues for the day. I was also told by Stephanie a member of Management there were no reports in my file which explains why this has been going on for so long. At this point i have no faith in HR or Management and my Psychological health is at risk. - LAS2-Amazon returns center (Customer Returns Department) AN 12/30/25	No action. No applicable standard.
C-2384797	Lone Mountain Partners, LLC	Zen Leaf North Las Vegas	12/29/2025	Online	Y			Open	O-Safety	1. There is a water leak coming from the ceiling that is pooling water into an active light fixture located behind the sales counter. The water has now migrated to an area of the ceiling where our fire hub is located causing it to short circuit, exposing the employees in that area to an electrical hazard. AN 12/30/25	Open investigation.

C-2385009	Molina Healthcare of Nevada		12/4/2025	Online	N			Closed		I am a remote employee with Molina Healthcare. In August 2025, I experienced a psychologically unsafe working environment involving my direct supervisor. He was already aware that I have PTSD, and during two 1:1 meetings on August 5 and August 8, he engaged in verbally aggressive conduct, abusive communication; including yelling, profanity, and refusing to de-escalate when I stated directly that the interaction was triggering my PTSD symptoms. I informed him multiple times that I needed to end the call for my emotional safety, and he refused. I reported these incidents to HR. Following this, on August 26, 2025, HR held a mediation with my supervisor and me. During mediation, I stated clearly that I felt psychologically unsafe due to his conduct. Throughout this period, I also informed HR and the VP (Sara) verbally that I felt unsafe reporting to him. Despite this, I continued to be required to report directly to him weekly and attend meetings he led. In August 2025, I received temporary accommodations from HR allowing me to remain off camera during interactions with my supervisor due to triggering effects of his behavior. However, the requirement to continue reporting under him remained unchanged. I met with Leave & Accommodations on September 5, 2025, for my initial ADA discussion. I was advised that a formal doctor letter would be more favorable, though it was not required to move forward. I attended my medical appointment on October 1, and my doctor completed the formal accommodation paperwork on October 20. On October 24, 2025, during my meeting with HR; Leave & Accommodations informed me that two of my four accommodations were being recommended for approval, including: • audio-only 1:1 meetings when my supervisor was present, and • leadership participation during 1:1 meetings with him. I was told I could continue using my existing temporary accommodation of remaining off camera. However, after an internal meeting on November 18, 2025, my supervisor sent a team-email emphasizing "camera-on" requirements. Cameras had not previously been enforced, until after I received my temporary accommodations to not be on camera when my	No action. No applicable standard.

C-2387853	Terribles Herbst		12/31/2025	Online	N			Closed		Description of the Hazard: • I work solo on swing shifts (typically 8 hours, e.g., evening/overnight), which ive been told by my employer only recently is standard practice for this shift although at times I've had a coworker either work the same shift or overlap with my shift. • The employer allows me to lock the store for breaks only for 15 minutes at a time. • This limited closure time forces me to reopen quickly, leading to angry and aggressive customers who threaten me upon reopening. • Specific incidents include: • August 2025: Customer became verbally aggressive and threatened physical harm after I reopened, came behind the counter and robbed the vape pen cabinet preventing me from entering my work area. I had to stand outside until she left the store, got into her car and sped out of our parking lot. A police report was filed. • These also occur multiple times per month on mine and shifts before me and at other stores I've worked at. • The 15-minute policy prevents me from safely taking required breaks (or even brief personal time), as reopening triggers aggression. • Sporadic help/overlaps occur when staff is available, showing coverage is possible but not consistently provided due to chronic understaffing. Why This Is a Recognized Hazard: • Convenience stores/retail are high-risk for workplace violence, especially for lone workers (late hours, handling cash, public interaction). • Customer threats/aggression create a foreseeable risk of assault or harm. • The employer's policy exacerbates the hazard by not allowing reasonable closure time for safety. I have documented these incidents and can provide more details if needed. I have raised concerns internally without adequate resolution from either management or corporate staff. - 601 Marks Street Henderson NV 89014	No action. No alleged hazard.
C-2390906	The Cromwell - A Caesars Rewards Destination		12/29/2025	Online	Y			Closed	O-Safety	1. R-2356864	Spring Valley Hospital Medical Center		10/6/2025	Email	N			Closed		1. On 8/20/2025 at 8:55 a.m. at 4N, a patient who was recently taken off a mental health hold took a butter knife off of their breakfast tray and got up to approach the CNA. The patient stated they wanted to go back to jail. The patient was holding the knife up in the air towards the CNA, but did not make contact. Staff assisted to the area and removed the knife, and placed the patient in restraints. Metro was contacted and the patient was arrested. The CNA denied any injury and declined to be checked in and evaluated. 2. On 9/25/2025 at 1:00 a.m. in the ICU, a patient in the ICU was being verbally abusive towards staff, and threatening RN stating, "I will punch you in the face." Pt also was asking if the nurse had kids and was making lewd comments towards the nurse. The patient was also saying prejudice comments such as "I don't want Filipino nurses." This was escalated to clinical supervisor and unit manager, who went in to talk to the patient and state that this language will not be tolerated. The patient received a new nurse, and no further incident occurred. The nurse stated they feel fine to continue to work and did not want to press charges. 3. On 9/3/2025 at 2:30 a.m. in the ER, A patient who was under the influence of alcohol became agitated when the RN attempted to adjust the patient's IV. The patient proceeded to get more upset and started yelling obscenities at the nurse. The patient then kicked the nurse in the jaw and attempt to spit on staff. The patient was put in restraints. LVMPD was contacted and the patient was arrested. No injuries to staff or patient. The RN who was kicked sustained no injuries and declined to be checked in for an evaluation. No further incident. 4. On 9/14/2025 at 6:00 P.m. at ICU, A patient was in the process of being weaned off sedation medication and extubation started to get verbally aggressive with staff. The staff attempted to orient the patient to the process of extubation, however, the patient proceeded to grab multiple nurses' wrists and twist them, leaving a red mark on one of them. The patient was put in restraints with the assistance of other staff members, who continued to attempt to grab at other staff members. The staff members who had their wrists twisted were	No action. R-2359125	Terrible Herbst Convenience Store		10/14/2025	Online	N			Closed		Dear Sir or Madam, I am submitting this formal complaint to report unsafe working conditions, harassment, retaliation, and unfair employment practices by my former employer, Terrible Herbst, located at 10590 Southern Highlands Parkway, Las Vegas, NV 89141. During my employment, I was repeatedly harassed by an individual who entered the workplace and made me feel unsafe. I reported these incidents to both management and corporate leadership on multiple occasions. Unfortunately, my complaints were dismissed and even ridiculed, and no action was taken to ensure my safety or prevent further incidents. When the same individual later confronted me again, I was forced to defend myself. Following this incident, management accused me of violating company policies but failed to specify which policies I had allegedly broken. I was told that I could reapply after 90 days; however, when I attempted to do so, I discovered that I had been blacklisted. I believe this action was taken in retaliation for my repeated reports of unsafe working conditions and for defending myself when management failed to act. Additionally, my brother, who is currently employed by Terrible Herbst, informed me that a manager was previously terminated for similar safety and misconduct concerns but was later rehired. On October 9, 2025, my brother experienced a serious safety incident at the same store when two young men entered, one of whom jumped over the counter and threatened him by saying, "Don't be a hero." This incident demonstrates that the unsafe conditions I previously reported persist. I respectfully request that my brother be permitted to secure the store by locking the doors during evening or night shifts to protect his safety. I also request reinstatement at a different Terrible Herbst location where I can work without fear of retaliation or harassment. I ask that your office conduct a thorough investigation into these matters for potential violations of Nevada labor and workplace safety laws. Thank you for your attention to this serious matter. Sincerely, Nichole Chernobieff 9855 Gold Coin Court Las Vegas, NV 89141 Phone: (775) 682-1663 Email: ncharowwat@protonmail.com	No jurisdiction. Referred complainant to EEOC.

R-2361967	Ainsley at The Collective		10/28/2025	Online	N			Closed	O-Health;O-Safety	Hazard Description: On or around October 17, 2025, a major water line burst occurred on the second floor of The Ainsley at The Collective, located in Las Vegas, Nevada. Since that date, the affected residential hallway has been converted into an active construction zone, which has remained in continuous operation for more than a week. The hazards observed include: 1. Excessive Noise Exposure: Multiple industrial air movers, dehumidifiers, and construction tools have been operating 24 hours a day directly outside my apartment door. Noise levels appear to meet or exceed 85 decibels (dBA) for extended periods—equal to or above the OSHA action level for noise exposure (29 CFR 1910.95). The constant hammering, drilling, and vibration from high-powered fans have caused sleeplessness, anxiety, and headaches among residents. 2. Air Quality and Dust Exposure: Hallway walls have been opened for repairs, leaving exposed insulation, drywall, and debris. There is no visible containment or air filtration system in place to reduce airborne particles. The air feels dense, dusty, and carries a strong musty odor consistent with water damage, creating a potential respiratory hazard for both workers and residents. 3. Blocked Walkways / Emergency Egress Hazards: The hallway has been cluttered with fans, cords, and large equipment, making navigation difficult and potentially obstructing emergency evacuation routes. These conditions pose trip hazards and restrict accessibility. 4. Continuous Operation Without Rest Periods or Quiet Hours: Equipment runs 24/7 without breaks, contributing to excessive vibration and nonstop noise exposure for both workers and residents. There appear to be no designated quiet hours or shift rotations to reduce exposure levels. 5. Health and Psychological Impact: The ongoing noise, vibration, and air contamination have resulted in sleep deprivation, emotional distress, and tension among residents. Many are struggling with fatigue, stress, and anxiety due to the continuous disturbance and inability to rest. I last observed these hazards on October 27, 2025, and they continue to occur daily. Approximately 10–30 employees, contractors, and maintenance workers, as well as multiple residents	No action. Complainant withdrew complaint.
R-2362477	Kimco Staffing Services Inc/PERFORMANCE TEAM		11/1/2025	Phone	Y			Closed	O-Safety	1. R-2362802	Sunrise Hospital and Medical Center		10/28/2025	Email	N			Closed		On October 2, 2025, in the Comprehensive Medical Unit (CMU), a patient (PT) under an altered mental state kicked a registered nurse (RN) on their head. The RN refused treatment, denied sustaining any injury, and did not proceed to report the incident to security. On October 5, 2025, in the General Medical Unit (GMU), a male patient (PT) under an altered mental state made sexual comments and used abusive language toward a female registered nurse (RN). Staff were able to de-escalate the situation. No staff sustained any injuries and no medical care was needed. Security was notified of the incident. On October 7, 2025, in the Adult Emergency Room (AED), a trauma patient (PT) under an altered mental state became combative and tore through their restraints while staff were attempting to hold down the PT so that diagnostic imaging could be completed. The PT bit an Imaging Department staff member on the abdomen during this incident. The employee sought medical care. Las Vegas Metro Police Department were notified of the incident. On October 8, 2025, in the Comprehensive Medical Unit (CMU), a patient (PT) in respiratory distress was being assisted with a Bilevel Positive Airway Pressure (BIPAP) that had been removed by the PT. The PT proceeded to yell at the registered nurse (RN) that was assisting, slapped his hand, and called him racial slurs. The RN opted out of reporting the incident to security or pressing charges. No employee sustained any injuries and no medical care was needed. On October 9, 2025, in the Neuro/Stroke Services Unit (NSS), a patient (PT) that was placed on a medical hold was verbally abusive with staff. No staff sustained any injuries. The incident was only reported to security, not the police department. On October 10, 2025, in the Cardiac Catheterization Lab, a provider hit a registered nurse (RN) while she was holding a patient's (PT) breathing tube. The provider told her to wait was the tube was being pulled. The provider had hit the RN's hand for pulling the tube without checking to see if the tube was catching onto something else and monitoring the PT's airway. This incident is under investigation with Med Staffing. On October 13, 2025, in the Rehab Unit, a patient's (PT) son was verbally	Inspection conducted. 1 citation issued - \$597.50.

R-2371549	Universal Horror Unleashed		11/20/2025	Online	N			Closed	O-Safety	I have written a few days ago about my chronic neck pain due to wearing a latex mask for this company, who insisted afterwards that I wear more masks including a 10 lb helmet while neglecting my neck pain, which is why I quit. Yes, after 5 days, my neck is still very sore. But again, there are at least 25+ kids that are still wearing similar masks with the same problems but won't admit it because like me, they need the job. It is worth the look. - I was in the Dining Room as Grandpa for the TCM house, sitting in a wheelchair for about 4 straight months and flinging my body to the left. I still cannot pitch my head forward or backward, and if the pain persists, I will be forced to undergo an MRI to see if there are any structural damage to my spine, which of course, I cannot afford right now. It is this lack of caring which is the reason I feel they need to be investigated because quite possibly others will be hurt. Several already has, went through rehab and returned to work. But still, to rehab my neck just to wear the very thing that caused the pain? But if this isn't worth a look, I understand.	Resolved through inquiry process.

R-2372887	Unknown/Invalid Establishment		11/24/2025	Online	N			Closed		Repo Renovators Mynd Property Management Hazard Description: Repo renovators were contracted out from the Mynd property management company to perform a mold remediation on the home I am leasing. The person sent out to do the actual work Ramon Galvez tried to vent a commercial dehumidifier directly into a dryer vent creating a fire hazard and forcing contaminated moisture laden air into wall cavities. This was only stopped from happening because I intervened and told him not to do that! This is suppose to be a trained remediation professional and thought this was safe practice! As of today 11/20/2025 there is not a vent from any of the 3 running dehumidifiers being vented outside! Furthermore I was not given proper instructions on how to protect my pets my belongings from getting contaminated as now all of my belongings have been exposed. All of these issues have been brought to the attention of Mynd Property Management . I have filed a separate OSHA complaint against Mynd property management as this is their contractor. All of these issues present immediate health and safety issues that require OSHA to investigate. Hazard Description: Mold remediation work is currently being performed unsafely at my occupied residence by Repo Renovators contracted & supervised by Mynd a property Management. The contractor attempted to vent a commercial dehumidifier directly thru a dryer vent, creating a fire hazard and forcing contaminated moisture laden air into wall and cavities. This was only stopped because I saw what he was going to do and intervened. Drying equipment operated with hvac running, windows open and recent rainfall and high humidity violating OSHA's ventilation safety & mold remediation standards. Mynd prop management is attempting as recent as TODAY Nov 20,2025 to have a mold air testing co come in to test while dehumidifiers are still running, and without stabilization time violating - IIRC 5520, AIHA, ACAC, and EPA under air wuslity protocols for demolition dust, spores, and improper containment. Mynd prop Mgmnt today offered relocation for 2 days ONLY if we agreed to their air testing TODAY 11/20/2025 or Friday 11/21/2025 if	No action. No jurisdiction.

R-2375234	A Step Above Inc.		11/18/2025	Online	N			Closed	O-Health	On 11/18/2025, I was checking the fire extinguishers for safety reasons. 3 were expired in 2024. When I went to check on one that was in one of the trucks parked out front, it was wedged in between the passenger seat and the rear. I slightly grabbed it and it immediately started spraying everywhere in the truck, including my face. I was in shock and closed the truck door and the fire extinguisher emptied out inside the truck. I notified my manager Herman about what happened and told him about my symptoms. I was feeling nauseous and my skin, throat, nose and eyes were irritated. My boss' wife, Shauna, pulls up and notices the truck filled with white chemicals and I let her know exactly what happened to me. She gets mad, parks her truck and goes into her office. I took the 3 fire extinguishers, including the discharged one, a few doors down to get them updated and checked. They made an invoice for the company to pay upfront and I handed the invoice over to Herman, which he handed over to Jeremie and Shauna. They were mad, I assume, because of the bill. I was shortly notified that I had to vacuum the truck, which I agreed to. While vacuuming the truck, I start choking and getting irritated again by the chemicals. I started spitting, coughing and almost throwing up. I decided to take a breather and I let Shauna know how I was feeling. I had also told my boss, Jeremie, why I was taking a breather and how I was feeling. They didn't seem to like that and Jeremie got mad and serious with me. Neither Shauna or Jeremie asked if I was okay at any point. Instead, Jeremie yells at me for the keys and takes the truck around back. He tells me that it's not a big deal and that I need to continue cleaning the truck. I expressed that the chemical was an irritant, which made him furious. And he ignored me and walked straight to his office. I continued vacuuming the powder/chemicals from the truck, and when I vacuumed all that I could, I was notified that I was being fired. I drove myself to the ER as soon as I left the building due to all my facial parts being irritated and my dry breathing. - Front parking lot of 3400 West Desert Inn Rd. In front of suite # 14.	Resolved through inquiry process.
R-2375284	Dielco Crane Service, Inc.		12/3/2025	Phone	Y			Closed	O-Health	1. A crane operator was seated in the cab of the crane when another employee noticed the operator's head leaning back. The operator was unresponsive and was transported to Sunrise Hospital and Medical Center, where he was later pronounced deceased, possibly due to a heart attack. JA 12/3/2025	Resolved through inquiry process.
R-2375416	Silver State Glass & Mirror Company		12/2/2025	Online	Y			Closed	O-Health;O-Safety	1. There is visible black mold growing on the ceiling at the site. 2. The ceiling is collapsing, creating a struck-by hazard for employees. 3. The company has not established an extermination program to prevent the entry or harborage of rodents, insects, or other vermin.	Resolved through inquiry process.
R-2375515	BASE Entertainment Group, LLC	Criss Angel Theatre	12/3/2025	Phone	Y			Closed	O-Safety	1. In the Criss Angel Theater, Section 102, Row E, a hoist was left unsupervised. As a result, an individual grabbed the hoist, which lifted them approximately 10 feet into the air. JA 12/3/2025.	Resolved through inquiry process.
R-2375884	Transformco	Sears Home Services	12/4/2025	Phone	Y			Closed	S-Safety	1. On 12/1/25, an employee was accessing the homeowner's attic space to work on the HVAC system. As he was climbing through the ceiling opening, he fell to the floor.	Resolved through inquiry process.
R-2375949	Universal Protection Service, LP	Allied Universal	12/4/2025	Phone	N			Closed	S-Safety	1. An employee was experiencing abdominal pain and cramping. She was transported to Sunrise Hospital where she gave birth.	No action. Not work-related.

R-2376435	Avanti Windows & Doors, LLC		12/5/2025	Phone	Y			Closed	O-Safety	1. An employee was on an extension ladder preparing a window opening when they fell onto the dirt floor. The employee was transported to Sunrise Hospital, where they were admitted for multiple fractures to both feet and ankles. JA 12/5/2025	Resolved through inquiry process.
R-2376826	The FRIENDS™ Experience: The One in Vegas		12/2/2025	Online	Y			Closed	S-Safety	1. Employees exposed to overcrowded and ergonomically inadequate office workstations, including working at folding tables and chairs in congested spaces without proper seating, desk height, or safe clearances. 2. Employees exposed to unsanitary conditions from leaking overhead pipes that emitted strong sewage-like odors, creating potential contact with contaminated wastewater. 3. Employees exposed to ongoing water intrusion and mold hazards from the leaking "Fountain" attraction, including overspray and moisture accumulation that contributed to visible black mold growth and musty odors in the guest and staff work areas.	Resolved through inquiry process.
R-2376871	Motel 6 Las Vegas NV Downtown Fremont Street		12/2/2025	Online	Y			Closed	S-Health;S-Safety	1. Employees exposed to biological hazards from the presence of a dead rodent beneath a guest bed. 2. Employees exposed to pest entry points and unsanitary conditions due to open vents/pipes in guest rooms, increasing the likelihood of rodent intrusion.	No action. Attempted to contact complainant for additional information. Complainant unresponsive.
R-2376925	Valley Health System, LLC.	Henderson Hospital	12/2/2025	Email	N			Closed	S-Health;S-Safety	1. On 09/02/2025 at approximately 7:30am in 5B a patient was upset that she was not permitted to eat prior to a scheduled procedure. Not receptive to education and threatened to "beat" the nurse. Patient was escorted off property by Security. No injury to staff.	No action. WPV program previously reviewed.
R-2376963	Kushberry Farms		12/2/2025	Phone	Y			Closed	S-Health;S-Safety	1. Employees exposed to unsanitary conditions where the facility lacked a functioning potable water system, requiring all water to be trucked in and manually transferred using 5-gallon buckets for flushing toilets, creating recognized risks of contamination, improper sanitation, and inadequate waste disposal. 2. Employees exposed to the absence of reliable handwashing facilities due to no running water in the building, preventing effective hand hygiene and increasing the potential for the spread of infectious agents during normal work activities. 3. Employees exposed to potential biological and indoor air quality hazards from the facility's use of a wet wall cooling system, which can support the growth of mold, algae, and other microorganisms when not properly maintained, increasing the risk of respiratory irritation or illness.	Resolved through inquiry process.
R-2376994	Capriotti's Sandwich Shop		12/8/2025	Phone	Y			Closed	S-Health;S-Safety	1. Employees exposed to burn hazards from hot surfaces or hot liquids during food service operations, resulting in an employee sustaining burns from the wrist to the elbow without the employer providing immediate first aid or appropriate medical assistance, creating a recognized risk of serious injury.	Resolved through inquiry process.

The employee was admitted to UMC was the was hospitalized. Surgery was performed on the employee's right lower ankle. cw 12/11/2025	Resolved through inquiry process.
R-2379246	MAC.BID - North Las Vegas		12/3/2025	Online	N			Closed		1. I was assigned work duties that violated my medical restrictions and directly worsened my back injury. I reported a work-related back injury on November 12 and provided a doctor's note stating I was not allowed to bend, squat, or perform certain physical tasks. Even after providing the note, I was repeatedly required to perform tasks that involved bending, squatting, reaching low, and scanning heavy or low-placed items. These duties went directly against my medical restrictions. Because management continued to assign me work that I was medically restricted from doing, my injury became worse. I had to return to the doctor, who confirmed my back condition had worsened due to these job duties. My employer did not provide proper accommodation or adjust my tasks to match the restrictions. This created unsafe working conditions and placed my health at risk, ultimately forcing me to leave the job.	No action. No applicable standard. Referred to the EEOC and whistleblower section.
R-2379464	Elara by Hilton Grand Vacations		12/12/2025	Phone	N			Closed	O-Health	1. The employer has not insured that all construction on the 57th floor was notified to employees. Employees are experiencing nausea and bloody noses as a result of dust that has accumulated from renovations. 12/12/2025 KR	Open investigation.

R-2379530	Firerock Construction		12/12/2025	Phone	Y			Closed	S-Safety	1. On December 11th at 2:55 PM, an employee was on the roof of a two-story house rolling roof trusses. The retractable "yoyo" part of their harness stopped functioning, and the employee lost stability and fell off of the roof. They were then transported to UMC Trauma, where they were hospitalized overnight with a broken rib, and internal bleeding. 12/12/2025 KR	Resolved through inquiry process.
R-2379560	Travel + Leisure		12/8/2025	Online	N			Closed		lack of cleaning supplies, environmental hazards with more than 40 employees and they did not provide clean office equipment nor the means to keep them maintained. They would also recycle headsets for phone calls, and keyboards / peripherals. Hazard Location: corporate offices, for Wyndham Destinations. 10750 W Charleston Blvd ste 130, Las Vegas NV.	No action. Not enough information to process.
R-2379578	Quest Events		12/11/2025	Online	N			Closed		On November 24, 2025, while working an Instawork shift at this location for Quest Events, I was subjected to a workplace violence incident by a site supervisor/business partner. As I attempted to leave the worksite, the supervisor approached my Uber vehicle, grabbed the Uber driver's car door, and yelled directly in my face in front of multiple witnesses. I felt physically threatened and unsafe. I reported this incident to Instawork and informed them that I had a witness (my Uber driver). Instawork failed to investigate the safety issue or follow up with me. Shortly after I reported the workplace violence and asked them to address it, Instawork retaliated by deactivating my account and citing a reason that had never been mentioned before ("multiple accounts"). The hazard remains unaddressed because the individual who acted aggressively continues working at the site, meaning other workers may be exposed to the same danger. This "Lead" is black, has a beard, was wearing a ball cap at the time. The incident occurred in the parking and pickup area outside the Grandstand at Elara. The supervisor approached my Uber vehicle, grabbed the door, and confronted me aggressively at close range.	No action. No jurisdiction.
R-2380071	AK NV	Rebel Gas Station	12/15/2025	Phone	Y			Closed	O-Safety	1. On 12/14/2025 at 9:15 am, an employee was stocking a shelf when the employee noticed previous symptoms of a brain aneurysm. 911 was called and the employee was transported to Sunrise Hospital. 12/15/2025	Resolved through inquiry process.
R-2380101	Western States Contracting, Inc.		12/15/2025	Phone	Y			Closed	O-Safety	1. No adequate illumination in work area when employees have to inspect semi-trucks. 2. The employer did not follow protocol for when a work incident occurred when driving semi-trucks and employees are not provided with medical aid. 12/15/2025 AR	Resolved through inquiry process.
R-2380105	D.R. Horton, Inc.		12/15/2025	Phone	N			Closed	S-Safety	1. On 12/11/2025 at 2:40pm, a Firerock Construction employee was rolling trusses on lot 3 when the retractable life line locked and caused the employee to lose balance. The Firerock Construction employee grabbed the top plate to stop themselves from falling when the tension released from the retractable life line and they lost their grip and fell from the second story. The employee was taken to UMC and sustained an injury to their left shoulder and head. 12/15/2025 AR	Resolved through inquiry process.
R-2380228	HJH LLC	The Cove	12/15/2025	Online	Y			Open	O-Health	1. On December 13, 2025, the building smelled of strong gasoline odor, causing employees and guests to be light-headed.	Resolved through inquiry process.

R-2380813	Takeda Pharmaceutical Company Ltd.	BioLife Plasma Services	12/13/2025	Online	N			Closed		This report is of myself being bullied and threaten at my job while I was on break November 23, 2025. On this Sunday the plasma center opens at 8am. I started my shift at 7am to open the building and get the screening area ready for plasma donors. After we opened the building donor begin to come in. There is a system and steps the donors need to follow before an individual can donate their plasma. This process is called "screening" we check vitals and the hematocrit of each donor to make sure the donor is eligible to donate, after the screening process is complete, we hand the donors a color card to direct them to different station to evenly fill each section/station with donors, so no particular station is over filled. During this process an employee name Ashley silve walked up to me and asked me "why are donor not being sent to different stations, I told her we don't have any more cards, she yelled at me, and our floor manager (Edwin) heard her and told me "Tiffany do not response I will handle this later" I walked away without incident. later that morning Edwin and Ashley were coming out of the back warehouse, Ashley looked very upset at me and rolled her eyes. I continued working. Later, in the morning I went on my 20min break. while on break I went into the locker room to get my phone. When I turned around, Ashley was looking at me very strongly and evil. I asked her "What is your problem" she responded "Don't say anything to me or I will kick your A**", and what are you going to do about it. I said, "We can handle this now" and she walked out the locker room. I assumed it was over, but Ashley returned with her friend "B". Both of the girls corned me in the locker room and was going to jump me (fight me), I became very upset, and we were yelling at each other, a different manager name (Gio) witness both girls corning me and yelling at me. He told them to go back to their workstations. I was on my break so I could not do anything but try and defend myself. I am a 50yr old woman and these girls are in their early 20's. After they walked out Gio tried to get the story of what was happening, but I was so upset, nothing made any sense. As I was trying to explain (Edwin) walked into the locker	No action. Complainant stated that alleged hazards were being addressed by management.
R-2381022	TCMI Church		12/16/2025	Phone	Y			Closed	S-Safety	1. In the dry goods warehouse, stored materials, including pallets and boxes, are stacked at heights were they are unstable and are not secured to prevent sling or collapse. 2. Storage areas in the dry goods warehouse are not kept free from accumulation of materials that constitute hazard. 3. Egress pathways and exits are blocked in the dry goods warehouse. 12/16/2025 SM	Resolved through inquiry process.
R-2381131	Desert Parkway Behavioral Healthcare Hospital, LLC		12/17/2025	Phone	Y			Closed	O-Health	1. On December 17th, 2025, the facility had two water lines shut off from 10 PM to 5 AM on December 18th, 2025. KR 12/17/2025	Resolved through inquiry process.
R-2381282	Unimacts Manufacturing		12/2/2025	Online	Y			Closed	S-Safety	1. Employees are operating equipment in the manufacturing plant without proper training. Management is aware of this and is not doing anything to correct this hazard. 2. Employees are not performing Lock-Out/Tag-Out procedures before performing maintenance and service on the machines. Management is aware of this and is not doing anything to correct this hazard. 3. Employees and management representatives are smoking marijuana vape pipes throughout their work shifts. They are operating forklifts and manufacturing equipment while under the influence. Management has not done anything to address this issue or to prevent this behavior.	Resolved through inquiry process.

The employer has failed to ensure all employees performing maintenance work were provided with personal protective equipment (PPE), such as respirators and Tyvek suits, upon removing potentially asbestos containing material (PACM) from units and performing routine repairs. 2. The employer failed to perform a survey prior to removal of a leaking roof within unit C201, C246, and other units within the apartment to test for PACM. 3. There has been no asbestos remediation work done within the facility. 4. Management simply repairs location of asbestos disturbance when removing sheetrock. 5. The employer failed to notify Nevada OSHA about asbestos abatement taking place within the facility, such as for unit C201. 6. The employer failed to complete final clearance prior to tenant reoccupancy. 12/17/2025 KR	Inspection conducted. No citations issued.
R-2381290	Armscor Precision Inc.		12/17/2025	Phone	N			Closed	O-Health	1. At approximately 11:00 AM on November 19th, 2025, an employee was leaving a taxi and collapsed on the ground. He was to attend a work event in Idaho, and CPR was performed on him at this time. He was later taken to a hospital and was pronounced dead at 11:42 AM from an aneurism. 12/17/2025	No action. Employer-Employee relationship could not be established.
R-2381303	Oltmans Construction Co	WHT BX Decatur LLC	12/16/2025	Online	Y			Closed	O-Safety	1. A management official engaged in aggressive and threatening behavior by yelling profanities and ordering an individual to leave the jobsite. 2. A blocked emergency exit leading to South Decatur Blvd was blocked by a vehicle for approximately five minutes. 3. A scissor lift was operating overhead at a building entrance without a designated spotter, exposing employees entering or exiting the building to struck-by or overhead hazards. 4. A scissor lift was missing required chains. 5. Employees operating scissor lifts are not trained. 6. Construction workers do not have hard hats where overhead hazards are present. 7. Employees using hand and power tools were not wearing eye protection. 8. Extension cords were run over by equipment or vehicles, with some cords damaged. 9. The general contractor did not consistently conduct jobsite safety inspections to identify and correct hazardous conditions. 10. Workers and supervisory personnel do not have OSHA-10 or OSHA-30 construction training. 11. The general contractor does not have a documented workplace violence prevention program or training for supervisory personnel. 12. Employees were not informed of emergency procedures, evacuation routes, or emergency response protocols due to the absence of inadequacy of an Emergency Action Plan. JA 12/17/2025	Resolved through inquiry process.
R-2381639	Octapharma Plasma Inc		12/18/2025	Phone	Y			Closed	S-Health;S-Safety	1. On May 15, 2025, the employer failed to conduct an incident investigation following a threat with a weapon. 2. The employer allows food and drinks to be consumed by employees in the same environment as the occupational exposure to bloodborne pathogens. 12/18/2025 KR	Resolved through inquiry process.
R-2381759	Healthy Minds		12/19/2025	Online	N			Closed	O-Health	1. Used needles are stored in a sharps containers located in the MA's office without a sharps container. Employees accessing that area utilize supplies near the open sharps container.	Resolved through inquiry process.

NRS 618.347 – Report Concerning Issuance of NRS 618.375(1), NRS 618.375(2)

General Duty Citations by the Division

2nd Quarter FY26: October – December 2025

1. Bender Warehouse Company dba Bender Group - Inspection 1842129

Nevada Revised Statutes 618.375(1): Duties of employers. Every employer shall furnish employment and a place of employment which are free from recognized hazards that are causing or are likely to cause death or serious physical harm to his or her employees.

Located in the southeast corner of the warehouse area, the employer did not furnish employment and a place of employment which are free from recognized hazards that are causing or likely to cause death or serious physical harm to employees by not anchoring the vertical columns of the racking system to the concrete floor.

The storage racks were not secured to the ground by sufficient means of anchoring and were at risk of being tipped over or collapsing after being struck by a forklift used in the facility. Employees performing fulfillment and inventory duties were potentially exposed to recognized hazards of crush-by injuries in the event of the storage racks tipping or collapsing.

Reference ANSI MH 16.1 Specification for Design, Testing, and Utilization of Industrial Steel Storage Racks. American National Standards Institute (ANSI) standard MH16.1-2012 (a revision of MH16.1-2008): Specifications for Design, Testing and Utilization of Industrial Steel Storage Racks, which includes, among others, the following:

Among other methods, a feasible means of abatement could be for the employer to follow the requirements of American National Standards Institute (ANSI) MH16.1-2008.

Proposed Penalty - \$6,207.00

2. Smart & Final Stores, LLC, Store 585 - Inspection 1843345

Nevada Revised Statute 618.375(1): Duties of employers. Every employer shall furnish employment and a place of employment which are free from recognized hazards that are causing or are likely to cause death or serious physical harm to his or her employees.

The employer did not ensure that employees were protected from recognized hazards that are likely to cause serious physical harm in the following instances:

Located at the facility, in the receiving warehouse, pallets of beverages are loaded onto a damaged metal racking system using a Crown Lift Truck (Model Number SHR5520-30, Truck Data Number RTL12706341VS1C-WT, Serial Number 6A267343) operated by store employees.

- a. Located at the facility, in the receiving warehouse, a section of the racking system marked SWS was observed in service with a damaged upright column post with two pallets weighting up to 2,325 pounds each that were placed on the damaged racking system at heights of up to 7 feet from the walking surface and exposing employees to the recognized hazard of being struck-by or crushing should there be a catastrophic failure of the racking system. The metal uprights were bent, skewed, and twisted starting at the base of the upright anchor point.
- b. Located at the facility, in the receiving warehouse, a section of the racking system near the Corona and Modelo beverages was observed in service with a damaged upright column post with a pallet weighting up to 2,325 pounds that was placed on the damaged racking system at heights of up to 7 feet and exposing employees to the recognized hazard of being struck-by or crushing should there be a catastrophic failure of the racking system. The metal uprights were bent, skewed, and twisted starting at the base of the upright anchor point.

Reference: ANSI MH16.1 2012 Specification for the design, testing and utilization of industrial steel storage racks. Section: 1.4.9 Rack damage.

Section 1.4.9 Rack Damage

Preventing damage to rack is beyond the scope of this Specification. See the Commentary for broader discussion of this topic. Upon any visible damage, the pertinent portions of the rack shall be immediately isolated by the user until the damaged portion is evaluated by a storage rack design professional. Before allowing the rack to be placed back into service, the design professional must certify that the rack system and/or the repaired components have been restored to at least their original design capacity.

A feasible means of abatement would be for the employer to follow the requirements of American National Standards Institute (ANSI) MH16.1 2012 for racking systems.

Proposed Penalty - \$7,235.00

3. Save Mart Supermarkets - Inspection 1850933

Nevada Revised Statute 618.375(1): Duties of employers. Every employer shall furnish employment and a place of employment which are free from recognized hazards that are causing or are likely to cause death or serious physical harm to his or her employees.

The employer did not ensure that employees were protected from recognized hazards that are likely to cause serious physical harm in the following instances:

Located at the facility, in the receiving warehouse, pallets of store back stock are loaded onto a damaged metal racking system using a Linde Lift Truck (Model Number EWS40, Serial Number 2684-299) operated by store employees.

- a. Located at the facility, in the receiving warehouse, a section of the racking system marked Bay 28 was observed in service with a damaged upright column post and supporting a pallet weighting up to approximately 500 pounds that was placed on the damaged racking system approximately 7 feet 3 inches above the walking surface and exposing employees to the recognized hazard of being struck-by or crushing should there be a failure of the racking system. The metal upright was bent, skewed, and twisted starting at the first tier of the racking system.
- b. Located at the facility, in the receiving warehouse, a section of the racking system marked Bay 11 was observed in service with a damaged upright column post and supporting a pallet weighting up to approximately 500 pounds that was placed on the damaged racking system approximately 7 feet 3 inches above the walking surface and exposing employees to the recognized hazard of being struck-by or crushing should there be a failure of the racking system. The metal upright was bent, skewed, and twisted starting at the base of the upright anchor point.

Reference: ANSI MH16.1 2012 Specification for the design, testing and utilization of industrial steel storage racks. Section: 1.4.9 Rack damage.

Section 1.4.9 Rack Damage

Preventing damage to rack is beyond the scope of this Specification. See the Commentary for broader discussion of this topic. Upon any visible damage, the pertinent portions of the rack shall be immediately isolated by the user until the damaged portion is evaluated by a storage rack design professional. Before allowing the rack to be placed back into service, the design professional must certify that the rack system and/or the repaired components have been restored to at least their original design capacity.

Abatement Note: Among other methods, one feasible means of abatement would be to remove the racking from service.

Proposed Penalty - \$8,038.00

4. Pershing County Water Conservation District - 1851289

Nevada Revised Statute 618.375(1): Duties of employers. Every employer shall furnish employment and a place of employment which are free from recognized hazards that are causing or are likely to cause death or serious physical harm to his or her employees.

Located at the facility, in the maintenance bay, a BendPak hydraulic vehicle lift (Model XPR-12FD, serial #912-001, power unit #5307, 208-230V, 50-60 Hz, 1Ph, 18A), was observed to be available for use without having undergone a required periodic inspection, thereby exposing employees to recognized hazards such as crushing and falling objects.

Reference: ANSI/ALI ALOIM: 2008 (R2013) "Standard for Automotive Lifts - Safety Requirements for Operation, Inspection and Maintenance", Section 5.5.

Among other methods, one feasible means of abatement would be to have the lift inspected periodically per ANSI/ALI ALOIM: 2008 (R2013) and the manufacturer's recommendations.

Proposed Penalty - \$3,547.00

5. Michael David Russell dba A+ Tires - 1851552

Nevada Revised Statute 618.375(1): Duties of employers. Every employer shall furnish employment and a place of employment which are free from recognized hazards that are causing or are likely to cause death or serious physical harm to his or her employees.

The employer did not ensure that employees were protected from recognized hazards that are likely to cause serious physical harm in the following instances:

On September 19, 2025, an employee was exposed to the recognized hazard of an inadequately supported load while replacing the landing legs on a 53-foot trailer that was parked in a dirt lot and not connected to a tractor. To support the trailer during the replacement, the employee used two Butler stabilizer jacks (model ST-100-C), each rated for 50,000 lbs. The trailer was loaded with dog food weighing 44,986 lbs., and the trailer itself weighed approximately 14,000 lbs., resulting in a total weight of about 58,986 lbs. The employee positioned the stabilizer jacks approximately three to four feet from the front of the trailer, rather than directly under each front corner. This placement exposed the employee to hazards including the potential collapse of the trailer and crushing injuries in the event of jack failure.

Reference: Section 204 ANSI B30.1-1943, Safety Code for Jacks.

Section 204 - Supporting Point

To prevent overloading, the manufacturer shall designate by printed instructions or otherwise the intended supporting point of the load, and the maximum permissible length of lever and force applied.

The manufacturer, Butler Products, had a sticker affixed to the stabilizer jacks that read: '2. Place jacks under each front corner of the trailer.

A feasible means of abatement would be for the employer to follow the requirements of American National Standards Institute (ANSI) B30.1-1943, Section 204, Safety Code for Jacks and the manufacturer's directions. Or, utilize an alternative method such as keeping the trailer attached to the tractor to prevent it from falling.

Proposed Penalty - \$3,547.00

6. Aramark Services, Inc. dba Union Supply Group, Inc. - 1853621

Nevada Revised Statute 618.375(1): Duties of employers. Every employer shall furnish employment and a place of employment which are free from recognized hazards that are causing or are likely to cause death or serious physical harm to his or her employees.

The employer did not ensure that employees were protected from recognized hazards that are likely to cause serious physical harm in the following instance:

Located at the facility, in the warehouse, at Aisle 07, Rack 31, Level 1, POS A, 7 ODD, a metal racking system was observed in service with a damaged vertical column post. The vertical column post exhibited a tear that detached a section of the column post from the base plate, which compromised the strength of the rack system exposing employees to the recognized hazards of struck-by and crushing in the event of racking failure. The tear measured a total of 4 inches. The damaged vertical column post was supporting 3 upper tiers of pallets, with 2 pallets allocated per tier, each pallet having a weight of up to 1,800 pounds.

Reference: ANSI MH16.1 2012 Specification for the design, testing and utilization of industrial steel storage racks. Section: 1.4.9 Rack damage.

Section 1.4.9 Rack Damage

Upon any visible damage, the pertinent portions of the rack shall be immediately isolated by the user until the damaged portion is evaluated by a storage rack design professional. Before allowing the rack to be placed back into service, the design professional must certify that the rack system and/or the repaired components have been restored to at least their original design capacity.

A feasible means of abatement would be for the employer to follow the requirements of the American National Standards Institute (ANSI) MH16.1-2012 for racking systems.

Proposed Penalty – \$8,038.00

7. Black Tie Exhibits - 1825215

Nevada Revised Statute 618.375(1): Duties of employers. Every employer shall furnish employment and a place of employment which are free from recognized hazards that are causing or are likely to cause death or serious physical harm to his or her employees.

Black Tie Exhibit Rentals did not furnish employment and a place of employment free from recognized hazards that cause or likely to cause death or serious physical harm to their employees. In the employer's warehouse, five groups of storage racks were used to store various trade show exhibit materials including aluminum frames, rugs, plywood, and large crates. The base of the storage racks were not anchored to the floor. Employees were potentially exposed to serious injuries such as struck-by or crushing injuries in the event of failure of the storage racks in two instances:

1. An employee used an electric forklift (Model: Unknown) to move rugs and aluminum frames from the storage racks.
2. Employees assembling and disassembling exhibit booths were working in proximity of the unanchored storage racks.

Reference: ANSI MH 16.1 - 2012 Specifications for the Design, Testing and Utilization of Industrial Steel Storage Racks. Section 1.4.7. Column Base Plates, Column Base, Column-Base Beams and Anchor Bolts.

The bottom of all columns shall be furnished with column base plates, as specified in Section 7.1. All racks columns shall be anchored to the floor with anchor bolts, which shall be designed in accordance with Section 7.3, to resist all applicable forces as described in Section 2.1 or section 2.2.

A feasible means of abatement is to anchor the storage racks in accordance with ANSI MH 16.1 – 2012.

Proposed Penalty - \$3,015.00

8. SLS Arts Inc. - 127549

Nevada Revised Statute 618.375(1): Duties of employers. Every employer shall furnish employment and a place of employment which are free from recognized hazards that are causing or are likely to cause death or serious physical harm to his or her employees.

The employer did not ensure that employees were protected from recognized hazards that are likely to cause serious physical harm. Employees were exposed to recognized crush-by hazards created by the use of storage racks with columns that were not anchored to the floor with anchor bolts. Storage racks located in Suite 109 were not anchored to the floor in multiple locations along the aisle located adjacent to the wall, bays numbered 6 - 18. The storage racks were located throughout the west and east sides of the property and were at risk of being tipped over or collapsing while art materials such as pallets of paper rolls, canvases, markers, and empty boxes were being loaded and unloaded with a forklift.

Reference: Section 1.4.7 and 1.4.9 of ANSI MH16.1-2008 Specification for the Design, Testing and Utilization of Industrial Steel Storage Racks.

Section 1.4.7 Column Base Plates and Anchors

The bottom of all columns shall be furnished with column base plates, as specified in Section 7.2. All rack columns shall be anchored to the floor with anchor bolts capable of resisting the forces caused by the horizontal and vertical loads on the rack.

A feasible means of abatement would be for the employer to follow the requirements of American National Standards Institute (ANSI) MH16.1-2008. The employer must ensure that column base plates of each storage rack are properly anchored to the floor.

Proposed Penalty - \$3,547.00
