

1 NEVADA OCCUPATIONAL SAFETY AND HEALTH

2 REVIEW BOARD

3  
4 CHIEF ADMINISTRATIVE OFFICER  
5 OF THE OCCUPATIONAL SAFETY AND  
6 HEALTH ADMINISTRATION, DIVISION  
7 OF INDUSTRIAL RELATIONS OF THE  
8 DEPARTMENT OF BUSINESS AND  
9 INDUSTRY,

Docket No. LV 13-1660

Complainant,

vs.

10 WOODLAND FRAMING, INC.,

Respondent.

11  
12  
13 D E C I S I O N

14 This matter having come before the **NEVADA OCCUPATIONAL SAFETY AND**  
15 **HEALTH REVIEW BOARD** at a hearing commenced on the 14<sup>th</sup> day of August  
16 2013, in furtherance of notice duly provided according to law, DONALD  
17 SMITH, ESQ., counsel appearing on behalf of the **Chief Administrative**  
18 **Officer of the Occupational Safety and Administration, Division of**  
19 **Industrial Relations** (OSHA), and CHRISTOPHER McCULLOUGH, ESQ., appearing  
20 on behalf of respondent, **WOODLAND FRAMING, INC.**; the **NEVADA OCCUPATIONAL**  
21 **SAFETY AND HEALTH REVIEW BOARD** finds as follows:

22 Jurisdiction in this matter has been conferred in accordance with  
23 Nevada Revised Statute 618.315.

24 The complaint filed by OSHA sets forth allegations of violations  
25 of Nevada Revised Statutes as referenced in Exhibit "A," attached  
26 thereto.

27 Citation 1, Item 1 charges a violation of 29 CFR 1926.501(b)(1).  
28 The complainant alleges two respondent employees were engaged in framing

RECEIVED  
SEP 11 2013  
LEGAL-DIR-HND

1 activities approximately 27 feet from the ground level and were not  
2 connected to anchor points. The violation was classified as a  
3 **Repeat/Serious** and a proposed penalty assessed at Four Thousand Dollars  
4 (\$4,000.00).

5 Counsel for the complainant and respondent stipulated to the  
6 admission of respective evidence packets identifying complainant  
7 Exhibits 1 through 5, and respondent Exhibits A through L.

8 Counsel for the Chief Administrative Officer presented testimony  
9 and evidence with regard to the alleged violations. Certified Safety  
10 and Health Officer (CSHO) Mr. Eric Aros testified that on or about April  
11 24, 2013 he conducted an inspection of the respondent's construction  
12 work site in Las Vegas, Nevada. Mr. Aros referenced the Exhibit 1  
13 inspection reports and identified photographs at Exhibit 2. CSHO Aros  
14 testified he observed two respondent employees working on a roof  
15 structure wearing safety harnesses but without "tie-off" to any anchor  
16 points. Mr. Aros confirmed from the blue prints that the height of the  
17 working surface from the ground level was approximately 27 feet which  
18 required fall protection under the cited standard. After identifying  
19 the hazard, he confirmed the violation should be classified as serious  
20 due to the likelihood of serious injury or death by a fall from the  
21 working height to the ground level. He described the injuries to be  
22 sustained by an employee falling from the working height and the method  
23 for calculating the proposed penalty. Mr. Aros further testified with  
24 regard to the prior violation by respondent for a similar citation which  
25 provided a basis for the repeat/serious classification and identified  
26 the documentary evidence to confirm same.

27 On cross-examination, Mr. Aros testified respondent employee Corona  
28 admitted during the investigation that the employees were on the roof

1 for a "few minutes" without tie-off. He further confirmed the fall  
2 arrest system safety equipment had been provided by the employer. (See  
3 Corona witness statement Exhibit 1, Page 18.) In continuing responses  
4 to cross-examination Mr. Aros testified he was informed the lead  
5 employee, Mr. David Kauffman told the subject employees to tie-off the  
6 morning of the inspection, which they had done but apparently later  
7 disconnected. (See Kauffman witness statement Exhibit 1, Page 19.)  
8 Counsel inquired as to why this would not be a case of unpreventable  
9 employee misconduct for intentionally disconnecting their tie-off. Mr.  
10 Aros responded the employees were not following instructions and while  
11 told they had previously been disciplined he felt the defense would have  
12 been sufficient if it was a first violation. Counsel inquired as to  
13 whether an employee who intentionally breaks the law is committing  
14 employee misconduct, to which CSHO Aros responded affirmatively.  
15 Counsel referenced NRS 618.605 and paraphrased the statute as providing  
16 that ". . . an employee cannot remove protection . . ." and inquired of  
17 the witness if that was correct. Mr. Aros responded affirmatively.  
18 Counsel further inquired whether it was logical to assume the employees  
19 unhooked themselves if they were first seen attached and then later  
20 disconnected. Mr. Aros responded he was unable to answer the question.  
21 Counsel continued inquiry and questioned whether the witness had any  
22 information to contradict the fact that no employee of respondent had  
23 suffered a fall injury in 110,000 reported hours of work. Mr. Aros  
24 indicated he was unable to answer.

25 At the conclusion of the complainant's case, the respondent  
26 presented testimony and documentary evidence in defense of the citation.  
27 Respondent witness, Mr. Kim Ecott, identified himself as the 31 year  
28 general manager for respondent and it's predecessor company. He

1 testified the respondent provided all equipment and training required  
2 by OSHA together with close supervision of its employees. He testified  
3 that on the particular job he personally inspected the worksite daily  
4 in both the morning and evening hours. Mr. Ecott testified he has  
5 repeatedly warned and disciplined employees for fall hazard compliance,  
6 but it is extremely difficult to assure compliant employees in the  
7 framing business due to the extensive Las Vegas labor shortage of  
8 qualified framers. He identified and testified with regard to the  
9 respondent's Exhibit K, safety manual, Exhibit G, the warnings given to  
10 the two employees involved in the cited violation, and the company  
11 disciplinary program. He explained the program requires first a verbal  
12 warning, then a written reprimand and on the third instance the employee  
13 is terminated. He identified Exhibit J as examples of other  
14 disciplinary notices rendered to other employees.

15 On cross-examination Mr. Ecott testified there was no foreman on  
16 the job site at the time of the inspection. The respondent authority  
17 to discipline is vested in the foreman, general manager and owner. He  
18 testified to overseeing the site himself because there were only eight  
19 employees working and there were other job duties and job sites that  
20 required attention. He testified that he checked this job regularly in  
21 the morning and the afternoon, as well as other sites, but at different  
22 times so that the employees would be unable to predict his times of  
23 arrival. Mr. Ecott testified the fall protection safety plan had been  
24 provided to the subject employees and referenced the documentary  
25 evidence in support of same. He was questioned as to the document pages  
26 appearing different, but explained that certain areas had been updated  
27 and inserted in the plan. He further testified the subject employees  
28 did review the plan and underwent safety training and in fact

1 retraining. Mr. Ecott explained the subject employees quit after being  
2 previously disciplined and easily obtained other work immediately due  
3 to the labor shortage, then later rehired and retrained by the  
4 respondent. He described the retraining process involved as part of the  
5 company standard practice.

6 At conclusion of the respondent case, the complainant and  
7 respondent presented closing argument.

8 Complainant argued the burden of proof had been met to establish  
9 the violation as cited and the repeat status confirmed without rebuttal.  
10 He asserted that it was undisputed the two employees on the roof were  
11 not tied off, working at a hazardous fall height as governed by the  
12 standard and would clearly suffer serious injury or death from a fall  
13 at the working height. Counsel identified the key issue of the case as  
14 whether the asserted defense of employee misconduct had been  
15 established. Counsel argued the defense of employee misconduct must  
16 fail because the respondent had not met its burden of proof to establish  
17 same. He noted the company had employee compliance problems at its  
18 worksite because there was no foreman nor a full time general manager  
19 which was evidence of ineffective enforcement of the safety rules and  
20 its own plan.

21 Respondent presented closing argument and reviewed the bases for  
22 finding no violation due to unpreventable employee misconduct. He  
23 argued the board must draw inferences from the unrebutted evidence which  
24 included 110,000 man hours without a single fall accident, so the ". . .  
25 employer must be doing things right . . ." He asserted the respondent  
26 is a safe employer and there was no problem found by the CSHO with  
27 regard to the company safety plan and training. He argued that  
28 termination of employees for infractions simply does not work because

1 they ". . . get rehired across the street . . . due to the shortage of  
2 qualified framing employees in the Las Vegas area . . ." The  
3 respondent rehired the subject employees after previous violation but  
4 took the reasonable steps of retraining them in safety, which should be  
5 found as evidence, directly or by inference, of meaningful enforcement  
6 to support the defense of unpreventable employee misconduct. Counsel  
7 argued that employees break the law by unhooking their own safety  
8 attachment line, despite all the training and oversight, but ". . . an  
9 employer simply cannot fire everybody nor can it oversee everyone on  
10 every day at all job sites . . ." He asserted that this was a classic  
11 case of unpreventable employee misconduct and the board should find no  
12 violation based upon the facts in evidence and the recognized case law.

13 In reviewing the testimony, evidence, exhibits and arguments of  
14 counsel, the board is required to measure same against the elements to  
15 establish violations under Occupational Safety & Health Law based upon  
16 the statutory burden of proof and competent evidence.

17 In all proceedings commenced by the filing of a  
18 notice of contest, the burden of proof rests with  
the Administrator. (See NAC 618.788(1)).

19 All facts forming the basis of a complaint must be  
20 proved by a preponderance of the evidence. See  
*Armor Elevator Co.*, 1 OSHC 1409, 1973-1974 OSHD  
21 ¶16,958 (1973).

22 A "serious" violation is established in accordance with NRS  
23 618.625(2) which provides in pertinent part:

24 . . . a serious violation exists in a place of  
25 employment if there is a substantial probability  
26 that death or serious physical harm could result  
27 from a condition which exists or from one or more  
practices, means, methods, operations or processes  
28 which have been adopted or are in use at that place  
of employment unless the employer did not and could  
not, with the exercise of reasonable diligence,  
know the presence of the violation.

To establish a prima facie case, the Secretary

1 (Chief Administrative Officer) must prove the  
2 existence of a violation, the exposure of  
3 employees, the reasonableness of the abatement  
4 period, and the appropriateness of the penalty.  
5 *Bechtel Corporation*, 2 OSHC 1336, 1974-1975 OSHD  
6 ¶18,906 (1974); *Crescent Wharf & Warehouse Co.*, 1  
7 OSHC 1219, 1971-1973 OSHD ¶15,047. (1972).

8 To prove a violation of a standard, the Secretary  
9 must establish (1) the **applicability** of the  
10 standard, (2) the existence of **noncomplying**  
11 **conditions**, (3) **employee exposure** or access, and  
12 (4) that the **employer knew or with the exercise of**  
13 **reasonable diligence** could have known of the  
14 violative condition. See *Belger Cartage Service,*  
15 *Inc.*, 79 OSAHRC 16/B4, 7 BNA OSHC 1233, 1235, 1979  
16 CCH OSHD ¶23,400, p.28,373 (No. 76-1948, 1979);  
17 *Harvey Workover, Inc.*, 79 OSAHRC 72/D5, 7 BNA OSHC  
18 1687, 1688-90, 1979 CCH OSHD 23,830, pp. 28,908-10  
19 (No. 76-1408, 1979); *American Wrecking Corp. v.*  
20 *Secretary of Labor*, 351 F.3d 1254, 1261 (D.C. Cir.  
21 2003).

22 A respondent may rebut allegations by showing:

- 23 1. The standard was inapplicable to the situation  
24 at issue;
- 25 2. The situation was in compliance; or lack of  
26 access to a hazard. See *Anning-Johnson Co.*,  
27 4 OSHC 1193, 1975-1976 OSHD ¶ 20,690 (1976).

28 The board finds that while the complainant evidence to support for  
the burden of proof of violation at Citation 1, Item 1, the respondent  
met its burden of proof to rebut and avoid a finding of violation  
through the recognized defense of **unpreventable employee misconduct**.  
The burden of proof rests with OSHA under Nevada law (NAC 618.788); but  
after establishing same, the burden shifts to the respondent to prove  
any recognized defenses. See *Jensen Construction Co.*, 7 OSHC 1477, 1979  
OSHD ¶23,664 (1979). Accord, *Marson Corp.*, 10 OSHC 2128, 1980 OSHC  
1045 ¶24,174 (1980).

The elements required for the defense of unpreventable employee  
misconduct are:

- (1) The employer must establish **work rules**  
designated to prevent the violation

- 1 (2) The employer must **adequately communicate** these  
2 rules to its employees
- 3 (3) The employer must take **steps to discover violations**
- 4 (4) The employer must **effectively enforce the rules**  
when violations have been discovered.

5 In the subject case, the evidence was undisputed that the employer  
6 had **established work rules** designed to prevent the violation. After  
7 inspection by the CSHO, the safety plan and documentation presented and  
8 reviewed were found satisfactory and not subject of citation. The  
9 supporting sworn testimony of Mr. Ecott must be given reasonable weight  
10 and credibility. It was not impeached. Mr. Ecott testified with regard  
11 to the existent safety program and work rules to satisfy the first  
12 requirement for the defense of employee misconduct. NVOSHA did not  
13 establish preponderance of evidence that respondent failed to **provide**  
14 **the type or amount of sufficient training that a reasonable employer in**  
15 **similar circumstances would have provided to its employees.** See, *El*  
16 *Paso Crane and Rigging CO.,*, 16 BNA OSHC 1419, 1424 (No. 90-1106, 1993).  
17 *Pacific Coast Steel v. State of Nevada, Occupational Safety and Health*  
18 *Administration, Division of Industrial Relations, Department of Business*  
19 *and Industry, Case A-11-634068-J, Clark County District Court,*  
20 unpublished.

21 The employer **adequately communicated** the rules through training of  
22 its employees as demonstrated by the documentary evidence and unrebutted  
23 sworn testimony of Mr. Ecott. There was no evidence offered or  
24 submitted by complainant that the employees were untrained, not given  
25 safety instructions, nor instructed in the workplace safety requirements  
26 in the company plan. Further the evidence demonstrated the plan and  
27 rules had been reviewed by the employees involved in the incident. The  
28 unrebutted testimony was the subject employees were also retrained when

1 rehired. While the bilingual employee supervision, management and  
2 oversight were not optimal, there was indeed sufficient testimony and  
3 evidence corroborated by the documentation that the respondent employer  
4 trained its employees in the safety program and adequately communicated  
5 the rules to its employees both verbally and in written English and  
6 Spanish.

7 The employer took **steps to discover violations**. Mr. Ecott  
8 testified as to the company disciplinary program for violations and the  
9 documentary evidence supported there was indeed a system in place for  
10 safety oversight. Mr. Ecott testified that he inspected this site twice  
11 daily and at different times. The job site consisted of only eight  
12 employees who had been trained in safety, although not working with a  
13 foreman. The employees were also instructed by "lead" or fellow  
14 employee Kauffman to attach their safety lines on the day of the  
15 inspection. The evidence is that they did attach but then later the  
16 evidentiary inference reflects they unhooked their lines for no apparent  
17 or justifiable reason. The inspection report reflects Mr. Corona  
18 informed the CSHO that they had only been on the roof for a few minutes  
19 without the attachment. The other statements indicate time frames from  
20 20 minutes to 1 hour. No employer can absolutely assure or police every  
21 moment of an employee's work day to guarantee compliance nor is there  
22 any OSHA requirement for same. The case law has long recognized the  
23 elements of violation through **reasonable prevention and foreseeability**.

24 The employer **effectively enforced work rules** when violations were  
25 discovered. The documents in evidence established the existent company  
26 safety plan, the disciplinary action provision, and the "three strikes  
27 your out" policy was uncontroverted. Mr. Ecott testified he enforced  
28 the disciplinary rules in accordance with the plan. With an eight-man

1 job site, spot checking by a supervisory employee twice daily at non-  
2 defined hours, then issuing first verbal then written warnings and  
3 termination, are evidence of effectively enforced work rules. While  
4 this portion of respondent's safety program might arguably be minimally  
5 sufficient by comparable standards to accomplish the intended result  
6 because of rehiring employees who previously violated the safety rules,  
7 it is enough under the recognized case law to demonstrate enforcement  
8 in accordance with the defense of unpreventable employee misconduct.

9 Evidence that the employer effectively communicated  
10 enforced safety policies to protect against the  
11 hazard permits an inference that the employer  
12 justifiably relied on its employees to comply with  
13 the applicable safety rules and that violations of  
14 these safety policies were **not foreseeable or**  
15 **preventable.** *Austin Bldg. Co. v. Occupational*  
16 *Safety & Health Review Comm.*, 647 F.2d 1063, 1068  
17 (10<sup>th</sup> Cir. 1981). When an employer proves that it  
18 has effectively communicated and enforced its  
19 safety policies, serious citations are dismissed.  
20 See *Secretary of Labor v. Consolidated Edison Co.*,  
21 13 O.S.H. Cas. (BNA) 2107 (OSHRC Jan. 11, 1989);  
22 *Secretary of Labor v. General Crane Inc.*, 13 O.S.H.  
23 Cas. (BNA) 1608 (OSHRC Jan. 19, 1988); *Secretary of*  
24 *Labor v. Greer Architectural Prods. Inc.*, 14 O.S.H.  
25 Cas. (BNA) 1200 (OSHRC July 3, 1989). (emphasis  
26 added)

27 *National Realty and Construction Co., Inc. v.*  
28 *OSHRC*, 489 F.2d 1257 (D.C. Cir. 1973), is the  
fountainhead case repeatedly cited to relieve  
employers responsibility for the allegedly  
disobedient and negligent act of employees which  
violate specific standards promulgated under the  
Act, and sets forth the principal which has been  
confirmed in an extensive line of OSHC cases and  
reconfirmed in *Secretary of Labor v. A. Hansen*  
*Masonry*, 19 O.S.H.C. 1041, 1042 (2000).

An employer cannot in all circumstances be held to  
the strict standard of being an absolute guarantor  
or insurer that his employees will observe all the  
Secretary's standards at all times. An isolated  
brief violation of a standard by an employee which  
is unknown to the employer and is contrary to both  
the employer's instructions and a company work rule  
which the employer has uniformly enforced does not  
necessarily constitute a violation of [the specific  
duty clause] by the employer. *Id.*, 1 O.S.H.C. at

1 1046.

2 It is further noted that "employers are not liable  
3 under the Act for an individual single act of an  
4 employee which an employer cannot prevent." *Id.*,  
5 3 O.S.H.C. at 1982. The OSHRC has repeatedly held  
6 that "employers, however, have an affirmative duty  
7 to protect against preventable hazards and  
8 preventable hazardous conduct by employees. *Id.*  
9 See also, *Brock v. L.E. Meyers Co.*, 818 F.2d 1270  
10 (6<sup>th</sup> Cir.), cert. denied 484 U.S. 989 (1987).

11 The controlling cases make clear the existence of  
12 an employer's defense for the unforeseeable  
13 disobedience of an employee who violates the  
14 specific duty clause. However, the disobedience  
15 defense will fail if the employer does not  
16 effectively communicate and conscientiously enforce  
17 the safety program at all times. Even when a  
18 safety program is thorough and properly conceived,  
19 lax administration renders it ineffective. *P.*  
20 *Gioioso & Sons, Inc. v. OSHRC*, 115 F.3d 100, 110-  
21 111 (1<sup>st</sup> Cir. 1997). Although the mere occurrence  
22 of a safety violation does not establish  
23 ineffective enforcement, *Secretary of Labor v.*  
24 *Raytheon Constructors Inc.*, 19 O.S.H.C. 1311, 1314  
25 (2000) the employer must show that it took adequate  
26 steps to discover violations of its work rules and  
27 an effective system to detect unsafe conditions  
28 control. *Secretary of Labor v. Fishel Co.*, 18  
O.S.H.C. 1530, 1531 (1998). Failure to follow  
through and to require employees to abide by safety  
standards should be evidence that disciplinary  
action against disobedient employees progressed to  
levels of punishment designed to provide  
deterrence. *Id.* See also, *Secretary of Labor v.*  
*A&W Construction Services, Inc.*, 19 O.S.H.C. 1659,  
1664 (2001); *Secretary of Labor v. Raytheon*  
*Constructors Inc.*, 19 O.S.H.C. 1311, 1314 (2000).  
A disciplinary program consisting solely of verbal  
warnings is insufficient. *Secretary of Labor v.*  
*Reynolds Inc.*, 19 O.S.H.C. 1653, 1657 (2001);  
*Secretary of Labor v. Dayton Hudson Corp.*, 19  
O.S.H.C. 1045, 1046 (2000). Similarly, disciplinary  
action that occurs long after the violation was  
committed may be found ineffective.

25 Based upon facts, evidence and testimony, it is the decision of the  
26 **NEVADA OCCUPATIONAL SAFETY AND HEALTH REVIEW BOARD** that no violation of  
27 Nevada Revised Statutes did occur as to Citation 1, Item 1, 29 CFR  
28 1926.501(b) (1) and the proposed penalties are denied.

1 The Board directs counsel for the **respondent** to submit proposed  
2 Findings of Fact and Conclusions of Law to the **NEVADA OCCUPATIONAL**  
3 **SAFETY AND HEALTH REVIEW BOARD** and serve copies on opposing counsel  
4 within twenty (20) days from date of decision. After five (5) days time  
5 for filing any objection, the final Findings of Fact and Conclusions of  
6 Law shall be submitted to the **NEVADA OCCUPATIONAL SAFETY AND HEALTH**  
7 **REVIEW BOARD** by prevailing counsel. Service of the Findings of Fact and  
8 Conclusions of Law signed by the Chairman of the **NEVADA OCCUPATIONAL**  
9 **SAFETY AND HEALTH REVIEW BOARD** shall constitute the Final Order of the  
10 **BOARD**.

11 DATED: This 9th day of September 2013.

12 NEVADA OCCUPATIONAL SAFETY AND HEALTH  
13 REVIEW BOARD
