

## ***Driving Audit Value Through Data***

***Alzina Cua, Director of Internal Audit, Employers***; is currently the Director of Internal Audit for Employers. Prior to that she was the Analytics and Automation Manager for International Game Technology, in which she built the analytics and automation program within the Internal Audit department. She has over 15 years of audit experience including IT, operational, and financial audits. She believes that data analytics and automation is needed in the audit profession to keep pace with the growing library of risks and complex processes
