This pamphlet is provided to inform stakeholders of some significant points concerning workers’ compensation insurance in Nevada.
Provide Information as Requested by the Administrator in Accordance with the Statutes and Regulations

♦ NRS 616B.003, 616B.006 and 616B.009

Statute requires that an audit be conducted of all insurers at least once every five years and that the information obtained be shared with the Division of Insurance and reported to the Legislature. These on-site audits are conducted by the Workers’ Compensation Section (WCS) to ensure all insurers providing benefits to injured employees are administering claims in accordance with chapters 616A to 617 inclusive of the NRS and NAC.

All insurers are required to complete and submit information, statistics and reports to the Administrator of DIR as specified by regulation, or as requested. An Annual Expenditure Report must be completed each year. Occasionally, surveys or studies are also conducted by DIR and results used for statistical purposes.

Submit Records to the Administrator of the Division of Industrial Relations for the Index of Claims

♦ NRS 616B.012 and 616B.018

An Index of Claims has been established within the DIR for use by insurers, and may only be accessed for workers’ compensation purposes. Contact the Carson City office of DIR, WCS for further information regarding submit tal of records and utilization of the Index of Claims.

Administrative Action

♦ NRS 616C. 220, 616D.120, and 617.401

If the DIR determines that an insurer is in violation of chapters 616A to 617 inclusive of the NRS/NAC, the following may be assessed:

1. Notice of Correction;
2. Written Plan of Corrective Action;
3. Benefit Penalty; and
4. Administrative Fine

What services must an insurer provide in Nevada?

♦ NRS 616B.021 and 616B.027

An insurer must provide an in-state claims office with person(s) who can act for the insurer and a statewide toll-free telephone number or accept collect calls for ease of access.

The office must administer and maintain a complete file of each claim, including all information and documentation, and provide appropriate access to the claim files for review or copy purposes. The actual file may be located outside of Nevada, providing records are accessible by computer at an office in Nevada and hard copies are available within 24 hours for open claims and 14 days for closed claims.

Other Requirements

♦ NRS & NAC Chapters 616A.021 to 617 inclusive

The insurer must provide services to an employer or employee as required. This includes the provision of adequate information on the prevention of industrial accidents and occupational diseases; and controlling losses.

All insurers must use the claims administration forms and posters adopted by the Administrator of the Division of Industrial Relations (DIR).

All insurers are assessed an annual fee by the Administrator of DIR to support the functions of the various agencies providing services to the workers’ compensation program in the state of Nevada. Agencies include the Division of Industrial Relations; Division of Insurance; Nevada Attorney for Injured Workers; Department of Administration, Hearings Division; the Uninsured Employers’ Claim Account; and the Subsequent Injury Claim Accounts.

What will happen if the employer does not obtain or maintain workers’ compensation insurance?

DIR/WCS is responsible for making sure that all employers are in compliance with the law. Employers who do not have workers’ compensation insurance may be charged with an administrative fine of up to $15,000 ($50,000 for claims resulting in substantial bodily harm or death) and may have their business ordered closed until insurance has been obtained. If an employee sustains a work related injury, the uninsured employer may be held financially responsible for all costs and face criminal charges (NRS 616D.200).

Are claims adjusters required to be licensed in Nevada?

Starting July 1, 2018, certain workers’ compensation claims adjusters are required to be licensed. The Nevada Division of Insurance (DOI) is responsible for adjuster licensing education and testing. More information regarding the new licensing requirements can be found on the DOI web site at http://doi.nv.gov/uploadedFiles/doi/nv.gov/public-documents/Licensing/adjuster-licensing-changes-new-requirements_TH%202005022018.pdf. Additionally, all employer representatives at a workers’ compensation hearing, with the exception of attorneys and full-time employer representatives, must be licensed (NRS 616C.325). For more information contact the Hearings Division, or visit the website at: http://hearings.nv.gov/license/WC_License/
