

The Patient Is the Wildcard!

Harvey Warren, Injured Worker - has enjoyed many careers from screenwriter to film producer to financial services professional. As author of the [Optimized Patient](#) book and survivor of three spine surgeries, he writes about the problem that “patients want to get better, they just don’t know how”. Optimized Outcome Solutions translates his book into a service providing real-time guidance on how to “get better faster and stay better longer.” Harvey is a co-founder of Optimized Outcome Solutions.
